PREFACE.

Financial affairs during 1915 have been wholly governed by the War. Throughout the year the 5 per cent. Bank Rate, put into operation on August 13, 1914, has been in force, but for several months was not effective, open market terms being much less; for a considerable period day-to-day money was only worth about ¾ per cent per annum, and the rate for discounting three months' bank bills ranged between 1½ and 2. Towards the end of June, however, firmer conditions set in, owing to the imminence of fresh Government borrowings, and since then, with heavy demands for gold for export, market terms have approximated much more nearly to the official charge at the Bank of England. Owing to the extent to which Government disbursements had to be made week by week, the enormous amount borrowed in order to carry on the war had little more than a temporary effect on the Money Market, and it says much for the banking organisation of this country that the transfer to Government account in the third week of July of upwards of £200,000,000 in respect of payments on the War Loan was effected without causing the slightest difficulty to the banks or Money Market.

In the middle of April a new system of issuing Treasury Bills through the Bank of England was inaugurated, applications being invited daily, for any amount, at rates posted up at the central institution; the plan proved eminently successful, although after the issue of the War Loan the higher value of money for a time checked sales, but rates for the bills were raised in October (and again in November), with satisfactory results, and at October 31, 1915, there were drafts outstanding, issued in this way, for no less than £227,497,000, and, after deducting bills issued by tender under the old arrangements, which have been paid off, the Government received about £160,000,000 between March 31 and October 31, 1915, by the issue of such drafts. In view, however, of the enormous expenditure incurred through the war, a bigger effort had to be made, and in June applications were invited at par for a 4½ per cent. War Loan, to the amount of which no limit was fixed. The issue was a conspicuous success, the amount subscribed through the Bank of England having been about £570,000,000, while, with facilities offered to smaller investors, through the Post Office and in other ways, the total amount issued probably exceeds £600,000,000. At the time, Consols and certain other British Government securities were practically unsaleable at the minimum prices fixed by the Stock Exchange Committee acting in conjunction with the Treasury, and the Chancellor of the Exchequer hit upon the happy idea of offering subscribers to the new loan certain conversion rights in respect of Consols, 2½ per cent. and 2¾ per cent. Annuities, and the old War Loan, the results being threefold, by adding to the subscriptions to the new loan, increasing the marketability of Consols, &c., and consolidating the British Government debt.

Down to the end of August the stock of gold held by the Bank of England had scarcely altered at all on balance, the chief features in this connection having been a remittance of £8,000,000 from Petrograd, with a view of rehabilitating Russian credit here, and, on the other hand, the setting aside of £10,000,000 to the note currency redemption fund (in passing it is as well to place on record

646434

the steadily increasing use of the new 10s. and £1 Treasury notes, the net amount in circulation on November 11, 1915, having been, inclusive of certificates, £87,690,389). In August and September, however, in consequence of the huge excess of American exports to this country, in the shape of munitions of war and ordinary commodities, the New York exchange on London fell away to such an extent that considerable withdrawals of gold took place, and from January 1 to November 17 the Bank of England on balance lost gold on foreign account to the value of £16,563,000. New York cable transfers on London were at one time down to the abnormally low level of 4·49, or, in other words, the value of the sovereign as between Great Britain and America was reduced to about 18s. 8d. Probably owing to the fact that their attention was occupied with other even more pressing matters, the Government delayed taking steps to meet this serious situation, but ultimately an important financial commission, consisting of British and French representatives, was sent to America, and arranged a joint Anglo French loan in the United States for $500,000,000, to carry 5 per cent. interest, and this was rapidly subscribed for at 98 per cent. So far, however, little effect has been seen on the exchange, which is still much below the normal level, and individual efforts are now being made by some of our banks to open up credits in New York. Continental exchanges have moved much in our favour, and at the present time the Russian rouble, the French franc, and the Italian lire are much depressed as against their usual values.

A welcome feature has been the placing of War Loans locally by the Canadian, Australian and New Zealand Governments. A Canadian loan for $45,000,000 has also been disposed of in New York.

A steady improvement in our external commerce, as shown by the Board of Trade figures, has been taking place during the year, but our foreign relations of this character have been most seriously affected by the war, to the extent that in the ten months to October 31, exclusive of bullion, our imports exceeded our exports and re-exports by no less than £314,000,000, while even this is without taking cognisance of all Government munition purchases. Owing to the war no useful comparison can be made with the year 1914, but, taking the figures for 1913, the last normal trade year, the adverse balance in the first ten months was only £100,000,000. The financial balance has in the past always been set right by the enormous amount we have drawn from foreign countries in the shape of interest on investments, payment for services rendered by our mercantile fleet, &c., &c.

In these foreign investments there has happily been no fresh serious experience. With the continued disastrous political condition of the country, Mexico remains a notorious defaulter as regards the State debt, and naturally the railways and other companies working in the country have experienced grave financial difficulties. In Brazil, however, conditions are improving, probably, in part at least, as the result of the Government funding scheme put into operation last year, but some of the States and Municipalities have had to bring forward schemes for the temporary rearrangement of their liabilities to the public. Some difficulties have also been experienced by American railways, but, on the whole, credit has been well maintained, and there has been nothing like the long list of defaults to which we had to draw attention in this Preface a year ago. A good many British companies, however, have reduced their dividends, while, in other cases, distributions have been altogether withheld, and the publication of the annual reports has in a very large number of instances been delayed by shortage of staff.

Throughout the foregoing recital reference to the Stock Exchange has been

intentionally held over. After prolonged negotiations between the Treasury and the Committee of the "House," the markets were reopened on January 4, and since then the official list has given a complete record daily of actual transactions "marked," while, when no dealing has taken place, the last business, with the date on which it took place, is given, this record taking the place of the buying and selling quotations formerly stated. Moreover, the Committee decided on an extremely useful innovation, namely, the publication of a list giving the transactions in securities to which an official quotation has not been granted, and it is to be hoped that this will be continued after the war is over. A comparison of prices at the present time with those at the beginning of this year shows, as might have been expected, an all-round and serious depreciation, due very largely to the higher rate of interest that the British Government have had to offer on their new loan, which has naturally had the effect of lowering the basis of credit of all investments. As regards Consols, the minimum price regulation having been removed, dealings are now taking place freely at round about 60, and the decline in British Funds and Home Corporation's stocks ranges, speaking generally, from 1 to 3 per cent. on the year. Colonial and Provincial Government securities have had losses ranging from 1 to 4, while in Foreign Government issues some Russian bonds have receded from 12 to 20, Brazilians 20 to 35, Chilians 10 to 18, and Buenos Ayres Province bonds over 40, while German loans have fallen about 20, and Austrian 15 to 30; it is, of course, quite impossible to fully enumerate the declines, from the list of which Japanese form a prominent exception, having risen from 1 to 8. The market for Home Railway securities has been idle during the year, and with labour unrest and general market conditions the loss in values have been severe, being in many cases well over 20 as regards ordinary stocks, while in a few cases prior charges have lost still more heavily. Indian Railways are moderately lower, and, as regards Colonial undertakings, the feature has been furnished by Canadian Pacific shares, which in January were quoted 160, then dropped away to nearly 145, and have since advanced to the region of 200, the improvement being due to the substantial growth in earnings resulting from the movement of the crops. American Railway shares have been one of the few firm features of the year, nearly all the leading lines showing advances, Atchison being 20 better than in January, Baltimore and Ohio 31, New York Central 26, and Norfolk and Western 23. In Foreign Railways the fall has been especially material, notably in Argentine, Brazilian and Mexican undertakings; prominent losses have been 40 in Cordoba Central second preference, 30 in Interoceanic of Mexico 4 per cent. debenture stock, 38 in Paraguay Central prior lien debenture stock, 45 in San Paulo, and 36 in Mexican first preference, while Ottoman Railway first and second debenture stocks are 40 and 47 down respectively, and in others there are numerous declines ranging up to 25, while United of Havana has risen about 8.

Bank shares have lost in value all round, and so have Breweries, Guinness stock having quite recently changed hands at a decline of 166 compared with the January level. In Commercial Companies there has been a severe fall in all prior charges, and also in a great many shares, but Canadian concerns now engaged in the manufacture of munitions have risen substantially, notably Canadian Car and Foundry, the common being 63 better, and the preferred 28. British Armament shares are also a little higher, as are some companies quoted in the Iron and Coal section, Dominion Steel shares showing a rise of

32, Steel Company of Canada 20, and United States Steel 41. Hotel and Refreshment companies have lost heavily, some Savoy Hotel debenture issues being from 5 to 17 down, and Spiers and Pond debenture issues from 11 to 35. Despite a recent recovery, Mexican utility companies have suffered a severe depreciation, but Canadian Electric concerns have been as a rule firm. In the Land and Finance section, Hudson's Bay shares, which were 6¾ at the beginning of the year, dropped very nearly to 4, on the absence of dividend for the past year, but have since recovered to about 7; in others there has, as a rule, been a decline on balance. Probably, in no section of the Stock Exchange has heaviness been more marked than in Financial Trusts, many of which have lost from 20 to 30, while Industrial and General has relapsed no less than 63, Foreign and Colonial deferred 50, Metropolitan ordinary and Omnium deferred 43, and Mercantile ordinary, American Investment deferred, and Bankers' deferred 38 to 40. The reduction in dividends has seriously affected Gas stocks, many of which are 10 to 20 down. Mines have gone back, although not very materially; Insurance shares are lower; Nitrates have suffered from general conditions and the closing down until October of many of the oficinas; and Oil shares have moved irregularly. Owing to the enormous profits recently made, Shipping undertakings have risen, Peninsular and Oriental deferred being 25 up. Tea shares have advanced sharply, and the strength of Rubber shares has been quite a feature, in view of the increased distributions resulting, not so much from the advance in the price of the commodity as from the big decline in the cost of production. Telegraphs have been weak, as a rule; and in Tramway undertakings, the heaviest losses have been in British Columbia Electric stocks, the ordinary having fallen 73, the preference 53, and the 4¼ per cent. debenture stock 35. Tramway and Omnibus properties have depreciated throughout, as have also Waterworks.

The official record of joint-stock companies registered under the Companies Acts of the United Kingdom for the ten years up to and inclusive of 1914 is as follows:—

	No. of Companies Registered.	Authorised Capital.
1914	6,214	£113,251,583

THE

STOCK EXCHANGE YEAR-BOOK

FOR 1916.

Government Securities—Home, Colonial and Foreign

(INCLUDING MUNICIPAL).

Dealings in short-term bonds, such as City of London Bonds, are subject to the Stock Exchange rule that makes accrued interest to date of bargain the property of the seller—that is, the price quoted is ex accrued interest, and the buyer therefore pays the price and whatever interest has accrued.

Drawn bonds are usually paid off at the next coupon dates; when it is otherwise it is so stated.

In some cases drawings continue to be made in respect of loans in default. Unpaid drawn bonds are not a "good delivery," unless by special resolution of the Stock Exchange Committee.

It is established beyond all room for further dispute that where bonds are issued without conditions to the contrary, repayment may take place at par whenever the issuer elects.

Aarhus.—In June, 1909, Messrs. C. J. Hambro and Son, 70, Old Broad Street, E.C., issued, on behalf of the city of Aarhus, Denmark, 4 per cent. bonds to bearer to the amount of £500,000. The bonds are of £100 and £500 each, bear the Danish equivalent in kroner, and were issued at 97½ per cent. Coupons are payable June 1 and December 1, and the loan is to be redeemed in forty years by annual instalments, applied to drawings (in March) when the price is above par, and by purchases when the price is below par; redemption commenced on June 1, 1910, and the municipality has engaged for a period of ten years (to June 1, 1919) not to increase the sinking fund, or pay off the balance outstanding of the loan. All payments are made—free of Danish taxes—in London (by the issuing firm), Aarhus and Copenhagen. Amount outstanding, £465,100. The bonds are quoted in the official list; latest price, 89.

The total debt of the city at March 31, 1915, amounted to £859,733; the assets of the municipality amounted to £1,483,132, of which £1,078,582 was productive; the value of rateable property amounted to £6,975,861; and the population was about 62,000.

Aberdeen.—*Address:* J. T. Sorley, Gas Treasurer, Municipal Buildings, Aberdeen.—The Aberdeen Town Council has issued 26,000 gas annuities of 5s. each, amounting to £6,500 per annum, payable February 1 and August 1. The annuities are perpetual, but purchases of annuities are occasionally made in the market, and so far 10,370 have been purchased. The total debt of the Town Council at May 31, 1915, amounted to £1,367,846, of which £131,038 was in respect of the gasworks, this being inclusive of the capitalised value of the annuities, as above. Transfer form for annuities, special; fee, 2s. 6d. per transfer. Latest price, £5 10s.

Alagoas.—In March, 1909, Messrs. Tomkinson, Brunton and Co., 2, Threadneedle Street, E.C., made an issue on behalf of the state of Alagoas, Brazil, of £200,000 5 per cent. bonds to bearer, of £20, £50 and £100 each, at the price of 85 per cent., and £80,000 has been sold privately in London since. Coupons are payable January 1 and July 1 (the July 1, 1915, coupons were not paid), and the loan is to be redeemed by July 1, 1958, by means of a cumulative sinking fund, applied either to purchases in the market when the price is below par, or to drawings (in April) at par, the operation of the sinking fund having commenced in 1909. The state has undertaken to set aside annually a sum equal to 5½ per cent. of the total nominal amount of the loan, and the surplus over interest charges is to be applied as above; amount outstanding, £268,610. This loan of £280,000 forms part of a total authorised of £500,000, created for the unification of the state loan, and for providing funds for effecting improvements; £220,000 of the total loan was sold in 1906 by the state in Paris, so that the whole amount of £509,000 has now been placed. The loan is specifically secured by the export duties of the state of Alagoas, which in 1909 amounted to £52,460, in 1910 to £53,340, in 1911 to £54,933, in 1912 to £61,666, and in 1913 to £78,646. The state has undertaken not to contract any loan which will rank before, or on equal terms with, this issue. Interest due July 1, 1915, has not been paid, neither was the sinking fund provided in 1915. All payments on the bonds issued here have been made through Lloyds Bank, Limited, 72, Lombard Street, E.C. The bonds are quoted in the official list; latest price, 75.

Alberta.—The total funded debt of the Province of Alberta, Canada, as at May 4, 1915, was $24,810,733. The estimated revenue for 1914, including $1,589,075, the present annual subsidy from the Dominion government, is $5,628,763 ; and the estimated expenditure $5,402,595. The province owns about 7,237,368 acres of land valued at $84,495,554, and the population is about 600,000. The following issues have been made by the province, and all are quoted in the official list, the last mentioned to the extent of $1,875,000 :—

£411,000 Four per cent. debentures of £100 each, offered in January, 1909, by Lloyds Bank, Limited, 71, Lombard Street, E.C., under authority of the province, and on behalf of the purchaser, at 99½ per cent. Interest is payable June 1 and December 1, and the debentures are redeemable June 1, 1938, all payments being made at the issuing bank, or, at the holder's option, at the Imperial Bank of Canada, Edmonton, Toronto or Montreal. The debentures were issued for the purpose of paying for the purchase by the province of the interests of the Bell Telephone Company, Limited, in the province, which have been acquired by the government, and for other purposes. Latest price, 83½.

£1,000,000 Four per cent. 10-year debentures of £100 each, offered for subscription in November, 1912, by Lloyds Bank, Limited, 71, Lombard Street, E.C., at the price of 97 per cent. The interest dates are May 1 and November 1, and the principal is repayable November 1, 1922, all payments being made by the issuing bank, or at the holder's option in currency at par of exchange, at the Imperial Bank of Canada, Toronto, Montreal or Edmonton. Coupons are payable February 1 and August 1 (see below), free of British income tax of not exceeding 1s. 2d. in the £ and all Brazilian taxes, and the loan was to be redeemed by half-yearly instalments, commencing in 1913, which it was reckoned would extinguish the loan within fifty years, redemption to be effected by purchase when the bonds are obtainable under par, and when the price is at or above par the bonds are to be drawn and paid off at par, the drawings to take place on February 1 and August 1. Moreover, the municipality reserved the right to, in or after 1916, redeem the whole or any part of the outstanding balance of the loan on giving three months' notice. The annuity required for the service of the loan is a general obligation of the city, and is secured by a special hypothecation of the house tax and industries and professions tax, and no future loan can be created to rank in priority to, or pari passu with, this loan on the security of the two above-mentioned taxes. The bonds may be registered as to principal in London, at the office of the issuing firm, on payment of a fee of 2s. 6d. per bond, and registered bonds can be reconverted to bearer on payment of a like fee. Payments on the £500,000 of bonds allotted in London have been made by Messrs. Fredk. J. Benson and Co., as above, and payments on the bonds placed on the Continent have been made in Paris. Interest due August 1, 1914, on the above-mentioned loan was not met, nor was there any corresponding amortisation. In October, 1915, the bondholders accepted a funding scheme which is being carried out. Under this scheme the coupon due August 1, 1914, was paid in full in cash on November 1, 1915; the coupons falling due during 1915 and 1916 are to be met wholly in funding bonds, and coupons falling due in 1917 and 1918 are to be met as to 50 per cent. in cash and 50 per cent. in funding bonds, funding bonds to be issued in respect of the coupon due February 1, 1915, at the rate of 122½ per cent. of such bonds for every £100 of coupons; and in all other cases at the rate of 120 per cent. for every £100 of coupons. The sinking fund for the redemption of the bonds of the 1912 loan is to be suspended for four years. The new funding bonds are to be in denominations of £2, £4, £10, £20, £100 and £500 each, carrying 5 per cent. interest, payable June 1 and December 1, while a 2 per cent. cumulative sinking fund is to be created in 1920 for the redemption of the funding bonds, either by annual drawings or purchases; the funding loan is to be secured by a first charge on the taxes called "Taxas licencas afericao addicionaes rendas de mercados," and, subject to existing charges, taxes called "decimas" and "industries profissoes"; also, in addition to the above special hypothecations, during the years 1915, 1916, 1917 and 1918 a proportionate part of all revenues and taxes previously charged in favour of the external loans of the city. The London portion of the funding loan is to be domiciled with Messrs. Fredk. J. Benson and Co., 11 and 12, Blomfield Street, London, E.C. The bonds (London issue) are quoted in the official list.

The above-mentioned loan, issued in 1913, was authorised for municipal improvements and the rearrangement of internal debt and public services, and in the prospectus issued in January, 1913, it was stated that there were in addition an internal debt of £733,315, "which it is intended will be presently reduced to £378,215," and an external loan of £1,000,000 (issued and domiciled in Paris), secured upon the water and sewerage rates, less the redemption which commenced in February, 1911. The population of the city was given as about 200,000, exclusive of the suburbs, which it was estimated had a further 100,000 inhabitants. For the year 1912 the total municipal revenue was estimated at £368,500, including £113,900 for water and sewerage rates, while the taxes specially hypothecated for the service of the 1913 loan yielded for 1911 £123,682.

In April, 1915, the government of the state announced that, owing to the financial crisis in Brazil—accentuated by the war in Europe—they found it necessary to fund for three years the interest on the 1913 loan and to suspend the operation of the sinking fund for the same period; a funding scheme is (November 9, 1915) in course of preparation to be submitted to holders of the 1905 bonds. As special security for the bonds a first charge on the export duties of tobacco, primarily, was given, as well as a charge on cocoa and coffee export duties, and the state undertook to pay quarterly to the London and Brazilian Bank, in Bahia, the sum of £14,753 on account of the service of the loan. In April, 1915, the government announced its intention to fund for three years the interest on the loan, and to suspend the operation of the sinking fund for the same period, the funding scheme to include the coupons due January 1, 1915, and the subsequent coupons down to July 1, 1917, inclusive. The government has allocated to holders of the bonds £120 nominal value of funding bonds in exchange for £100 nominal value of unpaid coupons, and, after deducting income tax, the bondholders receive £105 nominal value of funding bonds for every £100 of unpaid coupons presented for exchange before April 5, 1916, any subsequent alteration in the income tax to be adjusted.

The plan of 1898 also involved the suspension of the sinking funds for thirteen years from July 1, 1898, but this period was anticipated to the extent of eighteen months, the sinking funds being resumed as from January 1, 1910. On August 1, 1914, default took place in the payment of interest then due, and engagements maturing on the debt in September and October also were not provided for. thirteen years from August 1, 1914. There are certain other minor arrangements which are dealt with under each loan. As the coupons fall due the holders must present them, when they get in return a receipt for the amount lodged, and these receipts must be presented in amounts of not less than £20 to be exchanged for scrip, which will afterwards be exchanged for bonds of the new funding loan. Payments are made free of all Brazilian taxes. The particulars of the various issues known here are as follow; they are all domiciled with Messrs. N. M. Buenos Aires, Province of.—On January 2, 1915, the government of the Province of Buenos Aires failed to meet the interest then due on the undermentioned 3-3½ per cent. bonds, although coupons due on January 1, 1915, on the undermentioned 5 per cent. external gold bonds were duly provided for. Shortly afterwards a scheme was brought forward, and has been carried into effect, under which the interest due in 1915 and 1916 on the 3-3½ per cent. bonds is being met partly in cash and partly in funding certificates, as detailed below. Subsequently the government announced that they had decided, owing to the existing financial situation, and with a view of consolidating their finances, to suspend for the two years 1915 and 1916 the sinking fund for the 5 per cent. (Drainage) loan, the 4½ per cent. (Railway) loan, and the 5 per cent. external bonds, together with three French loans, and to fund for the same period the interest on those loans into 5 per cent. consolidation gold bonds at the rate of £115 of consolidation bonds for every £100 of coupons falling due. The issues of the province known here are as under, and all, except the Treasury bills, are quoted in the official list, the 5 per cent. bonds of 1908 and the 4½ per cent. bonds to the extent of the issues made here:—

£11,496,000 Three—Three-and-a-half per cent. bonds of £20, £100, £500 and £1,000 each. Late in 1906 the government of the Province of Buenos Aires offered certain terms of conversion to holders of cedulas, coupons and securities of the Mortgage Bank of the Province of Buenos Aires, and these terms were accepted and the conversion was carried out. The bonds given by the province have coupons payable January 2 and

July 1—at the rate of 3 per cent. per annum up to and including January, 1912, and at the rate of 3½ per cent. thereafter, with ½ per cent. cumulative sinking fund, commencing on July 1, 1917, or earlier at the option of the government, to be employed in purchases of bonds, in the market or otherwise if the bonds cannot be acquired at or below par, or in drawings at par, while the government has reserved the right to increase the sinking fund at any time. Moreover, the net proceeds of the private debts due to the Mortgage Bank of the Province of Buenos Aires are to be applied to a special sinking fund of the bonds, to be used in the same manner as the ½ per cent. sinking fund. The total authorised of the bonds is £11,496,000, all of which has been issued; the bonds are specially secured by the taxes known as the "territorial" and "a la produccion," and all payments are made, free from all national and provincial taxes, by Baring Brothers and Co., Limited, 8, Bishopsgate, E.C., through whom the conversion was effected, or on the continent of Europe (by such agents as Baring Brothers and Co., Limited, shall appoint), or in Buenos Ayres. By the fresh agreement entered into in 1915 in regard to the interest of this loan the government undertook to deposit in the Bank of the Province of Buenos Aires monthly a twelfth part of the sum required annually for the service of the bonds in circulation. By the application of the special sinking fund, bonds for £1,435,020 have been cancelled, reducing the amount outstanding to £10,060,980. Latest price, 45½.

For particulars of the funding certificates see below.

China.—Several loans issued by this government are now known here, and all but the £15,820,000 4 per cent. bonds of July, 1895, the 5 per cent. bonds of May, 1911, and the various issues of Treasury bonds, are quoted in the official list—the Tientsin-Pukow bonds to the extent of £1,850,000, the Tientsin-Pukow supplementary loan to the extent of £1,110,000, and the Peking-Hankow Railway loan in the Financial Trust section. As regards the loans of 1896 and 1898, applicants had the option of taking either bonds or inscribed stock certificates, the numbers of the corresponding bonds being expressed on the certificates, and holders of bonds have the option of exchanging for inscribed stock certificates, which also express the relative numbers of the bonds exchanged. The only charge made in exchanging bonds for inscribed stock is the commutation stamp duty of 12s. 6d. per cent., and inscribed stock certificates are then transferable without fee or stamp duty, on common forms, at the Bank of England. Any holder of an inscribed stock certificate desiring to exchange his certificate for the corresponding bonds to bearer can do so without any fee, but if the certificates to be converted were given to represent a portion of the loan on its issue the party exchanging has to pay the stamp duty of 1 per cent. on the bonds to be taken. If the certificate to be converted is against bonds which had been put into circulation in the first place, this stamp duty of course has not to be paid. In the event of one or more bonds, represented by an inscribed stock certificate, being drawn for repayment, a fresh certificate, without fee, will be issued by the Bank of England, to represent the balance of the bonds. For particulars as to transfers of stock see Bank of England notice. The particulars of the loans are as under :—

"In addition to being a direct obligation of the Imperial Chinese Government, both as to principal and interest, the service of the loan after the construction of the railway will in the first place be met out of the revenue of the railway. Should this be insufficient, the loan agreement states that the loan is thereby secured as a first charge upon the surplus earnings of the Imperial Railways of North China, excluding the section, about 30 miles in length, of the Hsinmintun-Mukden line to the east of the Liao River, and that no deduction or payment shall

be made from the earnings of the said North China Railways other than those required to meet the obligations stated in the North China Railways loan agreement of October 10, 1898, until an amount sufficient to pay the next half-yearly instalment of interest and principal of the present loan has been deposited with the Hong Kong and Shanghai Banking Corporation, as security for the due payment of the same." $10,000,000 (Peking currency) 7 per cent. Peking-Hankow Railway redemption loan, in bonds of $100 each. One-half of this loan, viz. £450,000, being the equivalent of $5,000,000, was offered for sale in September, 1910, through the London City and Midland Bank, Limited, 5, Threadneedle Street, E.C., and Messrs. Dunn, Fischer and Co., 41, Threadneedle Street, E.C., at the price of 108 per cent., while a further portion of £194,400 was placed in January, 1914. In respect of the £450,000 of bonds offered here, the Board of Posts and Communications of the Imperial Chinese government has undertaken to pay the capital and interest in sterling at the rate of £9 per $100 Peking currency, and this guarantee is endorsed on every bond. "On November 25, 1912, the Foreign Office informed Messrs. Dunn, Fischer and Co. that His Majesty's Minister in Peking had been notified in writing by the Wai-Chiao-Pu that the 7 per cent. Peking-Hankow Railway redemption loan is a direct obligation of the Chinese republican government, who guarantee the payment of capital and interest on £450,000 bonds in sterling at the fixed rate of exchange, £9 per $100 Peking currency." "On December 27, 1913, the Foreign Office informed the London City and Midland Bank and Messrs. Dunn, Fischer and Co. that His Majesty's Minister in Peking had been notified by the Chinese government to the effect that the 21,600 bonds were also a direct obligation of the Chinese republican government, who guaranteed the payment of capital and interest on the £194,400 bonds in sterling at the fixed rate of exchange, £9 for $100 Peking currency." For the convenience of investors the London City and Midland Executor and Trustee Company, Limited, has agreed to receive on deposit the above-mentioned £644,400 of bonds, and to issue in exchange therefor bond certificates to bearer of £99 each, with coupons attached. The coupons of the original bonds are payable in Peking half-yearly on the first day of the third and ninth moon of the Chinese calendar, while the coupons of the bond certificates are payable May 5 and November 5 by the London City and Midland Bank, Limited, each coupon on the £99 bond certificate being for £3 9s. 3d. In the event of the Chinese government deriving a profit from the earnings of the Peking- Hankow Railway, the bondholders, besides the yearly interest on the loan, will also participate in this profit. On account of these profits from the period of issue of the bonds to December 31, 1910, $1\frac{5}{16}$ per cent. per annum was distributed in November, 1911, in addition to the half-yearly interest, giving 4s. 8d. (less income tax) per bond certificate of £99; in respect of 1911 47/64 per cent. was distributed in November, 1912, in addition to the half-yearly interest, giving 14s. 7d. per bond certificate; in respect of 1912 $1\frac{7}{32}$ per cent. was distributed in November, 1913, in addition to the half-yearly interest, giving £1 4s. 3d. per bond certificate; in respect of 1913 the extra dividend amounted to £1 4s. 7d. per bond certificate; and in respect of 1914 the extra dividend amounted to 16s. per bond certificate, and was paid in November, 1915. The capital value of the railway has been fixed at 58,000,000 taels (equivalent to approximately £7,400,000). If, for instance, in any year the government's share of the profit should amount to 4,000,000 taels the Board will reserve one-fourth of this sum for distribution as extra dividend, which sum will be apportioned on the whole capital of 58,000,000 taels, and any payment on the bonds accruing from this source for one particular year is to be made as regards the bond certificates with the coupon payable on November 5 of the next following year. The original bonds are redeemable at par by annual drawings in the period commencin

1916, and ending in 1920, drawings to take place six months before repayment, and as the Chinese government from time to time redeems any of the bonds deposited with the London City and Midland Executor and Trustee Company there will be redeemed at par, by drawings, the corresponding amount of the bond certificates issued by it. Holders of the bond certificates will be entitled, free of charge, on surrender of the bond certificates, to receive the eleven Chinese government bonds of £9 each represented by such bond certificate. Both principal and interest of the bonds are free of all Chinese taxes and imposts, present and future. Latest price, 103⅛.

The net revenue of the railway (to be about 680 miles in length, and for the completion and equipment of which this loan was authorised) is to be applied in the first place to the service of the loan, and any surplus revenue for any one year is to be deposited with the Hong Kong and Shanghai Banking Corporation and the Deutsch-Asiatische Bank up to the amount required to pay the following year's instalments of interest, while so long as the loan is unredeemed the railway is under no circumstances to be mortgaged, nor its receipts given to any other party. In addition to the direct obligation of the Chinese government the loan is, subject to the Tientsin-Pukow Railway bonds of 1908, secured by a first charge on certain provincial revenues. In the event of the loan being insufficient to complete the construction and equipment of the railway, including the payment of interest during construction, the Chinese government, if it does not provide the full amount needed to finish the line, will authorise the contractors for the loan to issue a further supplementary loan to provide for such deficiency. Claremont.—In February, 1908, the Standard Bank of South Africa, Limited, 10, Clement's Lane, E.C., made an issue of £50,000 5 per cent. stock at par, in certificates of £100 each, of the municipality of Claremont, a suburb of Cape Town. Interest is payable January 1 and July 1, by warrant sent by post, at the head office of the Standard Bank, as above, or at the branch office at Cape Town, and the principal is repayable December 31, 1957, at par, or at the option of the council (now) at 105 per cent., on six months' notice, repayment to be effected at the office of the issuing bank in London, or at the municipal offices, Claremont, as the holder may desire, thirty days' notice of the place of repayment to be given. The amount of the stock is limited to £90,000. A sinking fund is provided, which may be applied in the purchase of stock, and stock for £1,000 has been purchased, reducing the amount to £49,000. The books of the stock are kept at the head office of the issuing bank, and transfers are effected free of charge, in multiples of £100, the stamp duty on transfers being borne by the municipality; fee for registration of probate, proof of marriage or death, 2s. 6d. Including the above-mentioned stock, the total indebtedness of the municipality is about £95,200, besides which Claremont is liable, jointly and severally with the municipal councils of Woodstock, Rondebosch and Mowbray, for £377,000 in connection with its one-fourth share in the suburban municipal waterworks. The population is about 13,300, and in 1913 the properties liable to be rated within the municipal area were valued at £1,731,754.

Coatbridge.—In October, 1897, an issue of £40,100 2¾ per cent. stock of this corporation was offered for tender at a minimum of par, and the whole amount was placed, the average price of issue having been £100 2s. 2d. Interest is payable May 15 and November 11, by warrant sent by post, and the stock is redeemable at par, in whole or in part, at the option of the town council, (now) at any Martinmas or Whitsunday, on six months' notice, while the stock in any case is to be repaid by November 11, 1937. Collingwood.—In May, 1886, the English, Scottish and Australian Chartered Bank (now the English, Scottish and Australian Bank, Limited), 38, Lombard Street, E.C., issued £40,000 5 per cent. debentures of £100 each of the city of Collingwood, which forms part of Melbourne. The debentures were offered at a minimum of 103 per cent., and allotted at £105 3s. 6d. per cent. and upwards, the average price obtained being £105 18s. 3d. Coupons are paid April 1 and October 1, and the principal is due March 31, 1916. Under the Municipal Loans Extension Bill the Victorian government has assumed the responsibility for the repayment of the loan at due date, the council providing a sinking fund to repay its indebtedness to the government. All payments are now made by the Bank of New South Wales, 29, Threadneedle Street, E.C., or in Melbourne, at the option of the holder.

In addition to the above, the city has other loans for £40,000.

Colombia.—Early in 1880 the United States of Colombia defaulted in interest on 4½ per cent. bonds for £1,913,500. Towards the close of 1896 fresh terms were arranged, and the old bonds were converted into a new debt for a total authorised of £2,700,000, the old bonds being exchanged at par, and arrears of interest at 43 per cent. The bonds are of £100, £500 and £1,000 each, and £2,687,800 has been issued; they carried interest from January 1, 1897, at the rate of 1½ per cent. per annum, increasing every three years by ½ per cent. until a maximum of 3 per cent. was reached, and the payments were to be made in gold in London on January 1 and July 1, while the government was to provide a cumulative sinking fund of ½ per cent. per annum, dating from January 1, 1900, and

increasing by ½ per cent. every three years up to a maximum of 1½ per cent. Interest was regularly met to July, 1899, but default took place in January, 1900. In April, 1905, an agreement was entered into between a representative of the United States of Colombia and the Council of Foreign Bondholders for a settlement of the debt, which was accepted by the bondholders in meeting and duly ratified by the Colombian congress. The government undertook to resume as from July 1, 1905, the service of the debt, the coupon due January 1, 1906, to be paid at the rate of 2½ per cent. per annum, and subsequent coupons at the rate of 3 per cent. per annum, while the amortisation of the debt was to be resumed as from July 1, 1909, the first amortisation to be effected in January, 1910, with a sum equivalent to ½ per cent. of the capital of the debt, which was to be increased thereafter to ¾ per cent. each half-year. The amortisation is to be effected by tender, purchases or drawings, par of the bonds being for this purpose taken as 70 per cent., and purchases are to be effected if the price be below 70, while if the price be at or above 70, bonds are to be drawn for repayment at 70. As security for the service the government assigned 15 per cent. of the customs revenues of the republic, which is to be paid direct into the Banco Central at Bogota, by the collectors of customs, and placed to a special account called "account of the service of the consolidated external debt of Colombia"; it is also provided that if for two consecutive years after the agreement came into operation the total revenues shall exceed the sum of $5,000,000 gold per annum the assignment of 15 per cent. shall be reduced to 12 per cent., to return, however, to 15 per cent. should the customs revenues at any time thereafter fall below $5,000,000 gold per annum, until for two consecutive years they shall again have exceeded $5,000,000. Unpaid coupons up to and including July 1, 1905, amounting to £349,414, were detached from the bonds, and the Council of Foreign Bondholders issued in exchange therefor certificates for an equal nominal amount. For the payment of one-half of the nominal amount of the certificates certain provision was made, and this has been duly effected, 12½ per cent. of the certificates having been paid off in January, 1907, 15 per cent. in June, 1907, 15 per cent. in August, 1907, and 7½ per cent. in September, 1907, making up the total of 50 per cent. of the certificates. As to the remaining one-half of the nominal amount of the certificates an arrangement was come to with the government as regards certain shares in the New Panama Canal Company claimed by the government, and in March, 1908, two-fifths of this one-half of the nominal amount of the certificates was paid off, leaving 30 per cent. of the original amount of the certificates outstanding, and, in the event of the claims which Colombia has pending with the United States of America being terminated by an agreement, and that under such arrangement Colombia receives a sum in cash by way of indemnity, or otherwise, the government will forthwith hand to the Council of Foreign Bondholders a sum of £105,300 in cash for the purpose of paying the remaining 30 per cent. of the said certificates. Payments in accordance with the above agreement were duly made to August, 1909, after which there was for a time some irregularity, but in May, 1911, regular monthly remittances were resumed. In March, 1915, however, the monthly remittances again became irregular, and the coupon due July 1, 1915, was paid on July 9, and the sinking fund was applied on August 9. As regards the half-year ending December 31, 1915, the instalments of interest in respect of the months of July, August and September have been received, but the consul-general has received instructions from the Colombian government to postpone for the time being the sinking fund payments. Payments in London are made by the London County and Westminster Bank, Limited, 21, Lombard Street, E.C. Amount outstanding, October, 1915, £2,116,900. The bonds are quoted in the official list; latest price, 48¼.

In 1913 the government offered to holders of the four classes of debentures of the Colombian National Railway Company, Limited, conversion, at certain rates specified in the notice elsewhere of the railway company, into 6 per cent. bonds of £20, £100 and £500 each of the Republic of Colombia, and this offer has been largely exercised. The total of the loan is to be £1,500,000, of which £1,209,028 has so far been issued; coupons are payable March 1 and September 1, and for the whole loan of £1,500,000 a redemption fund of £15,000 per annum commenced with the issue of the loan, and this is to be applied in redeeming bonds by purchase under par in the market, or by tender, or by drawings at par (in March and September). The bonds are secured by a charge on 7 per cent. of the total customs revenue of the republic, any deficiency to be met out of other revenue. All payments are made by the London Joint Stock Bank, Limited, 5, Princes Street, E.C.; coupons due March 1, 1915, were not met until April 8, 1915, owing wholly to the difficulty of remitting from Colombia to London, the necessary amount for the coupons having been duly deposited at Bogota by the Colombian government. Amount outstanding, £1,182,248. Bonds for £987,380 are quoted in the official list; latest price, 64¼.

A committee of 3 per cent. bondholders in connection with the Council of Foreign Bondholders sits at 17, Moorgate Street, E.C.

Concepcion.—In December, 1912, the Anglo-South American Bank, Limited, 62½, Old Broad Street, E.C., and Messrs. Emile Erlanger and Co., 8, Crosby Square, E.C., invited applications for the purchase, at par, of 5½ per cent. bonds to bearer, of £100 each, of the city of Concepcion, Chile, for £100,000, principal and interest being unconditionally guaranteed by the government of the republic of Chile. Coupons are payable June 30 and December 31, and the loan is redeemable within twenty-five years by a cumulative sinking fund of 2 per cent. per annum, to be applied to drawings at par in June and December, commencing in June, 1913, while redemption may be accelerated by supplementary drawings at par. All payments are made free from government, state and municipal taxes by the Chilian Treasury, 121, Victoria Street, S.W., through their bankers, Messrs. N. M. Rothschild and Sons, New Court, St. Swithin's Lane, E.C. The law authorising the loan provides for an increase in the tax on property in the municipality of Concepcion, to be collected by the fiscal employees of the government; the amounts derived from the increase to be devoted to the service of this loan, while if there should remain any surplus of the tax, after meeting the service of the loan, such surplus is to be applied to supplementary drawings at par. Amount outstanding, £94,700. The bonds are quoted in the official list; latest price, 89.

In January, 1914, the Anglo-South American Bank, Limited, and Messrs. Emile Erlanger and Co. invited applications for the purchase at par of another issue of £50,000 of 5½ per cent. bonds to bearer, of £100 each, of the city of Concepcion. The bonds are secured on the unpledged portion of the property tax given to the foregoing bonds, and the issue made in 1914 is similar in all respects to the

1912 bonds, except that drawings commence in June, 1914, and that there is no power to accelerate redemption. Amount outstanding, £48,500. The bonds are quoted in the official list; latest price, 89.

The municipality has reserved the right to, at any time after June 14, 1920, pay off the outstanding bonds at par, on giving six months' notice. The loan is a direct obligation of the municipality, is in addition guaranteed, both as to principal and interest, by the Imperial Ottoman government, and is further secured upon (1) the toll receipts of the bridges now existing, and of the bridges which may be constructed hereafter across the Golden Horn; and (2) the receipts from the petroleum depôts of Pacha Baghdjé. The bridge receipts were to be paid daily, and the petroleum receipts weekly, into the National Bank of Turkey, to provide for the service of the loan. The tolls of the two bridges across the Golden Horn amounted for the year 1912-13 to £T63,556, while the petroleum receipts totalled £T20,546. All payments were to be made in London (by the National Bank of Turkey as above) and Constantinople. Amount outstanding, £975,900. The bonds are quoted in the official list.

Costa Rica.—This republic has on several occasions defaulted on its debt, and reconstructions of the relations between the country and the bondholders have been numerous. The last agreement was come to in December, 1910, the debt dealt with having been the consolidated external debt consisting of £525,000 A 3 per cent. bonds, and £1,475,000 B 2½ per cent. bonds, besides certificates representing arrears of interest for £80,000, exclusive of unfunded arrears of interest as at December 31, 1910, of £513,093, and there were 6 per cent. Limon Sanitary internal bonds for 1,013,000 colones. Under the scheme of December, 1910, the republic has created gold refunding bonds of 1911 to the amount of £2,000,000, in denominations of £20, £100 and £500 each, payments being made, free of Costa Rican taxes, in London (by Messrs. C. J. Hambro and Son, 70, Old Broad Street, E.C.), or in New York, Amsterdam, Paris or Berlin, at certain fixed rates of exchange. Interest is to be at the rate of 4 per cent. for the first ten years (the first coupon having been due July 1, 1911, while it was not paid until September, 1911, owing to the definitive bonds not being ready before), and thereafter 5 per cent. per annum, payable January 1 and July 1. For the repayment of the loan, which is to be effected by January 1, 1958, there is to be created a cumulative sinking fund of not less than 1 per cent. per annum, payments thereto to be made half-yearly, and to begin on January 1, 1921, and this sinking fund is to be applied to the purchase of bonds at a price not exceeding par, and accrued interest, or by half-yearly drawings in New York; and the republic has reserved the right to increase the sinking fund either before or after January 1, 1921. The bonds are given a first charge and lien on all the customs duties and revenues receivable by the republic from exports and imports during the term of the refunding bonds, and Mr. John M. Keith has been appointed to receive monthly from the republic such portion of the customs duties as shall be necessary to meet the service of the debt, and for the purpose of guaranteeing fully and in advance the said semi-annual payments, the government undertook to deposit in the hands of Mr. John M. Keith, during the first month that this contract shall come into effect, a sum equal to the next semi-annual payment of interest, and thereafter shall pay, in each month, to Mr. Keith one-sixth of the next succeeding semi-annual interest payment. Moreover, the republic undertakes, so long as any of the refunding bonds are in existence, not to create any charge upon the exports, imports and customs duties to rank equally with, or in priority to, the refunding bonds. If the republic should make default for thirty days in the fulfilment of any of its obligations under the new agreement,

the banker having charge of the loan "shall have the right to require, and the government shall be obliged to consent to, the appointment of a customs agency" to have "sole and exclusive authority to create and issue customs certificates . . . and the republic agrees that all the customs duties and revenues receivable or payable on account of imports and exports shall be payable only by such certificates at the face or par value thereof from and after the establishment of such customs agency." The total authorised of £2,000,000 of refunding bonds has all been placed, there having been issued for each £100 of A bonds, with interest in arrear, £75 of new bonds; for each £100 of B bonds, with interest in arrear, £65 of new bonds; and for each £100 of arrear coupon certificates, as issued under the arrangement of 1897, £100 of new bonds (representing in all £1,432,500), the remainder having been absorbed by the Limon Sanitary bonds, expenses, &c. Egypt.—Towards the close of 1914 the political status of Egypt was completely changed, a British protectorate being declared over the country. Previously Egypt had been under the suzerainty of the Sultan of Turkey, although for many years this dependence had been steadily weakening, and, except for the fact that Egypt had to make certain payments to Turkey, the suzerainty was more nominal than real. The Anglo-French agreement, signed by the Marquis of Lansdowne and Monsieur Paul Cambon in 1904, exercised an important influence on the finances of the country. Since the year 1876 these had been partially controlled by the Caisse de la Dette, consisting of one representative of Great Britain, France, Austria and Italy, with the adjunction in 1885 of Germany and Russia, their powers being varied by agreements subsequently entered into between the contracting parties. Attached to the Anglo-French agreement was a draft of a Khedivial decree assented to by Great Britain and France, and which has since received the assent of Austria, Germany, Italy and Russia, and was definitely promulgated in November, 1904. The net result of the Anglo-French agreement was, as Lord Lansdowne put it, the giving "to the Egyptian government a free hand in the disposal of its own resources, so long as the punctual payment of interest on the debt is assured. The Caisse de la Dette will still remain, but its functions will be strictly limited to receiving certain assigned revenues on behalf of the bondholders, and insuring the due payment of the coupon. The Caisse will, as soon as the decree has come into operation, have no right and no opportunity of interfering in the general administration of the country." The revenue assigned for the service of the debt has for many years past been in excess of the sum required, and by fresh provisions made in 1888 reserve funds amounting to about £5,000,000 were accumulated, and, by the conversion of the Preference, Domain and Daira loans, economies of about £6,000,000 were effected by the end of 1904, this latter sum being held over for its employment to be settled by the European powers. By the Anglo-French agreement these reserve funds, &c., are entirely freed, and have been handed over to the Egyptian government, less a sum of £E1,800,000 to form a reserve fund for the Caisse de la Dette, a "permanent balance" of £E500,000, and £E750,000 for "fonds de roulement." Formerly the assent of the Caisse was necessary in the event of the Egyptian government desiring to raise further loans for productive expenditure or for other reasons, though this provision was done away with by the 1904 agreement. The 1904 agreement also provided that any conversion of the Guaranteed and Preference debts was to be postponed until 1910, and of the Unified debt until 1912, and for the Preference and Unified debts there is now no sinking fund, although the government is now at liberty to repay the Preference debt, and also the Unified debt—in both cases at par. Lastly, the revenues assigned for the service of the debt were changed in certain particulars. The declaration of a British protectorate over Egypt in December, 1914, left the Caisse de la Dette still in operation. Interest not claimed for five years, and drawn bonds not presented for repayment for fifteen years, are forfeited, and the funds are applied to redemption purposes. Proceeds of sales of land hypothecated for the Domain loan may be applied to the amortisation of that loan; but it is further provided that the sales of land for the Domain loan shall not exceed £E300,000 per annum, although this amount is cumulative. The particulars of the loans are as under, the old Daira Sanieh bonds having been redeemed on October 15, 1905, while the redemption of the State Domain bonds was completed in 1913; all are quoted in the official list, the guaranteed loan with British government securities :—

£31,647,000 Three-and-a-half Preference loan in bonds of £1,000, £500, £100 and £20. Of these bonds roughly £29,800,000 were issued in June, 1890, mainly in exchange for the old 5 per cent. Preference bonds, while for a portion of the amount cash subscriptions were received at 91 per cent., in order to complete the extinction of the old Preference debt, &c.; and £1,800,000 was placed in 1901-3 privately, and the proceeds applied to railway improvement. Coupons are payable April 15 and October 15, and the government undertook not to commence the redemption of the issue before July 15, 1910. Payments on the bonds are made, free of Egyptian taxes, in London—by the Bank of England—Paris, Berlin or Egypt. Bonds of this loan may be inscribed at the Bank of England, the charge being at the rate of ½ per cent.; inscribed stock is transferable by signature in the books kept at the Bank of England, in any amount, free of charge, but subject to stamp duty. No stock certificates to bearer are issued. Amount outstanding, £31,127,780. Latest prices—bonds, 78⅛; inscribed stock, 76¼.

£60,958,240 Unified bonds of £1,000, £500, £100 and £20 each, with coupons representing 7 per cent. interest, payable May 1 and November 1. The interest on the Unified debt, by the "law of liquidation" of 1880, is fixed at 4 per cent., to be paid from the revenues specially set apart for the service of that debt. It is, however, also further guaranteed by the general revenues of the country. By the Anglo-French agreement the repayment of the loan was not to commence until on or after July 15, 1912. All payments are made, free of Egyptian taxes, in London, Paris, Berlin or Egypt—in London now by the Bank of England. Amount outstanding, £55,971,960. Latest price, 85.

A fixed sum of £315,000 per annum is to be applied to the service of the loan. Of this sum what is not needed for interest is to be applied to redemption, either by purchase or by drawings (about June and December) for repayment at par. This £315,000 is guaranteed by Great Britain, Germany, Austria, France, Italy, Russia and Turkey. The Egyptian government originally reserved the right to pay off the loan at par, but by the Anglo-French agreement of 1904 the above sum of £315,000 fixed for the service of the loan was not to be increased until on or after July 15, 1910. Coupons are payable March 1 and September 1, payments being made in London, Berlin, Paris or Egypt—in London, free of Egyptian taxes, by Messrs. N. M. Greece.—In June, 1893, the Greek government issued a decree authorising a new loan into which coupons and drawn bonds of certain pre-existing loans were to be funded for a short period, but in December, 1893, another law was passed, providing for a provisional rearrangement of the debt on the basis of the payment of interest to the extent of 30 per cent. in gold. This latter plan was carried out for some years, but following the Græco-Turkish war of 1897 a complete reorganisation of the

relations between the Greek government and its foreign creditors was brought about. An International Financial Commission of Control was appointed, consisting of six members, representing Great Britain, Germany, France, Italy, Austria and Russia, and certain revenues assigned for the service of the loans known here, and others, are collected by the International Financial Commission through a Hellenic Society. By the law constituting the International Financial Commission provision was made for the issuing of the guaranteed loan, referred to below, to cover the war indemnity payable to Turkey, to extinguish floating debt, &c. The revenues assigned for the service of the total debt of the State comprise the salt, petroleum, matches, playing cards, cigarette paper, and Naxos emery monopolies, tobacco dues, stamp dues, and the Piræus customs duties, while in the event of these not being sufficient for the purpose for which they were destined, the customs duties of various other places are to be given. Although the law constituting the International Financial Commission is not explicit on the point, it is assumed that the guaranteed loan ranks first on the revenues assigned, having, of course, the additional security of the guarantee from the governments of Great Britain, France and Russia. The amount assigned for the service of the loans of 1881 and 1884, the monopoly loan, the rentes, the Piræus-Larissa Railway loan and the funding loan was during 1898 and the four following years 14,437,500 drachmas, while subsequently it is to be 14,850,000 drachmas, which should produce a minimum of 9,000,000 francs per annum. Bonds of the 1881, 1884, 1887, 1889 and 1890 loans, drawn in June, 1893, and not exchanged for funding loan bonds, were, under the rearrangement of 1898, repaid in August, 1898, at 65 per cent., and bonds of the same loans drawn in November, 1893, were repaid in August, 1898, at 75 per cent. The drawing of bonds that took place in July, 1894, was annulled, and bonds drawn are on the same basis as those not drawn, bonds drawn in 1894 being a good delivery on the Stock Exchange. The 70 per cent. unpaid of the coupons of the various loans from April 1, 1894, to January 1, 1898, inclusive, was settled at 5 per cent. of the amount.

As regards the future service of the debt, the government assigned, as stated above, a certain minimum amount, and for the proportion of this amount to which the foreign debt, other than the guaranteed loan, is entitled, the foreign debt is divided into three series, group one consisting of the monopoly and funding loans; group two of the 1881, 1884, and Piræus-Larissa railway loans; and group three of the 4 per cent. rentes. The minimum amount provided for interest would allow of 1·72 per cent. per annum being paid on the monopoly loan; 1·60 per cent. per annum on the funding loan, and the loans comprised in group two (by a decree of April 18, 1898, the minimum interest for the funding loan was increased, up to July, 1904, to 40 per cent. of the original interest); and 1·28 per cent. per annum for the loan forming group three. The balance of the minimum sum assigned represented until the end of 1902 1 per cent. per annum of the original interest on the bonds actually in circulation, and subsequently to 1902 represents 2 per cent. of such interest, and these amounts are to be applied to purchases, or to drawings when the bonds are above par. There are certain provisions for the increase of interest and sinking fund, 49·20 per cent. of any surplus in the receipts from the stamps, tobacco, and monopolies, over the gross estimated return of 28,900,000 drachmas, and 60 per cent. of savings on remittances due to a fall in the rate of exchange below 165 per cent., being divided equally between increase of interest and amortisation. The increase of interest is to be made by adding 2 per cent. of the original interest on the bonds forming a group, taking those groups in the order named above, but there is to be no excess distribution less than the 2 per cent. of the original amount of interest; excess revenue is distributed with the July payments for the 1881, 1884 and monopoly loans, with the April payment for the rentes and funding loans, and with the June payment for the Piræus-Larissa Railway loan. As regards the sinking fund, it is not applied until the amount at credit reaches 2 per cent. of the original interest of each group, and the groups rank on the sinking fund in their respective priorities. Messrs. C. J. Hambro and Son, 70, Old Broad Street, E.C., are designated agents in London for the various loans, and it is provided that the interest on the loans dealt with under the rearrangement not claimed within five years from due date is proscribed, as well as drawn bonds after thirty years. All original hypothecations given to the various loans were abrogated by the new plan. A committee of bondholders in connection with the Council of Foreign Bondholders sits at 17, Moorgate Street, E.C.

Subsequently to the rearrangement detailed above other loans have been issued by the Greek government, most of which are under the control of the International Financial Commission, and are to some extent secured on the revenues ceded as above stated. Subjoined is a statement from the International Financial Commission at Athens regarding the various loans known here, all of which are quoted in the official list (the guaranteed loan with British Funds, &c., the 4 per cents. of 1911 to the extent of £794,000 issued here, and the 5 per cents. of 1914 to the extent of £884,277 issued here), and all are free from Greek taxes:—

£4,800,000 Five per cent. bonds, of which £3,800,000 was issued in June, 1881, at 74 per cent., the balance having been taken privately. The bonds are of £20 each, with the equivalent in francs printed on them, and were issued in certificates of one, five and ten bonds. Applications for the £3,800,000 were received in London (by Messrs. C. J. Hambro and Son), Paris and Greece. Coupons are payable January 1 and July 1. All payments are made in London (by Messrs. C. J. Hambro and Son, 70, Old Broad Street, E.C.) and on the continent. Amount outstanding, £3,570,820. Latest price, 52½.

The bonds received interest in 1906 of 2·10 per cent.; in 1907, 2·20; in 1908, 2·10; in 1909, 2·20; in 1910, 2·30; in 1911, 2·30; in 1912, 2·50; in 1913, 2·40; in 1914, 2·20; and in 1915, 2·70—·80 in January and 1·90 in July.

£4,238,600 Five per cent. bonds placed in November, 1884 (at the price of 68½ per cent.), and since, no issue, however, having been made publicly since 1884. The loan was then offered in London, Paris and Greece—in London by Messrs. C. J. Hambro and Son. £6,023,700 Guaranteed 2½ per cent. gold loan of 1898, the total authorised being an amount sufficient to produce £6,800,000 net. Of this amount £4,980,000 was issued in London and on the continent in May, 1898—in London through the Bank of England, at 100½ per cent., £961,500 was subsequently issued at 104 per cent. to provide for the war indemnity payable to Turkey by Greece, the uncovered deficit of 1897, and the conversion of the gold floating debt, and £82,200 for covering the different expenses incurred for emission, negotiation, &c., while the balance was reserved to cover the eventual deficits (if any) of 1898 and the following years, this faculty ceasing after 1903. Although the law constituting the International Commission is not explicit on the point, it is assumed that the loan ranks first on the revenues assigned as mentioned above, while it is guaranteed by the governments of Great Britain, France and Russia, and the bonds, in addition to their sterling value, have also their value in francs and roubles expressed on them. Interest is payable April 1 and October 1 in London (by the Bank of England), Paris, Petrograd and Athens. Up to and inclusive of 1902 there was no provision for amortisation, but subsequent to that year a fixed annuity of 3·6 per cent. of the nominal capital is to be provided, the excess over interest to be applied by the International Commission of Control, either to drawings at par (on January 1 and July 1), or if the price is below par by purchases in the market. Payments are made in London—by Messrs. Hambro and Son and Messrs. Emile Erlanger and Co.—Paris, Athens and Berlin. The loan is exempt from all Greek taxes created or to be created, and its service is secured by the surplus of revenues ceded to the International Financial Commission, subject to a contingent charge on the surpluses in favour of the loans of 1907 and 1907-9 for 1,200,000 and 900,000 drachmas respectively, only if their special guarantees prove insufficient; that portion belonging to the state of the receipts of the railways to be constructed out of part of the proceeds of the loan; and other revenues as expressed in the general bond. Honduras.—This country defaulted in 1872, since when repeated attempts have been made to effect a settlement with the bondholders. In August, 1909, at the request of Messrs. J. P. Morgan and Co., of New York, the Council of Foreign Bondholders invited the holders of the four loans constituting the external debt of Honduras to deposit their bonds with the Council against the issue of negotiable deposit receipts, authorising the Council to deliver the deposited securities to Messrs. Italy.—The following is an official statement as to the Italian government issues known in this market, and both are quoted in the official list, the first to the extent of 3,900,468,700 lire only. Italian Irrigation bonds are given in this work with Miscellaneous Bonds:—

8,097,950,614 Lire (principal sum) 3½ per cent. rentes in bonds of 20,000 lire, 10,000 lire, 4,000 lire, 2,000 lire, 1,000 lire, 500 lire, 200 lire and 100 lire (principal sums). The rentes formerly carried 5 per cent., but were subject to 20 per cent. income tax, which reduced the return to 4 per cent., and in 1894 some of them were converted into 4 per cent. (net) rentes. In 1906 the remaining 5 per cent. rentes were converted into a 4 per cent. (net) issue until December 31, 1906, while 3¾ per cent. (net) was paid until and including 1911, and 3½ per cent. interest (net) since, the government undertaking that no further conversion shall take place before December 31, 1920; holders who did not notify their refusal of this reduction of interest between July 2 and July 7, 1906, were taken as accepting the conversion, and those who did refuse were paid off on July 19, 1906. At the same time the 5 per cent. rentes that had been converted, as above, into 4 per cent. rentes were reconverted into this issue. The bonds have coupons payable January 1 and July 1, in Italy, Paris, Berlin, Vienna or London—in London by Baring Brothers and Co., Limited, 8, Bishopsgate, E.C., Messrs. C. J. Rothschild and Sons, New Court, St. Swithin's Lane, E.C., a rate of payment, approximating to the then current rate of exchange, being fixed by the government shortly before the interest dates; during the European war, before the payment of coupons can be obtained in London, it is necessary that the corresponding bonds, together with an affidavit that such bonds do not belong to persons of Italian nationality, and that no Italian subject or company or foreigner residing in Italy has any interest therein, must first be produced to the Italian Consulate, 44, Finsbury Square, E.C. (it is intended that this arrangement shall be only of a temporary character). The bonds contain no statement as to redemption. £22,700,000 Five per cent. External Consolidated gold loan of 1899, in bonds to bearer of £20, £100, £200, £500 and £1,000, with the equivalent in German marks and United States dollars also expressed on them. This loan was created for the conversion of pre-existing 6 and 5 per cent. loans, holders of which were offered the option of conversion into the new loan, and a portion was offered for sale in New York and Amsterdam at 99 per cent. The conversion was carried through in London by Messrs. J. S. Morgan and Co. (now Messrs. Morgan, Grenfell and Co.), 22, Old Broad Street, E.C. Coupons are payable January 1, April 1, July 1 and October 1, and the bonds are redeemable not later than January 1, 1945, by means of a cumulative sinking fund of 1·1466 per cent. per annum on £10,344,880 (the outstanding balance on January 1, 1911), to be applied to half-yearly purchases or drawings in June and December, commencing in June, 1900, while the amount of any drawing may be increased, and the entire loan may

be paid off on three months' notice. In January, 1911, the option of earlier redemption was exercised by the government, and £10,433,820 of the bonds were drawn and paid off, largely out of the proceeds of a 4 per cent. loan issued in Paris. All payments are made in gold, free of Mexican taxes present and future, in London (by Messrs. Morgan, Grenfell and Co.), Berlin, Frankfort, Amsterdam or New York. The loan is secured by hypothecation of 62 per cent. of the import and export duties of Mexico; these duties are collected by means of the sale of customs certificates by the National Bank of Mexico, and remitted direct to Mr. Bleichröder, Berlin, for account of the issuing houses, the Mexican government being pledged to maintain a margin of 10 per cent. above the amounts required, and to make up any deficiency fifteen days before the maturity of coupons due and bonds drawn. Amount outstanding, £9,957,260. Latest price, 58½.

Interest due April 1, 1914, was met at that date, "although only two of the three necessary monthly remittances (which include the amounts set aside for the sinking fund) have been made," but the interest due July 1, 1914, and since, and remittances for the sinking fund are in arrear.

$40,000,000 Four per cent. gold bonds of 1904. The loan is for $40,000,000 United States gold coin, and, besides having their value in American and British coinage on them, the bonds have also their value in German and French coinage. Of the above amount £3,086,494 was issued in December, 1904, in London—by Messrs. Speyer Brothers, 7, Lothbury, E.C.—New York and Amsterdam, at the price of 94 per cent., the balance having previously been placed. The bonds are to bearer, of £102 17s. 7d. and £205 15s. 2d. each, and have coupons payable June 1 and December 1, while a sinking fund is provided for the redemption of the bonds in 50 years—during the first five years by drawings at par in May and November, while after that time the sinking fund is to be applied to purchases, if the market price is below par, or to drawings at par, and, except by the operation of the sinking fund, bonds are not subject to compulsory retirement. All payments are made, free of Mexican taxes, in London—by the issuing firm—New York, Frankfort-on-Main, Berlin or Paris. Amount outstanding, $37,037,500. Latest price, 35.

£11,100,000 Four per cent. external gold loan of 1910 (part of £22,200,000 authorised), issued in Paris in June, 1910, at 97·625 per cent. The loan was destined exclusively for the conversion or redemption of the 5 per cent. loan of 1899. The bonds are of £20, £100 and £200 each, have coupons payable January 1 and July 1, and the principal is repayable by 1945 by purchase in the market below par, or by drawings (in June and December, commencing in December, 1910) at par, while the government retains the option of increasing the sinking fund, or paying off the whole of the loan after July 1, 1925, at par. The bonds are secured on 62 per cent. of the import and export duties, subject to the outstanding balance of the 1899 loan. All payments are made in London—by Messrs. Morgan, Grenfell and Co., 22, Old Broad Street, E.C.—or in Paris, Berlin, Frankfort or New York.

Interest due July 1, 1914, and since, and remittances for the sinking fund are in arrear.

£6,000,000 Six per cent. ten-year Treasury bonds of 1913, part of an authorised issue of £16,000,000, which may be increased to £20,000,000 subject to the consent of the contracting bankers. Of the total named of £6,000,000, all of which has been issued, £1,450,000 was offered here in July, 1913, by Messrs. Morgan, Grenfell and Co., 22, Old Broad Street, E.C., at 96 per cent., the remainder of the loan being offered in Paris, Amsterdam, Brussels, Geneva and New York. The bonds are to bearer, of £20, £100 and £200 each, with their equivalent in francs, marks, United States gold dollars, Dutch florins and Mexican dollars also expressed on them. Coupons are payable January 1 and July 1, and the bonds are to be repaid July 1, 1923, while the government has reserved the right to redeem the bonds at par, in whole or in part, on July 1, 1916, or on any interest date thereafter, on giving three months' notice (in the event of partial redemption the bonds to be repaid are to be ascertained by drawings). "As special security for the loan the government hypothecates 38 per cent. of the total receipts from the import and export duties of the United States of Mexico. The government has undertaken to publish immediately a decree providing that in future the whole of the duties are to be paid in customs certificates which the National Bank of Mexico will receive from the government and deliver to the public against cash. If at any time the 38 per cent. should produce a margin of less than 20 per cent. beyond the amount required for the service of the present loan, the government undertakes forthwith to present to Congress a law increasing the duties so as to produce such margin, and if at any time there should occur a diminution of those duties, so that the proportion thereof hypothecated for the loans of 1899 and 1910 has to be increased beyond the 62 per cent. as provided by the contracts for those loans, the government undertakes forthwith to present to Congress a law increasing the duties, so as to ensure that the 62 per cent. shall be sufficient to meet the requirements of the said loans." The law of the Mexican Congress authorising the loan provides that for a period of two years the government engages not to contract any external loan or negotiate any Treasury bonds or obligations payable in gold (including the unissued portion of the present loan), except in agreement with the contracting bankers. Further, the government has undertaken not to contract any new loan secured in any way upon the customs until the bonds of the present loan are repaid, unless the proceeds of such new loan are applied, and are sufficient, to entirely repay the outstanding bonds of the

present loan. The proceeds of the issue were to be applied as to £4,000,000 in retiring floating indebtedness, the remainder to be available for the general financial requirements of the government. All payments are made in gold, free of all Mexican taxes, present and future, in London—by Messrs. Morgan, Grenfell and Co.—France, Germany, United States of America, Holland, Belgium, Switzerland or Mexico. Latest price, 64¼.

Mississippi.—There are said to be $7,000,000 of bonds outstanding, issues to that extent having taken place between 1831 and 1838. A portion of these bonds has been deposited with the Council of Foreign Bondholders against the issue of certificates. The recognition of the debt is forbidden by the State. In the session of 1888 both the Senate and the House of Representatives of Mississippi voted in favour of a convention to amend the constitution, and in 1890 both houses again voted in favour of a convention. Late in 1911, however, further efforts were made to arrive at a settlement of the bondholders' claims, and bondholders were invited to deposit their securities with the Council of Foreign Bondholders against the issue of certificates.

Moncton.—In June, 1895, there were issued through the Bank of Montreal, 47, Threadneedle Street, E.C., £72,000 4 per cent. water and light debentures of £100 each of the city of Moncton, New Brunswick, at the price of 99½ per cent. Boulton Brothers and Co., 39, Old Broad Street, E.C., issued £250,000 5 per cent. bonds of £20 and £100 each of the principality (now kingdom) of Montenegro, at the price of 97 per cent. Interest is payable January 1 and July 1 (July 1, 1915, not paid), and the loan is redeemable from a sinking fund of 1 per cent. per annum, which it is estimated will extinguish the whole issue in 36 years; the sinking fund is to be applied to the purchase of bonds in the market when the price is below par, or if the price is at or above par it is to be devoted to drawings in April of each year, the first redemption having taken place in 1911. Moreover, the government has reserved the right to increase the sinking fund, or to redeem the whole of the loan at par on or after July 1, 1919, on six months' notice. Both principal and interest of the bonds are unconditionally guaranteed by the government of Montenegro, and are further specifically secured by a first charge upon the revenues and taxes of the customs and the revenues of the state salt monopoly, which for the year 1912 together amounted to £44,445. The proceeds of the loan were to be applied to the redemption of all pre-existing indebtedness, and for the purpose of constucting roads and other public works, &c. All payments have been made by the issuing firm, free of Montenegrin taxes; interest due July 1, 1915, has not yet (November 9, 1915) been paid. Amount outstanding, £239,800. Monte Video.—In May, 1889, Messrs. Baring Brothers and Co., 8, Bishopsgate, E.C., made an issue of £1,276,595 6 per cent. bonds of £100, £500 and £1,000 each of the city of Monte Video, the price of issue being par. Coupons are payable June 1 and December 1, and a cumulative sinking fund of 1 per cent. per annum was to be employed during the months of May and November in purchasing the

bonds of the public debt of the republic of Uruguay, or bonds of this loan, should they be below par, and the city has now the right of redeeming the whole loan at par at any time. The principal, interest and sinking fund of the loan are not liable to any deduction for Uruguayan taxes of any kind. Certain municipal revenues are specially hypothecated for the service of the loan, which is also a direct obligation of the republic of Uruguay. All payments are made by Baring Brothers and Co., Limited, at the above address. The coupon due December 1, 1891, was not paid, and in 1892 the future engagements for the debt were considerably modified. Further bonds to the nominal amount of £100,000 were created, ranking pari passu in all respects with the existing bonds, and the coupon which fell due December 1, 1891, was paid in these new bonds at par. Interest falling due in 1892, 1893 and 1894 was paid at the rate of 4 per cent. per annum in cash, and no amortisation was effected during those years; interest falling due in 1895, 1896 and 1897 was paid at the rate of 4½ per cent. per annum, and in 1898, 1899 and 1900 the rate was 5 per cent. per annum, an accumulative sinking fund of ½ per cent. per annum having commenced in 1895. In 1901 full interest at 6 per cent. per annum and the accumulative sinking fund of 1 per cent. per annum were to have been resumed, but in April, 1901, the municipality announced its inability to provide for more than 5 per cent. interest and ½ per cent. sinking fund, and the service of the debt on this basis was met down to 1914, but early in 1915 it was announced that the municipality had been authorised by law of the Uruguayan Congress to suspend the sinking fund for 1915 on the debt, and to pay only the interest on the bonds in circulation. Interest due in 1915 has been duly paid, and the payments made by the municipality are accepted by the bondholders in full discharge. In place of the former remittances of $15,000 per month the municipality is now making a daily deposit of $1,200 gold with Messrs. Baring's correspondents in Monte Video. The amount of bonds outstanding is £992,338. The bonds are quoted in the official list; latest price, 67¾.

Nicaragua.—In May, 1909, the Anglo-South American Bank, Limited, was authorised by the Ethelburga Syndicate, Limited, 65, Bishopsgate, E.C., to receive applications towards an issue of £500,000 6 per cent. bonds to bearer, of £20, £100 and £500 each, of the Republic of Nicaragua, at the price of 92 per cent., and subscriptions to this issue were also received in Brussels and Amsterdam, while in May, 1909, £500,000 of similar bonds were offered in Paris at 93½ per cent. The bonds form part of a total authorised of £1,250,000, all of which was issued. Coupons were payable January 1 and July 1, and engagements were met down to 1911, although the interest due July, 1911, on the loan was paid out of the unexpended proceeds of the issue, and not from funds provided by the government, and default took place on the January, 1912, coupon. Negotiations for a settlement of the debt were not at first successful, but in June, 1912, an agreement was submitted to the bondholders and was accepted; the agreement was declared operative at the end of October, 1912, and the bonds were stamped as assenting thereto. Under this agreement the January, 1912, coupon was paid at the rate of 6 per cent. per annum, with interest to date of 5 per cent. per annum; coupons due July, 1912, and January, 1913, were paid at the rate of 5 per cent. per annum—the money for these payments being provided from the unexpended proceeds of the 1909 loan, while the payments were made by the Council of Foreign Bondholders, 17, Moorgate Street, E.C. All future coupons were to be paid at the rate of 5 per cent. per annum, and a sinking fund of at least 1 per cent. per annum of the face value of all bonds stamped under the 1912 agreement (commencing directly the agreement became effective) was provided, together with a sum equal to 5 per cent. of the face amount of all redeemed bonds, the sinking fund to be applied to drawings at par, with accrued interest, when the price is at or above par, and otherwise it is to be applied to tenders or purchases. In the event of certain contracts entered into by the government with New York bankers, dated September 1, 1911, or a similar financial operation as that contemplated thereby, being carried into effect, the government agreed to purchase, and the holders of the bonds agreed to sell their bonds to the Republic—if the said purchase had been effected within two years from October 31, 1912, the purchase price would have been 93 per cent. of the face value of the bonds, plus accrued interest; if the purchase be effected after the expiration of two years and prior to the expiration of four years the price is to be 94 per cent. and accrued interest; if after the expiration of four years and prior to the expiration of six years the price is to be 95 per cent. and accrued interest; and after the expiration of six years the purchase price is to be par and accrued interest. Under the 1912 agreement the security originally hypothecated to the bonds was relinquished, and the holders now have as the sole security a first lien upon the entire customs revenues of the Republic; so long as any of the 1909 bonds are outstanding the customs revenues are to be collected by a collector-general of customs approved by the Secretary of State of the United States, and appointed by the Republic, and the sum required for the debt service was to be remitted monthly to the bankers in New York charged with the service of the debt. Of the amount of £1,239,100 outstanding of the 1909 loan at the time the 1912 agreement was sanctioned, £1,238,020 has been stamped under the 1912 agreement, and payments have been made in London, Paris and Amsterdam—in London by Messrs. Brown, Shipley and Co., Founder's Court, Lothbury, E.C., or Messrs. Seligman Brothers, 18, Austin Friars, E.C. Amount outstanding, after deducting £59,480 of bonds purchased for the sinking fund, £1,178,540.

Towards the close of 1914 the monthly remittances for the service of the debt, as arranged under the 1912 agreement, were suspended, and coupons due January 1, 1915, were not met at maturity, and the sinking fund was not provided in full. By law passed by the congress in Nicaragua on March 6, 1915, it was provided that four-fifths of the coupons due January 1, 1915, should be paid in cash

forthwith, and this payment was made on May 3, 1915, by the Council of Foreign Bondholders, together with interest on the nominal amount of the coupons at the rate of 6 per cent. per annum for the four months to April 30, 1915, a voucher being given for the balance. The law further provided that remittances for the service of the bonds should be suspended up to July 1, 1915, while from that date and up to the time when all arrears are paid off the collector-general of customs is to remit one-half of the net customs collections (but in any case not less than the amounts stipulated by the agreement of 1912), to be applied in the first place to the payment of current interest and sinking fund, any excess to be devoted to the payment of the balance of the interest and the sinking fund due January 1, 1915, and the interest and sinking fund due July 1, 1915, together with interest thereon at 6 per cent. per annum; and if Nicaragua should become entitled to receive from the United States the sum of $3,000,000, or any other sum, under the projected treaty between the two countries, all arrears are to be immediately discharged thereout. In consequence of the continued falling off in the customs receipts, as the result of the dislocation of trade caused by the war, a modification of the law of March 6 was found necessary, and it is understood that a decree was issued in August providing for the postponement of the operation of the law of March 6 to July 1, 1916, and the payment on January 1, 1916, of the balance of the coupon due January 1, 1915. If, however, in the meantime the customs receipts should in any month exceed £24,000, such excess is to be applied to liquidating the arrears. Latest price of assenting bonds, 60⅜.

The payment of the coupons and drawn bonds due January 15, 1915, was met on February 11, 1915, and payments due July 14, 1915, were met on August 5, 1915. Paraguay.—This South American republic was first known to European investors by the issue of two loans in 1871-72. The republic defaulted in 1874; in December, 1885, terms of settlement were agreed to by the bondholders, and the reorganisation of the debt was effected, and a company, under the style of the Anglo-Paraguayan Company, Limited, was formed to deal with the land warrants issued under this plan against overdue coupons (this company has since been wound up). Engagements on the new debt were regularly met to January 1, 1892, but coupons due July 1, 1892, were not paid. In 1895-6 a new scheme was settled between the government and the bondholders, and carried out. Under this scheme interest on the 1886 bonds was fixed at—for three years from January 1, 1896, 1 per cent. per annum, for the next three years 1½, for the next three years 2, for the succeeding two years 2½, and thenceforth, until the extinction of the debt, 3 per cent. (this maximum has been reached). A sinking fund of ½ per cent. per annum is provided (commenced January 1, 1900), with the power to the government to increase; it is applied by purchase of bonds when the price is under par, and by drawings at par when the price is at or above par. Coupons in arrear, inclusive of that due January 1, 1896, amounting to £100,140, have to the extent of £98,000 been converted into new bonds ranking equally with the 1886 bonds. As security for the service of the 1886 and 1896 bonds the state specially assigns the total amount of the export duty on yerba maté (a species of tea, much affected by South Americans), while so long as any of the 1886 or 1896 bonds are in circulation the central custom-house at Asuncion is to pay on the first day of each month to the representative of the Council of Foreign Bondholders a proportionate amount, in gold, of the sum required for the service of the debt. In the event of the monthly payments not being made for a period exceeding 12 months, the holders of the 1886 bonds are to recover the rights existing before the arrangement of 1896. The old bonds have been stamped with this plan. Coupons due January 1, 1915, were met at due date, and coupons due July 1, 1915, were paid on August 21, 1915, together with interest on the coupons at the rate of 6 per cent. per annum from due date to August 21, 1915. Payments are made by Messrs. Robarts, Lubbock and Co. (now amalgamated with Messrs. Coutts and Co.), 15, Lombard Street, E.C. The amount of 1886 bonds in circulation at the time of the reorganisation of the debt was £834,500, and new bonds have been issued for £158,000, making the total amount of the debt ranking under the new arrangement £992,500—amount outstanding at October 1915, £719,400; the bonds are of £100 each, and are exempt from all Paraguayan taxes. Bonds not stamped receive no interest. The conversion was definitely closed on January 3, 1901. The bonds are quoted in the official list; latest price, 43.

The government retained the option to terminate the concession at the end of the sixteenth year on two years' notice. After prolonged negotiations a renewal of the monopoly was signed on November 8, 1906, and the new concession is for nineteen years, dating from May 1, 1907. The bonds have, further, the absolute guarantee of La Société des Tabacs, which has a subscribed capital of 9,000,000 milreis in shares of 90 milreis, half paid up, on which dividends of 15 per cent. per annum were paid for 1899-1900; 17 for 1900-1; 18 for 1901-2; 19 for 1902-3; 20 for 1903-4, 1904-5 and 1905-6; 24·64 for the thirteen months to April, 1907; nil for 1907-8; 8·38 per cent. for 1908-9; 6 each time for 1909-10 and 1910-11; 9 for 1911-12, 1912-13 and 1913-14; and 6 for 1914-15. Rosario.—Two loans of the city of Rosario, in the Argentine Republic, were issued here in 1887 and 1888, on which default took place in 1891, and after several years of negotiations an agreement was come to, which was accepted by the bondholders and duly executed in 1900. Under this agreement the rate of interest was reduced, overdue interest was funded at the rate of about 25 per cent., and the sinking fund was suspended until 1910. With the new bonds for arrears of interest there were then three loans in existence, and in 1889 another issue was offered for sale by Messrs. C. J. Hambro and Son. In 1907, however, a fresh scheme was brought forward for dealing with the debt, and this plan has been carried into effect. Under it the four old loans (the holders of practically all the bonds having come in) have been consolidated into one new 4 per cent. loan, the authorised amount of which is £2,000,000, in bonds of £25, £100, £500 and £1,000 each, while £1,982,775 has been issued, including £23,675 allotted in part payment of interest, as stated below, guaranteed in all respects by the government of the Province of Santa Fé, both as regards principal and interest, and specially secured by the "direct tax" of the province. During the first five years, that is up to and inclusive of the coupon falling due November 1, 1913, interest was 2¾ per cent. in cash and 1¼ per cent. in bonds of the same loan, and thereafter the full interest of 4 per cent. is to be paid in cash, while the coupons of the bonds as they mature may be given in payment of the "direct taxes" of the province. Coupons are payable May 1 and November 1, and redemption is to be effected at the rate of ½ per cent. per annum by purchases or drawings, to commence in 1918, and the municipality has reserved the right to increase the sinking fund at any time. Engagements under this plan are being met, payments being made by Messrs. C. J. Hambro and Son, 70, Old Broad Street, E.C. The bonds are quoted in the official list; latest price, 47.

Dunn, Fischer and Co., 41, Threadneedle Street, E.C., in 1911, and the two firms named disposed of them privately in 1910-11 in Paris. The bonds are of £20 each, with their value in francs also expressed on them, and form part of a total authorised of £468,750. Coupons are payable June 1 and December 1, and the principal is to be repaid by June 1, 1935, from a sinking fund of 2 per cent. per annum in respect of the £150,000, and 2⅛ per cent. per annum in respect of the £100,000, to be applied to drawings in May and November (commencing in May, 1910, and May, 1911, respectively). The state undertakes that the amount necessary for the service of the loan shall be in the hands of Messrs. Erlanger and Co. and Messrs. Dunn, Fischer and Co., as the case may be, at least six calendar months before the due date, while as security for the loan there is specially hypothecated a first charge on the tax on capital and exports. Coupons are payable by Messrs. Erlanger and Co. as regards £150,000 of the bonds (numbered 1 to 7,500), and by Messrs. Dunn, Fischer and Co. on bonds for £100,000 (numbered 7,501 to 12,000), and also in Paris, free from all present or future federal, state or municipal taxes. Engagements have been regularly met. Amount outstanding, £217,600.

Santa Fé, City of.—In May, 1889, the then firm of Heinemann and Co. made an issue of £257,900 6 per cent. bonds of £100 of this city, at the price of 95 per cent. Coupons are payable June 1 and December 1, and the principal is to be repaid June 1, 1919. A cumulative sinking fund of 1 per cent. per annum was to be set aside for investment in the bonds of this loan by purchase when under par, and when above par in the purchase of bonds of the province of Santa Fé, of the national government, or of other provinces or municipalities of the Argentine Republic. The bonds were issued to provide funds for paving the streets of the city, and, in addition to being a charge on the general revenue, are secured on the paving tax, which was made a special lien on all property chargeable thereto within the city limits. Payments were made by the issuing firm, and were regularly met until December 1, 1890, but on June 1, 1891, the city defaulted. Fresh terms were arranged in 1892, but the service again broke down in 1893.

Negotiations proceeded for a settlement of the debt, but it was not until 1905 that terms were arranged. Under the agreement entered into, the province of Santa Fé guarantees the fulfilment of the terms of the contract. The interest on the loan is to be 4 per cent. per annum for ten years, commencing March 1, 1905, and 6 per cent. thereafter, all payments to be made in currency, the first payment being reckoned as for March 1, 1905, and interest, paid in advance, is now paid on March 1 and September 1. For arrears of interest similar bonds were given at the rate of £12 10s. for every £100 bond. There is to be no compulsory amortisation, but redemption can be made in gold at the option of the municipality (not less than 1 per cent. per annum cumulative at one time), by purchases when the bonds are below par, or by drawings at or above par. The municipality has also the option, at any time within thirty years, to redeem the whole loan at 80 per cent., on six months' notice. Interest from March 1, 1905, to August 31, 1906, inclusive, both on the old bonds and on the additional securities issued in respect of arrears of interest, was paid in April, 1906, by Messrs. C. J. Hambro and Son, 70, Old Broad Street, E.C., and the new funded coupon bonds in respect of arrears of interest have also been issued, these latter being in amounts of £25 each; engagements are being regularly met. The coupon due September 1, 1915, realised £1 5s. 11d. per £100 bond. It is provided that the amount necessary for the payment of each coupon shall be deposited at the branch of the London and River Plate Bank, at Rosario de Santa Fé, forty days before the due date of payment. The bonds are free of present or future provincial or municipal taxes. In default of payment of two consecutive coupons, the old rights of the bondholders, as to arrears of interest, would revive. Amount of old bonds outstanding, £257,900; amount of new funded coupon bonds, £42,100. Both bonds are quoted in the official list. Latest price of old bonds, 29¾,

Santo Domingo.—This republic was first known here by the issue of bonds in July, 1869. Default and reconstruction have taken place on several occasions. In February, 1907, a convention was concluded between the governments of Santo Domingo and the United States of America for the unification and control of the Santo Domingo debt. A new 5 per cent. gold loan for $20,000,000 was created, into which the entire debt of Santo Domingo was converted, and to the end of 1914 the amount of the new loan issued was $15,573,100, of which $2,530,250 had been redeemed, leaving $13,042,850 outstanding. The bonds are of $50, $100, $500 and $1,000 each, and have coupons payable February 1 and August 1, while the principal is not subject to repayment until February 1, 1918, but from then onwards the government may pay off the loan at 2½ per cent. premium. A cumulative sinking fund was created in the hands of the Guaranty Trust Company of New York, with a minimum sum of $200,000 per annum, dating from January 1, 1908, to be applied to purchases in the market at prices below 102½ per cent., or to be invested in securities in which savings banks

may be authorised to invest by the laws of the State of New York. This sinking fund has been duly provided to date. It was further agreed that half of any excess of customs collections in any year over the sum of $3,000,000 (U.S.) should be applied to increasing the sinking fund. Conversion of the old 4 and 2¾ per cent. bonds into the new loan with the agreed cash payments was effected in London by Chaplin, Milne, Grenfell and Co., Limited (now in liquidation), and all payments on the bonds are made in London (at the fixed exchange of $4.87 to the £, by the Bank of Montreal, 47, Threadneedle Street, E.C.), Paris, Brussels or Amsterdam. The convention between the Dominican Republic and the United States stipulates that the latter shall appoint a general receiver of the Dominican customs, and such assistant-receivers and other employés as may be required for the monthly collections of the customs duties, which are to be applied in meeting the expenses of the receivership in the service of the new debt, and such receivership is to continue until the payment or retirement of all the bonds. Latest price, 92½.

A committee of bondholders in connection with the Council of Foreign Bondholders sits at 17, Moorgate Street, E.C., and certificates have been issued by the Council of Foreign Bondholders to certain British holders of old securities, converted in 1908, to represent claims for better terms than were accorded.

Santos.—On behalf of the city of Santos, Brazil, two loans were issued here—in 1888 and 1910. Engagements on the former loan were regularly met, but as regards the 1910 issue the interest which fell due October 31, 1914, was postponed for three months, and a similar postponement was notified for the coupon due April 30, 1915, but before these then became due it was notified that the municipality could not meet its engagements, and in October, 1915, a funding scheme for the 1910 loan was brought forward, and has been put into operation. The particulars of the loans known here are as under, and the first two are quoted in the official list:—

£100,000 Six per cent. bonds issued in July, 1888, by Messrs. J. Henry Schröder and Co., 145, Leadenhall Street, E.C., at par. Coupons are payable February 1 and August 1, all payments being made by the issuing house. The municipality has to provide the sum of, more or less, £7,230 per annum, and the balance remaining after payment of interest is to be applied to the redemption of the bonds, by drawings at par in January and July, commencing in July, 1890, the issue to be redeemed in thirty years from 1890. The municipal council, however, has reserved the right to accelerate the redemption of the bonds, on giving six months' notice, at the rate of 105 per cent., in addition to accrued interest. The bonds are specially secured on the duties on alcoholic liquors and salt and the annual licences of the city, which are to be paid into the London and Brazilian Bank, Limited, and that company has to remit a sufficient sum to the issuing firm to meet the payments. Amount outstanding, £28,200. Latest price, 79½.

Engagements on this loan have been regularly met.

£1,000,000 Six per cent. internal sterling bonds of £100 and £20 each, issued in April, 1910, by Messrs. Emile Erlanger and Co., 8, Crosby Square, E.C., at 97 per cent., the bonds having also their value in Portuguese currency expressed on them. Applications had, before the issue of the prospectus, been received for £300,000 of the bonds, which were allotted in full on the terms of the prospectus. Coupons are payable April 30 and October 31 (see below for funding scheme), and the principal was to be repaid within fifty years by means of an accumulative sinking fund of 0·3444 per cent. per annum, to be applied to annual drawings (in January, commencing in 1911) at par, while the municipality reserved the right to increase the sinking fund to any extent, on giving six months' notice. To provide the service of the loan an annuity of £63,444 was to be paid semi-annually to the London and Brazilian Bank, Limited, in Santos, as to £33,444 on April 1, and as to £30,000 on October 1 in each year, these amounts being secured by a general bond of the municipality which creates a first charge on the general revenues of the municipality except (1) the duties on alcoholic liquors and salt, which at present form part of the security for the 1888 loan, and (2) the annual licences of the city, which also form (as a first charge) part of the special security for the 1888 loan. Payments have been made free from municipal taxes (while any state or federal taxes are to be borne by the municipality) in London (by the issuing firm), in Santos or in Switzerland. Amount outstanding £984,940, including bonds for £4,340 drawn in January, 1915, but not paid off (see below). Latest price, 79¼.

Coupons on these bonds due October 31, 1914, were not met until January 31, 1915, when interest at the rate of 6 per cent. per annum for the period of three months was added; coupons and drawn bonds due April 30, 1915, were postponed for three months, but were then not paid, and in October, 1915, a funding scheme was brought forward and has been carried into effect, under which coupons due April 30, 1915, to October 31, 1917, both inclusive, are being funded into bonds of a new loan; the repayment of the bonds for £4,340 drawn in January, 1915, has been postponed until 1918, and no further drawings are to take place, for the present. The annuity of £63,444 provided for the service of the loan is suspended down to October 31, 1917, and thereafter such annuity will again become payable, but in lieu of the semi-annual payments previously made, the municipality will hand over to the bankers in Santos, entrusted with the service of the loan, certain fixed amounts in every month in each year except April and June, and when the annuity is resumed the bonds for £4,340 drawn in January, 1915, are to be the first bonds repaid.

£177,290 Seven per cent. Funding loan. This is the amount of bonds (of £100, £20 and £10 each) to be issued exclusively for the purpose of satisfying coupons on the bonds of the 6 per cent. Interest on the funding bonds is to be paid half-yearly on April 30 and October 31 (the first on October 31, 1915), and the principal is repayable on April 30, 1933, by means of a cumulative sinking fund of 10·9795 per cent., to be applied in paying interest and repaying the bonds at par by

£38,432,520 Unified Converted 4 per cent. debt. In September, 1903, after lengthy negotiations, a scheme of consolidation into a new unified converted 4 per cent. debt was accepted by the holders of the B, C and D series, the total of new bonds to be issued under the arrangement being £29,762,520, increased, however, to £38,432,520 in connection with the conversion into the Unified converted debt of the old Priority conversion loan, effected in 1906. The revenues assigned for the service of the debt are the same as set apart for the old series, but surpluses in the net annual receipts above a sum of £T2,157,375 are to be divided between the Turkish government and the Ottoman Public Debt in the respective proportions of 75 and 25 per cent., the Debt's share to be devoted to extraordinary amortisation. The revenues assigned are collected by a "council of administration of the Ottoman Public Debt consisting for the most part of delegates elected by the syndicates representing the bondholders, and in whom the control of the debt is vested." The new bonds are of £20, £100 and £500 each, with their value in Turkish and French coinage expressed on them. It is provided that "in case during any financial year a deduction shall have been made from the reserve fund in consequence of a deficiency in the receipts due to a delay in the payment of the Eastern Roumelian annuity and the bills on the customs, the arrears of these revenues shall be preferentially applied to the repayment of the said deduction, and shall not be regarded as surplus receipts." The conversion of the debt in London was effected through the Council of Foreign Bondholders, 17, Moorgate Street, E.C., and the Imperial Ottoman Bank, 26, Throgmorton Street, E.C., and bonds not presented for conversion within a period of fifteen years are to be forfeited. $118,489,900 Four per cent. bonds. Of the original amount of $162,315,400, $62,315,400 was issued in February, 1895, in America and London—in London by Messrs. N. M. Rothschild and Sons, New Court, St. Swithin's Lane, E.C., and Messrs. J. S. Morgan and Co. (now Messrs. Some of the bonds are to bearer, and some are registered as to both principal and interest; the former may be exchanged into the latter class, but bonds once registered must remain so. The 1895 issue is in denominations of $50, $100, $500 and $1,000 for coupon bonds, and $50, $100, $500, $1,000, $5,000 and $10,000 for registered bonds, and the 1896 issue is in denominations of $50, $100, $500 and $1,000 for coupon bonds, and $50, $100, $1,000, $5,000 and $10,000 for registered bonds. The bonds

are payable both as to principal and interest in United States coin, the interest dates being February 1, May 1, August 1 and November 1, while the principal is repayable, at the pleasure of the United States government, after February 1, 1925; the amount outstanding, however, is being reduced by purchases. The bonds are exempt from the payment of all taxes or duties of the United States whether under state, local or municipal authority. Only the bonds issued here are quoted in the official list; latest price, 115½.

Uruguay.—The particulars of the loans of this republic known here are as under, and all are quoted in the official list, the last to the extent of £700,000; in November, 1914, however, the legislature passed a decree authorising the suspension of the sinking fund on the public debt (with certain minor exceptions) during the year 1915, and the operation of this decree has since been extended to one year after the termination of the European war :—

£20,500,000 Three-and-a-half per cent. consolidated debt. In September, 1891, the republic failed to meet the interest on its debt, and a scheme for consolidation on a reduced interest basis was formulated and carried into effect. A new consolidated 3½ per cent. debt for £20,500,000 was created, and the old bonds were exchanged into the new issue, which included provision for arrears of railway guarantees to the end of 1891, &c. The bonds are of £20, £100, £500 and £1,000 each, and carry coupons payable February 1, May 1, August 1 and November 1, free of Uruguayan taxes. For the payment of interest on the new debt, the various railway guarantees (which, from the end of 1891, are reduced by one-half), and the redemption of the principal of the bonds of the consolidated debt, the government assigned 45 per cent. of the gross revenues of the custom-houses of the republic, while, should this 45 per cent. be insufficient to provide for the punctual payment of any coupon of the consolidated debt, and any quarterly payment in respect of the railway guarantees, the government is to make up the deficiency from other sources of revenue, so that the cash proceeds may be in the hands of the bankers in London at least fifteen days before the due date of the payments. The 45 per cent. of the customs dues hypothecated for the new debt is to be paid daily direct by the officials of the custom-houses to the agents for the bondholders—the London and River Plate Bank, Limited. All sums received for the service of the debt and railway guarantees are to be applied—firstly, in payment of the coupons of the bonds of the consolidated debt, and secondly, in payment of the railway guarantees; the whole balance remaining to be applied to the redemption of the principal of the bonds of the debt by purchase in the market or by public tender when below par, or when above par by drawings for redemption at par. The sinking fund is limited to 1 per cent., any excess of the revenues assigned to be handed to the government, which, however, has reserved the right to increase at any time the amount applicable for redemption. The first amortisation took place in February, 1895, and in 1905 and each subsequent year (to 1914) the full sinking fund of 1 per cent. upon the original amount of the debt was applied in the purchase of bonds by tender (in February and August); in November, 1914, however, by decree of the legislature, the sinking fund in respect of 1915 was suspended, and the period of suspension was subsequently extended to one year after the termination of the European war. Payments are made in Montevideo and London—in London by Messrs. Glyn, Mills, Currie and Co., 67, Lombard Street, E.C. Amount outstanding, £16,393,780. Latest price, 61⅝.

Venezuela.—The service of the old external debt of Venezuela completely broke down in 1901, and at the beginning of 1905 there were outstanding £2,638,200 of consolidated bonds of 1881, and 48,807,440 bolivares of 5 per cent. bonds issued in April, 1896. In 1905 an agreement was come to for a settlement of the debt, and this was carried out. A new issue, entitled "Three per cent. Diplomatic Debt of the United States of Venezuela, issue of 1905," was created for the sum of £5,229,700, destined for the unification of the two old loans mentioned above, and the whole amount has been issued, the bonds of the consolidated debt having been exchanged at the rate of 72½ per cent. of the Diplomatic Debt, and the 1896 loan at par, while all arrears of interest were funded at par into the new loan. The new bonds are of £20, £100 and £500 each, with the equivalent in bolivares expressed on them; coupons payable January 1 and July 1, in London—by Messrs. Robarts, Lubbock and Co. (since amalgamated with Messrs. Coutts and Co.), 15, Lombard Street, E.C.—Berlin or Venezuela, and the redemption of the debt is to be effected within a period of not more than 47 years, by half-yearly drawings (in June and December), by purchases in the market, or by means of tenders, the government having to set aside, annually, for interest and amortisation, a fixed sum of £209,188, retaining the right to increase the amount destined for amortisation (which is being effected by tender). As security for the debt, the government assigned 25 per cent. of the ordinary customs duties, but until the total payment of the liabilities to which 30 per cent. of the revenues of the custom-houses of La Guayra and Puerto Cabello is assigned in virtue of the protocols signed at Washington on February 13, 1903, there are assigned to the diplomatic debt of 1905, in temporary substitution of the 25 per cent. of the ordinary customs duties, 60 per cent. of the ordinary customs duties of all the other ports of Venezuela. Payments in respect of the debt were to be made every fortnight to the minister of the German government, resident in Venezuela, as to one half, and to the minister of the British government, resident in Venezuela, as to the other half. The diplomatic debt is exempt from all Venezuelan taxes, and the government cannot contract any loan abroad without applying the proceeds to the redemption of the diplomatic debt. Coupons not presented for payment within five years from due date are prescribed. The Council of Foreign Bondholders made the following announcement in October, 1914, with reference to the debt of Venezuela: "Owing to the war the government of Venezuela have found it impossible to draw on London for the fortnightly payments of the debt service, and on September 16 the Council cabled the Government requesting that these payments should be temporarily deposited in the Bank of Venezuela. The Council are now officially informed through the Foreign Office that the Bank of Venezuela will be ordered by the Government to open a special account called the 'Fund set apart for the service of the Diplomatic Debt 1905 issue,' in which account there shall be entered on the respective dates of payment the fortnightly instalments destined for that service. These funds shall be remitted by mail when this can be done in conditions more or less analogous to normal conditions." Coupons due January 1, 1915, were not met at due date, but on May 10, 1915, the Council of Foreign Bondholders announced that they had received from the government of Venezuela one moiety of the funds required to cover the service of the debt for the half-year ended December 31, 1914, the other half having been paid to the Disconto-Gesellschaft, Berlin, and the Council were then prepared to pay 50 per cent. of the coupon due January 1, 1915, in cash, and to issue, free of charge, a voucher for the remaining half, such payment and issue being subject to a declaration that the coupons presented had remained in physical possession in the United Kingdom since September 30, 1914, as well as the usual declaration with regard to enemy ownership; the Council of Foreign Bondholders simultaneously received one-half of the sum required for redemption purposes, and this has been duly applied. On June 8, 1915, the vouchers referred to above, issued to represent half of the coupons due January 1, 1915, were paid off in full through Messrs. Coutts and Co., 15, Lombard Street, E.C., and on June 21, 1915, the Council of Foreign Bondholders gave notice that they had still in hand the sum of £9,000 applicable to the payment of coupons due January 1, 1915, and this sum was applied on July 2, 1915, in paying as far as possible coupons held by persons within the United Kingdom who had not previously encashed them, and coupons held by persons (other than enemies) outside the United Kingdom who, owing to the war,

were precluded from obtaining payment from the Disconto-Gesellschaft. As regards the coupons due July 1, 1915, the Council of Foreign Bondholders announced on July 30, 1915, that subject to the usual certificate with regard to enemy ownership and a special declaration that the coupons presented had remained in physical possession in the United Kingdom since September 30, 1914, coupons could be lodged with Messrs. Coutts and Co. for payment, and would be paid in full in order of deposit so far as the one moiety of the funds remitted to the Council would suffice, and if at the expiration of four weeks from July 30 the said funds had not been exhausted, payment would be extended to coupons held by persons, other than enemies outside the United Kingdom who, owing to the war, are precluded from obtaining payment from the Disconto-Gesellschaft; the Council also received one-half of the sum required for redemption purposes, and this has been applied. Arrangements for the distribution of remittances on account of the Disconto-Gesellschaft's moiety made since the outbreak of the war, for the payment of the January, 1915, coupon, have recently (November 12, 1915) been completed. Amount outstanding, £3,921,360. The bonds are quoted in the official list; latest price, 48½.

West Virginia.—In August, 1898, a committee was formed at the request of holders of a large amount of Virginia deferred certificates, for the purpose of attempting to effect a compromise and settlement of this inter-state debt. The committee was as follows:—E. Delano (Chairman), G. F. Baker, B. S. Johnston, T. M. Brown, G. Cary, R. P. Chew and W. C. Le Gendre; *Secretary:* R. L. Harrison. The Virginia deferred certificates had been issued for one-third of that part of the debt of the original state of Virginia which was estimated to be due from West Virginia as its share of such debt at the time of its severance from Virginia proper. Deposits of the certificates were invited with Messrs. Brown Brothers and Co., of New York, and Messrs. Brown, Shipley and Co., of Founders' Court, London, E.C. A majority having been deposited, a plan of settlement was drawn up by the committee and recommended by the advisory board (the Hon. W. MacVeagh, the Hon. T. S. Martin and the Hon. L. J. Gage). No further steps with respect to this plan were taken, however, because the Virginia legislature of 1900 passed an act authorising the Debt Commission of the state of Virginia to take action or begin proceedings for an adjustment of the debt, and requiring that two-thirds of the outstanding deferred certificates of 1871, as well as a majority of those of other dates should be under control. After the committee had obtained the necessary two-thirds majority of the certificates, it entered into negotiation with the Virginia Debt Commission with a view to pressing for an adjustment of the debt. In February, 1906, a bill was filed by the state of Virginia against the state of West Virginia in the Supreme Court of the United States asking for an accounting and a judgment against West Virginia for the amount found due. In its decision handed down on March 6, 1911, the Supreme Court stated that $7,182,507 was due from West Virginia on account of the principal. The decree of the Court left the matter of interest for the fifty years' period since the separation of the two states in abeyance, to be settled, if possible, by a conference between them. If not so settled, the question of interest would, it was announced, be referred by the Supreme Court to a Master, to go over the figures and make the necessary calculations of interest. A commission was appointed by the West Virginia legislature which conferred with the commission of the state of Virginia in July, 1913. The state of Virginia

reported to the Supreme Court the inability of the conference to come to any agreement, and made a motion that the Court proceed to enter a final decree. In January, 1915, the Special Master filed a report which the Supreme Court had directed him to draw up, and it is believed the case is still (November, 1915) before the Court. For certificates deposited, negotiable receipts have been issued by the respective depositaries. The total deposits under the scheme are about $14,087,100.

Railways—Home, Colonial and Foreign.

There is no liability attaching to fully-paid shares or stocks of railway companies incorporated by Act of Parliament. Preference stocks created since 1859 *are dependent for dividends upon the profits of each year, but this arrangement does not affect pre-existing accumulative stocks which have, since* 1859, *been funded into new accumulative stocks. It does not follow that preference stock carries the right to attend meetings, or to participate in allotments of new stock.*

Dealings in debentures, as distinguished from debenture stocks, are subject to the following Stock Exchange rule, No. 129 :— "*Bargains in bonds and debentures include the accrued interest in the price, except in the case of British and Colonial Treasury and Exchequer bonds or bills, Rupee Paper, Indian railway debentures and certain securities of a like character which are dealt in so that the accrued interest up to the day for which the bargain is done is paid by the buyer.*"

As regards American and Canadian railway dollar securities, Stock Exchange transactions are on the basis of the dollar being equal to 4s. Shares are always quoted per share, and bonds per cent. A member shall not be required to accept the delivery of a certificate of American shares representing a larger number than: 50 shares up to and including $25 *each: 20 shares up to and including* $50 *each: 10 shares of any other denomination; nor any American bonds of a larger amount than* $1,000. *Smaller certificates or bonds must be of such denominations as to be deliverable in the above amounts.*

American railway shares are transferable by endorsement in the form printed on the back of the certificate. The companies, as a rule, do not make any office charge for transferring shares from one name to another, but, when shares are taken out of one name and put into another, the New York State Transfer Tax of $2 *per* $10,000 *nominal of shares has usually to be paid on securities of which the register is in New York, and the new security, to be a good delivery in British markets, must have affixed the British stamp of* 2*s. per* $1,000 *nominal.*

A controlling interest in the English company was acquired by the Southern Railway Company (U.S.), and the latter towards the close of 1905 brought forward a scheme, which has been carried out; the English company has been liquidated, the shares of the Alabama Great Southern Railroad Company (the American corporation) have been issued in exchange for the shares of the English company, and certain other changes have been made in the capital, which is now as under, the number of miles owned being 290:—

$3,380,350 Preferred shares of $50, fully paid, ranking before the foregoing for 6 per cent. dividends (cumulative for six years).

Morgan, Grenfell and Co., 22, Old Broad Street, E.C.

There are also equipment trust obligations for $603,104. The accounts are made up annually to June 30, and submitted in New York. The preferred dividend is being paid in February and August, and the first dividend on the ordinary shares was 2 per cent., paid in June, 1909, while 2½ per cent. was paid each time in December, 1910, June and December, 1911, 1912, 1913 and 1914, and June, 1915. Alabama, New Orleans, Texas and Pacific Junction Railways Company, Limited.—*Directors:* Baron E. B. d'Erlanger (Chairman), Visc. Grimston, Hon. E. C. W. Ponsonby and J. Varley. *Secretary:* B. R. Tomlinson. *Office:* 32, Bishopsgate, E.C.—The company was registered June 18, 1881, to provide the means for acquiring the control of certain railways which it was considered could be advantageously associated with the Alabama Great Southern Railway Company, Limited; those railways are the New Orleans and North Eastern, the Alabama and Vicksburg, and the Vicksburg, Shreveport and Pacific. In October, 1887, the company defaulted in interest payments, and a liquidator and receiver was appointed. In October, 1890, a scheme of reorganisation was formulated and carried through, the issued capital being now as follows; coupons of the debentures are paid by Messrs. Glyn, Mills, Currie and Co., 67, Lombard Street, E.C.:—

£1,500,000 Fully-paid 6 per cent. cumulative preferred A shares of £10, entitled to a preference in capital. Dividends are largely in arrear, the only payments so far made having been 3½ per cent. in respect of 1907, 2½ per cent. in respect of 1909, 4½ per cent. in respect of 1910 and 1911, 3½ per cent. in respect of 1912, and 4½ in respect of 1913—nothing in respect of 1914.

£2,500,000 Deferred B shares of £10, issued as fully paid, entitled to the surplus profits after payment of the preferred dividend. No dividend has yet been paid.

£748,850 Five per cent. A debentures to bearer of £50 and £100 each, part of £750,000 authorised. Coupons are payable May 1 and November 1, and the principal is repayable November 1, 1940, but is redeemable at the option of the company (now) at any time, on six months' notice, at 115 per cent. This issue has rights of foreclosure or other action in default of payment of interest.

£1,048,390 Five per cent. B debentures to bearer of £20, £50 and £100 each, part of £1,050,000 authorised, ranking as a second charge. Interest is non-cumulative, ranking on the profits of each financial year, and is payable by coupon May 1 and November 1, while the principal is repayable November 1, 1940, but is redeemable at the option of the company (now) at any time, on six months' notice, at 115 per cent.

£810,653 Five per cent. C debentures to bearer of £20 and £100 each, part of £840,000 authorised, ranking as a third charge. Interest is non-cumulative, ranking on the profits of each financial year, and is payable by coupon April 1 and October 1 (see below), while the principal is repayable November 1, 1940, although redeemable at the option of the company before that date, at par, on six months' notice.

The accounts are made up annually to December 31, and submitted about March. Interest on the A and B debentures is being regularly met half-yearly, but on the C debentures interest is still being paid annually, the two coupons due in 1914 on the last mentioned having been paid in December, 1914, while those due in 1915 have not yet (November 15, 1915) been paid. The dividends so far paid on the preferred shares have been 3½ per cent. in respect of 1907, 2½ per cent. in respect of 1909, 4½ per cent. each time in respect of 1910 and 1911, 3½ per cent. in respect of 1912, 4½ per cent. in respect of 1913, and nil for 1914, leaving arrears as from August 27, 1885. Carried forward at December 31, 1914, £6,508, including £4,254 brought down. At December 31, 1904, discount on debentures, expenses of issue of share capital and debentures, and preliminary expenses stood in the accounts

for £471,946, and there was a debit to revenue, old account (September 30, 1890), of £111,427; in 1905 the directors considered how these amounts could best be treated, and it was decided that the item of £111,427 should, in the first place, be wiped out by the appropriation of surplus earnings (this has been done by the transfer of the credit balance of £57,714 at the end of 1904, the surplus of £31,185 for 1905 over interest charges, and £22,527 from the surplus profits of 1906), while the above-mentioned item of £471,946 is to be extinguished by annual appropriations from net profits—the first appropriation of £6,500 to this fund was made out of the profits of 1906, and like sums were applied out of the profits of 1907, 1908 and 1909, and £4,600 (each year) out of the profits of 1910, 1911, 1912, 1913 and 1914, while the amount has further been reduced (in 1910) by £120,164 through the receipt of additional stock for that amount of the Alabama and Vicksburg Railway Company on the adjustment of that company's revenue and capital accounts, the £471,946 having now been reduced to £289,880.

The three subsidiary companies make up their accounts annually to June 30, and for the year to June 30, 1915, the New Orleans and North Eastern paid 1 per cent. on its common shares, the same as for 1913-14; the Vicksburg, Shreveport and Pacific paid nothing on either class of shares, as against the full preferred dividend of 5 per cent. for the previous year; and the Alabama and Vicksburg paid 5 per cent. on the common shares, as compared with 7 per cent. for the previous year.

Voting power, one vote for every share, preferred or deferred. Director's qualification, £1,000 of shares of either class. Transfer form, common; fee, 2s. 6d. per deed, no fee being charged for the registration of probate; A and B shares cannot be transferred on the same form. Cable address, Tomlinson, London. Telephone number, 2202 London Wall. The company is quoted in the official list. Latest prices—preferred shares, 82s. 6d.; deferred shares, 2s. 3d.; A debentures, 97; B debentures, 77; C debentures, 80¼.

Alagoas and Northern Railway Company, Limited.—*Directors:* F. Holt (Chairman), H. C. Allen, J. P. Clarke and W. Parish. *Secretary:* H. Tattam. *Office:* River Plate House, Finsbury Circus, E.C.—The company was registered October 30, 1912, to acquire a concession granted by the government of the state of Alagoas, Brazil, for the construction and working of a line of railway, approximately 90 miles in length, extending from Laurenco Albuquerque or Bom Jardim to the town of Jacuhype, together with a branch to Leopoldina. "The concession carries with it a guarantee of 5 per cent. from the government of the state of Alagoas, on a capital of 45 contos of reis per kilometre, for a period of 90 years, the government reserving the right to purchase the line after 20 years, on the basis of the average of the previous five years' receipts during the privileged period, such price, however, not to be less than the guaranteed capital. After the privileged period the government may purchase at the then value of the line, which price, however, will not exceed the actual cost of construction;" subject to the above option of government purchase the railway is the property of the company in perpetuity. To September, 1914, since when construction work has been practically suspended, 14 kilometres of earthwork had been completed and 4½ kilometres of main track laid. The authorised capital is £250,000 in shares of £10, all of which has been subscribed and paid up, including £249,930 allotted to the Great Western of Brazil Railway Company, which company will guarantee the debenture capital necessary for the construction of the railway. At December 31, 1914, £117,406 was due to the Great Western company for cash and stores advanced in London and Brazil, including interest accrued. Voting power, one vote for each share. Director's qualification, must be a shareholder. Transfer form, common; fee, 2s. 6d. Telegraphic address, Alagonorra, Ave, London. Telephone number, 1001 London Wall.

Alberta and Great Waterways Railway Company.—*Office:* Edmonton, Canada.—The company was incorporated in 1909 under act of the legislative assembly of the province of Alberta. In November, 1909, Messrs. J. S. Morgan and Co. (now Messrs. Morgan, Grenfell and Co.), 22, Old Broad Street, E.C., offered for sale $7,400,000 of 5 per cent. first mortgage gold debenture bonds, of $1,000 each, of the company, the price of issue being 110 per cent., equivalent to £226 0s. 7d. per $1,000 bond. Interest is payable by coupon January 1 and July 1, and the bonds are repayable at par January 1, 1959, with the option to the company to redeem all or any of the bonds at any time after January 1, 1919, at 112½ per cent. In 1911 difficulties arose between the government of Alberta and the railway company, which were not definitely settled until 1913. The definitive bonds have been issued and bear the guarantee of the government of Alberta as to both principal and interest, while they are also secured by deed of mortgage made by the company to the Standard Trusts Company as trustee, "which mortgage, subject only to the provisions of the Railway Act of Alberta and the Railway Act of Canada, whichever may be applicable to the said railway, is and shall be a first charge upon the company's railway as described in the said Acts." Payments are made by Messrs. Morgan, Grenfell and Co., as above. The bonds are quoted in the official list; latest price, 92.

Alberta Railway and Irrigation Company.—*Directors:* Sir T. G. Shaughnessy, K.C.V.O., Canada (President), G. Bury, Canada (Vice-President), A. R. Creelman (Canada), D. McNicoll (Canada) and I. G. Ogden (Canada). *Head Office:* Windsor Station, Montreal. *London Agent:* Canadian Pacific Railway Company, 8, Waterloo Place, Pall Mall, S.W.—The company was incorporated by Act of the Canadian Parliament in June, 1904, and, as from October 1, 1904, amalgamated a company of similar title, the Alberta Railway and Coal Company, the Canadian North West Irrigation Company, and the St. Mary's River Railway Company. Early in 1911, the proprietors sanctioned an agreement which had been entered into provisionally for (1) a long lease of the railway to the Canadian Pacific Railway Company, and (2) a contemporaneous sale to the Canadian Pacific of the assets, other than the railway. The period of the lease of the railway is 999 years from January 1, 1912, and under the lease, the Canadian Pacific guarantees the payment of an annual rent equivalent to a dividend of 6 per cent. per annum on the share capital, of which, however, that company now owns practically the whole. The terms of the lease to the Canadian Pacific are endorsed on Alberta certificates. The authorised and issued capital is $3,250,000 in fully paid shares of $100, and there was 5 per cent. non-cumulative debenture stock for $3,250,000, which, however, was paid off on January 1, 1912.

Alcoy and Gandia Railway and Harbour Company, Limited.—*Directors:* Lord St. Davids (Chairman), R. H. C. Harrison and W. F. Roch, M.P. *London Manager:* J. T. Dillon. *Secretary:* B. O. Bland. *Office:* 136, Dashwood House, E.C.—The company was registered

August 20, 1889, to acquire a concession granted by the Spanish government for the construction and working of a harbour at Gandia, in Spain, and a railway, about 33 miles in length, from Alcoy to the harbour, opened throughout for traffic in January, 1893. In December, 1912, a further concession was granted to the company by the Spanish government for a railway of about 14 miles from the harbour of Gandia to Cullera; construction has not yet (November 15, 1915) been commenced. The concession for the harbour is in perpetuity, and the concession for the railway and the extension are both for 99 years from 1889, there being no option of government purchase prior to the expiration of the concessions, and no monetary guarantee was given. In 1894 the company went into the hands of a receiver, and in 1899 a scheme of arrangement was carried through, the chief features of the plan being the reduction of interest on the first mortgage debentures from 5 to 4 per cent. (such interest for the first three years to be paid out of net earnings), the funding of arrear interest on the first mortgage debentures into second debenture stock, and the issue of prior lien bonds to provide for a receiver's loan, &c.; the shares were not affected by the plan. In 1902 the period of three years during which interest on the first mortgage debentures was only to be paid out of net earnings was extended to eight years, while in the latter part of 1907 another scheme was brought forward, and has been put into operation. Under the 1907 scheme interest on the first mortgage debentures is made non-cumulative until the full 4 per cent. shall have been paid for four consecutive years, whereupon full mortgage rights are to be resumed; the authorised amount of the prior lien debenture stock was increased from £20,000 to £50,000; all arrears of dividend on the preference shares were cancelled, and the dividends in future are to be non-cumulative; and voting rights were given to holders of debentures and debenture stocks. In 1913 a scheme was approved authorising the increase of the amount of the prior lien debenture stock to £120,000, and also by £3,500 per additional mile of line. The capital is now as under:—

£175,000 Ordinary shares of £100, fully paid, being the total authorised.

£350,000 Preference shares of £100, fully paid, being the total authorised. These shares, which have a priority as to capital, rank before the ordinary for dividends of 6 per cent. per annum, and take one-half the surplus profits after payment of non-cumulative dividends of 6 per cent. per annum on the ordinary shares. The fixed rate of dividend of 6 per cent. on these shares was formerly cumulative, but all arrears were cancelled under the scheme of 1907, and for the future the dividends are non-cumulative. The dividend on these shares was guaranteed by the contractors until the works were taken over by the company, and the last dividend paid was in July, 1892.

£20,000 Five per cent. prior lien debenture stock, redeemable at 105 per cent. at any time on six months' notice. Of this amount £6,479 was issued under the plan of 1899 to provide for a receiver's loan, and £13,521 was issued early in 1902. Interest is paid February 1 and August 1. Under the scheme of 1907 the authorised amount of this stock was raised from £20,000 to £50,000, for improvements and developments or extensions, and in 1913 the authorised amount was further raised to £120,000, and also by £3,500 per additional mile of line.

£400,000 First mortgage debenture bonds of £100 each, being the total authorised. These bonds were issued in December, 1889, at 92 per cent. by the then firm of C. de Murrieta and Co., with interest at 5 per cent. per annum, but under the plan of reconstruction in 1899 the interest was reduced to 4 per cent. from January 1, 1900, and for the first three (in 1902 extended to eight) years from that date was payable only out of net earnings, while under the scheme of 1907 interest is non-cumulative and is payable out of net earnings until such time as the full 4 per cent. shall have been paid for four consecutive years, whereupon full mortgage rights are to be resumed. Coupons are payable January 1 and July 1, and the debentures are redeemable at par January 1, 1930, or at the company's option (now) at any time at 105 per cent. From 1900 to 1904, both inclusive, no payment was made on the debentures, but since then the following distributions have been made, in May of each year, in respect of the working of the twelve months ending on the preceding December 31:—1906, 1¼ per cent.; 1907 and 1908, 1½ each time; 1909, 1; 1910, 1½; 1911, 2; 1912, 2½; 1913, 1½; 1914, 1¾; and 1915, 1. Each of the payments was made against two coupons, the distribution made in 1914 having been against coupons 47 and 48.

£80,000 Five per cent. non-cumulative second debenture stock. Of this amount £72,000 was issued under the plan of 1899 to fund arrear interest on the first mortgage debentures, being about two-thirds of the amount of such interest, while the balance was applied against a pre-existing second charge on the property. No interest is being paid.

The accounts are made up annually to December 31, and submitted in May. Interest on the prior lien debenture stock is being paid in full, while that on the first mortgage debenture bonds is only being met in part, as stated above, and there has been no dividend on the preference shares since 1892. Carried forward, after meeting the payment of 1 per cent. on the first mortgage debentures for 1914, £797. In 1906 the gross earnings were £25,494, and there was a surplus of £7,065; in 1907 the gross earnings and surplus were £23,914 and £5,358 respectively; in 1908, £24,300 and £4,589; in 1909, £25,817 and £6,170; in 1910, £30,749 and £8,888; in 1911, £31,690 and £9,242; in 1912, £26,386 and £5,959; in 1913, £28,495 and £7,346; and in 1914, £24,971 and £7,401. In 1915, to November 6, the gross earnings were 535,200 pesetas, as against 561,750 pesetas from January 1 to November 7, 1914.

Voting power, one vote for each £100 of capital of any class. The directors, as above, have been nominated by the first mortgage debenture holders, who continue to appoint the board until first mortgage interest is met in full; no share qualification is necessary for the directors, who can only be removed by a resolution of three-fourths in value of the first mortgage debenture holders. Transfer form, common; fee for registration of transfer or probate, 2s. 6d.; debenture stock is transferable in multiples of £1. Telegraphic address, Cercyra, London. Telephone number, 1088 London Wall. The first mortgage debentures are quoted in the official list.

Marie, Ontario, Canada. *Secretary's Office:* Toronto.—The company was incorporated in 1899 under the laws of the Dominion of Canada, with a view of constructing a railway of a total length of 336 miles, running due west from Sault Ste. Marie, Ontario, and intersecting the main lines of the Canadian Pacific, the Canadian Northern and the National Transcontinental Railways. In respect of 340 miles, the company was to receive from the Dominion of Canada a cash subsidy of $6,400 per mile, and in respect of 115 miles a cash subsidy from the Province of Ontario of $2,000 per mile, making a total cash subsidy of $2,256,400. The company has also a land grant from the Province of Ontario of 7,400 acres per mile in respect of 225 miles, and of 5,000 acres per mile in respect of not exceeding 115 miles, making a total land grant of 2,140,400 acres, the land grants carrying mineral and timber rights. Further, the company owns terminals and deep water docks at Sault Ste. Marie, the harbour at Michipicoten, &c.; and a freight steamship line on the Great Lakes. The line has been completed.

The authorised capital is $10,000,000 in shares of $100, $5,000,000 being 5 per cent. non-cumulative preference, and $5,000,000 common, all of which has been issued and paid up, and the bonded debt of the company is limited to $40,000 per mile of railway. In July, 1910, the Bank of Montreal, 47, Threadneedle Street, E.C., was authorised by the contractors for the issue to receive applications at 90 per cent. for £770,000 5 per cent. first mortgage fifty-year gold bonds, of £100 and £500 each, and £838,800 was issued privately at various times in 1911, while the total placed is $10,080,000; the bonds form part of a total authorised of $20,000,000, but limited to $30,000 per mile. Principal and interest of the bonds are unconditionally guaranteed by the Lake Superior Corporation; coupons are payable June 1 and December 1 (December, 1914, and since not paid), and the bonds are redeemable at 105 per cent. and accrued interest in the event of the company going into voluntary liquidation, while the net proceeds of sales of land are to be applied to the purchase of bonds at or below 105 per cent. and accrued interest, or to drawings at the same rate, on giving six months' notice. Moreover, the company is entitled to redeem the whole of the bonds at 105 per cent. on any interest date on giving six months' notice, and all bonds outstanding are to be repaid in 1960. The bonds are secured by a specific mortgage on the lines of railway, lands of the company, and a general charge on

the rest of the undertaking. Payments have been made by the Bank of Montreal in London, or at the Bank of Montreal in Montreal or New York, at the fixed exchange of $4.86\frac{2}{3}$ to the £. The bonds are to bearer, but may be registered as to principal only at the office of the United States Mortgage and Trust Company of New York, and the Bank of Montreal in London will receive bonds for transmission to New York for this purpose, on payment of the prescribed fees, and registered bonds may be reconverted to bearer.

The accounts are made up annually to June 30. The net earnings for the year to June 30, 1909, amounted to $133,508; for 1909-10 to $170,876; for 1910-11 to $239,335; for 1911-12 to $274,953; for 1912-13 to $361,103; and for 1913-14 to $274,800, and after applying $390,784 in payment of the amount of bond and car trust interest chargeable to revenue, providing $130,992 for the rental of terminal properties, setting aside $73,417 for the sinking fund under the terms of mortgage in respect of revenue from land grant lands, and on the other hand appropriating $94,951 of revenue from timber lands applicable to the period prior to June 30, 1913, a credit balance of $191,567 brought down was converted into a debit of $34,850. Reserve funds, $14,572. Bond interest due December 1, 1914, and since has not been paid, and in February, 1915, a committee was appointed to protect the interests of the bondholders, this committee being composed as follows, with offices at 2, Bond Court, Walbrook, E.C. :—Messrs. F. L. Govett (Chairman), J. C. Dalton, H. G. Chater-Fawsitt, J. C. Russell, Beckwith Smith, A. N. Rickett and J. H. Dunn. In August, 1915, the committee requested the bondholders to deposit their bonds with the Bank of Montreal, 47, Threadneedle Street, E.C., which issues a receipt for the bonds so deposited. The company is now in the hands of receivers—Mr. T. J. Kennedy, of Sault Ste. Marie, and Mr. Vivian Harcourt, of Messrs. Deloitte, Plender and Co., Montreal. Algoma Central Terminals, Limited. — *Directors:* J. F. Taylor (President), A. Coppell (Vice-President), W. C. Franz (Vice-President), W. K. Whigham (Vice-President, London, Eng.), T. Gibson, D. C. Newton and W. E. Stavert. *Office:* Sault Ste. Marie, Ontario, Canada. *Secretary's Office:* Toronto.—The company was established under the laws of the Dominion of Canada in October, 1912, to own terminal dock properties at Sault Ste. Marie and Michipicoten, and through its holding of all the issued stock of another company controls docks and terminal facilities at Little Current, while additional docks and terminal facilities have been constructed at all three places. The properties at Sault Ste. Marie and Michipicoten have been leased to the Algoma Central and Hudson Bay Railway Company for 999 years, the railway company agreeing to pay as rental all expenses of maintenance and operation, together with the interest on the bonds mentioned below, and a sinking fund sufficient to redeem them at maturity. Moreover, the bonds mentioned below are unconditionally guaranteed by the Lake Superior Corporation, both as to principal and interest, by endorsement on the bonds. The share capital is $100,000 in shares of $100, all of which, with the exception of directors' qualification shares, are held by the Algoma Central and Hudson Bay Railway Company. In November, 1912, the Canadian Agency, Limited (now in liquidation), invited applications for the purchase at 95 per cent. of £500,000 5 per cent. first mortgage fifty-year gold bonds, of $100 and $500 each, and in March, 1913, the same company invited applications for the purchase of £527,300 of similar bonds at 96 per cent.; coupons are payable February 1 and August 1 (February and August, 1915, not paid), and the principal is to be repaid in 1962; a sinking fund of 1 per cent. per annum is to be provided from July 1, 1919, and to be applied in the purchase of bonds at or below 105 per cent., and accrued interest, or to drawings at the same rate on any interest date, on six weeks' notice, and, further, the company reserves the right to redeem the whole of the bonds at 105 per cent. on any interest date, on three months' notice. Bonds in excess of $5,000,000 may only be issued in respect of the cost of additional assets acquired, or work done or contracted for by or on behalf of the company on properties then forming part of the security for the bonds. All payments are made by the Bank of Montreal, 47, Threadneedle Street, London, E.C., or in Montreal at the fixed exchange of $4.86\frac{2}{3}$ to the £. The bonds form part of a total authorised issue limited in the first instance to $5,000,000, secured by a trust deed constituting the bonds a specific first mortgage upon the property of the company, and upon the bonds and shares held in the Algoma Eastern Terminals, Limited, except the amount of shares necessary to provide director's qualification. The bonds are to bearer, but may be registered as to principal only at the office of the United States Mortgage and Trust Company in New York, on payment of the prescribed fees, and registered bonds may be re-exchanged to bearer. The proceeds of the above two sales of bonds were to be applied to the purchase of properties, the construction and completion of terminal facilities at Sault Ste. Marie, and Michipicoten, and the construction of coal docks at these points. The net earnings of the terminals for 1911 were £21,983, for 1912 £23,511, and for 1913 £30,799 (later figures have not transpired).

In June, 1914, the failure took place of the Canadian Agency, Limited, by whom £527,300 of the bonds of the Algoma-Central Terminals Company were sold to the public in March, 1913; bonds for only £400,000, however, had been then taken by the Canadian Agency from the Terminals Company, leaving £127,300 of bonds still due to and to be paid for by the Canadian Agency, which on the other hand had received from the public the full purchase consideration for the £527,300 of bonds, and as the Canadian Agency, being in liquidation, was not in a position to pay for the balance of the bonds a committee of scrip-holders was formed with the object of coming to some arrangement with the Terminals Company. Ultimately, an understanding was arrived at whereby the company agreed to halve the loss with the subscribers to the bonds; consequently, those scrip-holders who agreed to pay a further 10 per cent. received the full amount of bonds to which they were entitled, together with the interest thereon due on August 1, 1914, while, in addition, the company assigned to them its claim against the Canadian Agency. Interest due February 1, 1915, on the first mortgage bonds was not paid in consequence of the railway company being unable to pay the rent due to the Terminals Company, and a committee of bondholders was appointed, now consisting of the following gentlemen :—Messrs. T. F. Lardelli, A. Williamson, C. D. Buchanan, A. F. P. Roger, G. Marks and C. A. Creswell; the office of the committee is at 80, Dashwood House, E.C. On the application of the above-mentioned committee of bondholders, Mr. D. M. McClelland, of Messrs. Price, Waterhouse and Co., Toronto, was appointed receiver by the Canadian Courts. The first mortgage bonds are quoted in the official list; latest price, 50.

Marie, Ontario, Canada. *Secretary's Office:* Toronto.—The company was incorporated under the laws of the Dominion of Canada to construct a railway 86 miles in length, from Sudbury, Ontario, to Little Current, and the whole of the line has been completed and is in operation. The Dominion of Canada granted to the company a cash subsidy of $6,400 per mile for the total distance of 86 miles, and the province of Ontario granted a cash subsidy of $5,000 per mile, for a distance of 53 miles, and the province has also given to the company a land grant of 10,000 acres per mile for a distance of 20 miles, and a further 4,700 acres per mile for a distance of 66 miles, the total land grant being about 688,000 acres, and carrying all mineral rights. In July, 1911, the Bank of Montreal, 47, Threadneedle Street, E.C., was authorised by the contractors for the issue to receive applications for £513,600 of 5 per cent. first mortgage fifty-year gold bonds, of £100 and £500 each, at 93 per cent. The bonds are the approximate equivalent of $2,500,000, forming part of a total authorised of $3,000,000, and they are unconditionally guaranteed both as regards principal and interest by the Lake Superior Corporation. The bonds are a specific first mortgage upon the railways, lands, &c. Coupons on the bonds are payable March 1 and September 1, and the bonds are to be repaid in 1961: the company is entitled to have any moneys received in respect of its cash subsidies, or any sale of land forming part of its land grants, applied in purchase of bonds at or under 105 per cent., or in redemption by drawings at 105 per cent., on giving six months' notice, or in making good any deficiency in bond interest, until March, 1916, while the company is also entitled to redeem the whole of the bonds at par and accrued interest on any interest date, on giving six months' notice. The bonds are to bearer, but may be registered as to principal at the office of the United States Mortgage and Trust Company, at New York, and the Bank of Montreal, 47, Threadneedle Street, E.C., is prepared to receive bonds for transmission to New York for registration, on payment of the prescribed fees, and registered bonds may be reconverted to bearer. Payments have been made by the Bank of Montreal in London, Montreal, or New York, payments in the two last-mentioned cities being at the fixed rate of exchange of $4.86\frac{2}{3}$ to the £. The accounts are made up annually to June 30. Interest has been met to date. For the year 1910-11 the net earnings were $26,382; for 1911-12, $37,062; for 1912-13, $49,768; for 1913-14, $73,117; and for 1914-15, $98,010, while after meeting bond and car trust interest chargeable to revenue, and interest on advances from the Lake Superior Corporation, &c., there was a deficiency of $97,431, converting a credit balance brought down into a debit of $64,034. Reserve fund, $25,556. The first mortgage bonds are quoted in the official list; latest price, 75.

Allegheny Valley Railway Company.—In April, 1910, this company was merged into the Pennsylvania Railroad Company, and for particulars of Allegheny bonds see notice of Pennsylvania Railroad Company.

Antofagasta (Chili) and Bolivia Railway Company, Limited.—*Directors:* Hon. C. N. Lawrence (Chairman), Hon. C. A. Campbell, B. E. Greenwell, Sir R. Harvey, A. H. A. Knox-Little and Col. H. Le R. Lewis, C.B., D.S.O. *Secretary:* A. W. Bolden. *Office:* 1, Broad Street Place, E.C.—The company was registered November 27, 1888, and acquired from the Compañia Huanchaca de Bolivia the concessions granted by the governments of Chili and Bolivia for the construction and working of railways and telegraphs from the port of Antofagasta in Chili to Oruro in Bolivia, a distance of about 924 kilometres (574 miles), including the privilege granted by the government of Chili of establishing waterworks for the supply of the railway and the district it serves, including the town of Antofagasta. The Chilian government guaranteed under the concession 6 per cent. interest upon a capital of $3,472,000, to be employed in the construction of a portion of the line (440 kilometres, or 275 miles in length) in its territory, at 3s. 2d. per dollar (equivalent to £32,984 per annum), for twenty years from 1887. The Bolivian government gave a guarantee of 6 per cent. upon £750,000 in respect of lines in its territory; the guarantee was for a period of twenty years from the completion of the line (June 1, 1892), and was payable out of the national revenues in excess of those of 1889. The works belong to the company in perpetuity, there being no option of government purchase. The company subsequently obtained concessions from the Chilian government for branches of the main line, the concessions carrying no guarantee, while the lines are to belong to the company in perpetuity.

The Bolivia Railway Company was formed in February, 1907, in the United States, to carry out a concession granted by the Bolivian government for the construction of railways of a total length of 780 miles, funds to meet the cost of these lines to be provided by the issue of 5 per cent. first mortgage bonds for £3,750,000, interest on which is guaranteed by the Bolivian government for twenty years from January 1, 1907; and by the issue of 5 per cent. second mortgage income bonds for £2,500,000 to be taken at par by the Bolivian government, and in respect of which the government has placed on deposit with bankers the sum required. The Antofagasta Company has acquired a controlling interest in the Bolivia Railway Company, has undertaken the construction of the lines, and has taken a lease of the undertaking for a period of 99 years from January 1, 1909, while the Antofagasta Company has undertaken to purchase one-half of the first mortgage bonds, as and when issued, and bankers in New York are to purchase the other half. To partly provide the funds for this operation the £600,000 of 5 per cent. (Bolivia) debenture stock, referred to below, was issued.

In 1900 it was decided to give holders of ordinary stock the option of dividing into preferred ordinary and deferred ordinary at the rate of £50 of each for every £100 of ordinary stock, and to the end of 1905 about £430,000 of ordinary had been so divided. In 1906 power was obtained from Parliament to carry out a compulsory division of the old ordinary stock into preferred ordinary and deferred ordinary, to convert the preferred ordinary into 5 per cent. cumulative preference, and to convert each £100 of deferred ordinary into £150 of new preferred ordinary and £150 of new deferred ordinary. The authorised capital is now £6,000,000, and the capital issued is as under:—

£2,000,000 Deferred ordinary stock, ranking after the preferred ordinary for dividends of 10 per cent. per annum, and equally with the preferred ordinary in surplus profits. The authorised amount of this stock is £2,000,000.

£2,000,000 Preferred ordinary stock, ranking before the foregoing for 5 per cent. non-cumulative dividends, and equally with the deferred ordinary in surplus profits beyond 10 per cent. on the deferred. The stock has a priority over the deferred as regards capital, and after repayment of the deferred is to rank equally with the deferred on surplus assets. The authorised amount of this stock is £2,000,000.

£2,000,000 Five per cent. cumulative preference stock, the total authorised. Of this amount £650,000 was offered for sale in April, 1908 (by Messrs. J. Henry Schröder and Co., 145, Leadenhall Street, E.C., who had previously purchased the stock from the company), to the existing proprietors at 95 per cent. The stock has a priority as regards capital over both the foregoing.

£1,000,000 Four per cent. perpetual debenture stock. The greater part of this stock was issued in June, 1890, and December, 1891, in exchange for the pre-existing railway bonds, while the cash subscription price in June, 1890, was 99 per cent., and in December, 1891, 93; in December, 1900, £150,000 was placed at 97½ per cent. The conversion and issue in 1890-1 were effected by Messrs. Frederick Huth and Co., 12, Tokenhouse Yard, E.C., and Messrs. J. Henry Schröder and Co., 145, Leadenhall Street, E.C. Interest on the debenture stock is payable January 1 and July 1. The stock is limited to £1,000,000, and it is secured by a first charge on the entire system of railways.

£1,000,000 Four-and-a-half per cent. debenture stock, being the total authorised, ranking next after the foregoing. The stock was issued through Messrs. J. Henry Schröder and Co., 145, Leadenhall Street, E.C.—half in June, 1904, at 98 per cent., and half in May, 1906, at 105 per cent.—has interest payable May 1 and November 1, and the stock is repayable at 105 per cent. on January 1, 1940, the company, however, having reserved power of redemption before that date by purchase in the open market or by public tender, and in the event of liquidation for reconstruction or amalgamation the stock is not to be repaid at less than 105 per cent.

£1,500,000 Five per cent. debenture stock, of which £1,000,000 was offered for sale in May, 1907, by Messrs. J. Henry Schröder and Co., 145, Leadenhall Street, E.C., at 103 per cent., that firm having previously acquired the whole issue, and the balance was disposed of in 1908. Interest is payable May 1 and November 1, and the stock is repayable at 110 per cent. on January 1, 1940, but the company has reserved power to redeem before that date by purchase in the open market or by public tender, and in the event of the liquidation of the company for reconstruction or amalgamation the stock is not to be repaid at less than 110 per cent. The amount of the stock can only be increased from £1,500,000 with the consent of the trustees, and in no case can the amount be increased by a sum in excess of £2,000 per mile of additional line to be acquired or constructed by the company. The stock ranks after the foregoing 4 and 4½ per cent. debenture stocks.

£600,000 Five per cent. (Bolivia) debenture stock, acquired by Messrs. J. Henry Schröder and Co., 145, Leadenhall Street, E.C., and offered for sale by that firm in July, 1910, at 102½ per cent. The stock forms part of a total authorised of £2,500,000. Interest is payable May 1 and November 1, and the stock is repayable at 110 per cent. on July 1, 1960, the company, however, having reserved the right to repay the whole of the stock on any interest date on or after January 1, 1927, on six months' notice, and in the event of liquidation for reconstruction or amalgamation the stock will not be repayable at less than 110 per cent. The stock is secured by a specific first charge upon £1,875,000 5 per cent. first mortgage bonds of the Bolivia Railway Company (already delivered to the Antofagasta Company); on these bonds of the Bolivia Railway Company interest is guaranteed by the Bolivian government up to December 31, 1926, when the bonds fall due for repayment. The debenture stock is also secured by a floating charge on the entire undertaking of the Antofagasta Company, subject to the authorised issues of debenture stocks.

£600,000 Six per cent. two-year notes of £50, £100, £500 and £1,000 each, offered in November, 1914, at 99 per cent.; interest is payable June 1 and December 1, and the principal is repayable on December 1, 1916. The notes are secured by the deposit with the trustees of £750,000 of 5 per cent. (Bolivia) debenture stock of the company.

The line now in operation is 819 miles in length, in addition to which 354 miles of the Bolivia Railway are being worked. The accounts are made up annually to December 31, and submitted in June. The Huanchaca Company operated the entire undertaking until December 31, 1903, and guaranteed interest on the debenture stock until the expiration of the working agreement, and quarterly dividends at the rate of 6 per cent. per annum on the capital stock. The Antofagasta Company took over the working of the undertaking at the end of 1903, and for 1904 and 1905 dividends amounting to 10 per cent. were paid on the old undivided ordinary stock, giving the old deferred stock 15 per cent. for each year. For 1906 the deferred stock received 7½ per cent.; for 1907, 5; for 1908, 1909 and 1910, 7½ each time; for 1911, 8; for 1912, 8½; for 1913, 11, including a bonus of 3 per cent., while the preferred ordinary also received a bonus of 1 per cent.; and for 1914, 8. On account of 1915 2½ per cent. was paid on the deferred stock on December 1. The dividends on the preference and preferred ordinary stocks are paid half-yearly at the beginning of January and July. The government guarantees have not been called for. In 1915 (to November 7) the gross earnings amounted to £1,069,140, as against £1,387,545 in the same period of 1914.

The company is subject to clauses 8 and 9 of the new Argentine National Railway Law (No. 5,315) passed on September 30, 1907 (commonly called the Mitre Law), which provide that the company shall be free from duties on imported materials and from national, provincial and municipal taxation until January 1, 1947, in consideration of the payment of 3 per cent. of the net receipts (to be used for the construction and improvement of access roads and road bridges to the stations, such net receipts being determined by deducting 60 per cent. from the gross receipts as working expenses). The government has the right to vary the tariffs when for three consecutive years the gross receipts exceed 17 per cent. on the recognised capital and the working expenses do not exceed 60 per cent.; should the working expenses exceed 60 per cent., a proportionate increase of the limit of 17 per cent. is allowed before the government can intervene.

As from July 1, 1907, the administration of the undertaking has been transferred in perpetuity to the Buenos Ayres and Pacific Railway Company, which has to pay to the Western Company a sum equal to the annual interest on the debenture stocks of the Western Company, and on any further issue of debenture stock made with the previous consent of the Pacific Company, and a sum sufficient to pay in respect of every financial year (1) on the preferred stock a dividend at the same rate as may be paid for the year on the 5 per cent. first preference stock of the Pacific Company, and a dividend on the ordinary stock of the Western Company at the same rate as may be paid for the year on the 5 per cent. second preference stock of the Pacific Company, together with (2) on both stocks a dividend equal to the dividend or bonus in excess of 5 per cent., but not exceeding 6 per cent., paid for the year on the ordinary stock of the Pacific Company; (3) a dividend of ½ per cent. per annum on both stocks in respect of every year that dividends or bonuses in excess of 7 per cent. per annum shall be paid on the ordinary stock of the Pacific Company; and (4) a dividend of ½ per cent. per annum on both stocks in respect of every year for which dividends or bonuses at the rate of 10 per cent. per annum, or in excess of that rate, shall be paid on the ordinary stock of the Pacific Company. This means that the dividends on the Western preferred capital cannot fall below 5 per cent. per annum unless the Pacific Company should have to reduce the dividend on its first preference stock, and that the dividend on the ordinary capital of the Western Company cannot fall below 5 per cent. unless the Pacific Company should have to reduce the dividend on its second preference stock, while when the Pacific Company pays 5½ per cent. on its ordinary capital the preferred and ordinary capital of the Western Company will receive a similar rate; when the Pacific Company pays 6 per cent. on its ordinary capital the preferred and ordinary capital of the Western Company will receive a similar rate; when the Pacific Company pays over 7 per cent. on its ordinary capital the preferred and ordinary capital of the Western Company will receive 6½ per cent.; and when the Pacific Company pays 10 per cent. or upwards on its ordinary stock the preferred and ordinary capital of the Western Company will receive 7 per cent. The capital is now as under; to provide for further expenditure the capital has been increased by the creation of £1,000,000 in shares of £10 (not yet issued):—

£1,700,000 First debenture stock (the total authorised), carrying 4 per cent. interest, payable January 1 and July 1, and the principal is irredeemable; the stock ranks as a first charge on the undertaking.

£1,700,000 Second debenture stock, irredeemable, carrying 4 per cent. interest, payable January 1 and July 1. The above amount is the total authorised.

£3,600,000 Five per cent. debenture stock, ranking next after the foregoing. The stock was issued—£600,000 in February, 1907, at 102 per cent., £1,000,000 in January, 1909, at 108 per cent., £1,000,000 in September, 1909, at 108 per cent., and £1,000,000 in June, 1910, at 108½ per cent. The stock is secured by a trust deed, reserving to the company the right to create and issue further debenture stock at the rate of £4,000 per mile of additional line acquired by the company, or of new line for the time being constructed in excess of the mileage belonging to the company in operation on February 6, 1907. Interest is payable April 1 and October 1, and the stock or any part of it is redeemable at any time, at the company's option, after June 30, 1930, at 110 per cent. on six months' notice.

£2,125,000 Preferred stock. This stock ranks before the ordinary for 5 per cent. cumulative dividends, and equally with the ordinary on all divisible revenue beyond that rate on both classes.

£2,125,000 Ordinary stock.

The accounts are made up annually to June 30, and submitted in November, an interim dividend (in 1915 of 2½ per cent. on the preferred stock) being paid in May. For each of the eight years to 1906-7 6 per cent. was paid on both ordinary and preference capital; as from July 1, 1907, the property has been leased to the Buenos Ayres and Pacific Company as stated above, and for 1907-8 6 per cent. was paid on both preferred and ordinary stocks; for each of the six years to 1913-14, 5; and for 1914-15, 5 per cent. was paid on the preferred and £2 16s. 6d. per cent. on the ordinary. General reserve fund (subject to the settlement of outstanding claims), £35,969, and insurance fund, £29,361, both represented by investments. Voting power, one vote for every £20 of ordinary or preferred stock or shares. Director's qualification, £500, either preferred or ordinary. Transfer form, common; fee, 2s. 6d. per deed; stock of all kinds is transferable in amounts of £1 and multiples; the various stocks cannot be transferred on the same deed. Fee for registration of probate, 2s. 6d. Telegraphic address, Azodnem, London. Telephone number, 1000 London Wall. The company is quoted in the official list. Latest prices—first debenture stock, 75⅜; second debenture stock, 68½; 5 per cent. debenture stock, 84; preferred, 79¼; ordinary stock, 65⅜.

Argentine North Eastern Railway Company, Limited.—*Directors:* V. W. Yorke (Chairman), B. H. Binder, Comte Cahen d'Anvers (Paris), F. L. Gibbs, A. H. A. Knox-Little, R. Lyell (Managing Director), and A. Naylor-Smith. *Secretary:* J. Williamson. *Office:* 56, Palmerston House, E.C.—The company was registered October 31, 1887, to acquire a concession granted by the Argentine government, under which a monetary guarantee was given, but in 1895-6 this guarantee was commuted. In 1905 the company took over the East Argentine Railway Company, which in 1897-8 had effected a settlement with the government in respect of its then guarantee. The amalgamation of the two companies was approved in advance by the Argentine government (under Law 5,000), and the original concessions have been to some extent modified, the amalgamated company being guaranteed freedom from customs dues and other taxation for thirty years from October, 1906, while the refunding of sums paid to both companies in respect of guarantees is to commence upon the gross receipts of the combined concern exceeding 16 per cent. of the agreed capital (about £7,000,000). The lines owned are 752 miles in length. The properties are to be held by the company in perpetuity, and there is now no monetary guarantee; at June 30, 1914, the company held government bonds valued at £58,157, mainly received from the government as a subsidy in respect of extensions. The company, as regards the section of its line from Concordia to Uruguay, 85 miles in length, and opened definitively for traffic on January 5, 1915, is subject to clauses 8 and 9 of the Argentine National Railway Law (No. 5,315) passed on September 30, 1907 (commonly called the Mitre Law), which provide that the company shall be free from duties on imported materials, and from national, provincial and municipal taxation until January 1, 1947, in consideration of the payment of 3 per cent. of the net receipts (to be used for the construction and improvement of access roads and road bridges to the stations, such net receipts being determined by deducting 60 per cent. from the gross receipts as working expenses). The government has the right to vary the tariffs when for three consecutive years the gross receipts exceed 17 per cent. on the recognised capital and the working expenses do not exceed 60 per cent.; should the working expenses exceed 60 per cent. a proportionate increase of the limit of 17 per cent. is allowed before the government can intervene. The capital is now as under:—

£2,768,500 Stock, part of a total authorised of £2,800,000.

£1,200,000 Five per cent. A debentures and debenture stock. Interest is payable January 1 and July 1, and the stock cannot be redeemed until both the A and B debenture issues shall have received the full 5 per cent. interest for five consecutive years, and then only after six months' notice and at 110 per cent. The A debenture stock is limited to £1,200,000, and it is a first charge on the revenue and assets of the company, while interest is accumulative. Debentures and debenture stock may be exchanged, the one for the other, the charges being—for exchange from stock to debentures, the stamp duty and fee of 2s. 6d. per debenture, and for exchange from debentures to stock, 1s. per certificate.

£992,228 Five per cent. B debentures and debenture stock. The B debenture capital was limited to the above amount of £992,228, increased in 1915 to £1,157,292; it ranks immediately after the A debenture capital; the interest was formerly non-cumulative, but by resolutions passed late in 1911 it is now cumulative, and is payable half-yearly on January 1 and July 1, while the principal is irredeemable until both the A and B debenture issues shall have received the full 5 per cent. per annum for five consecutive years, and then it is only to be redeemed after six months' notice upon

payment of 110 per cent. Debentures and debenture stock may be exchanged, the one for the other, the charges being—for exchange from stock to debentures, the stamp duty and fee of 2s. 6d. per debenture; and for exchange from debentures to stock, 1s. per certificate.

Interest was duly met to January 1, 1915, but in July, 1915, holders agreed to accept payment of interest due July 1, 1915, and January 1 and July 1, 1916 and 1917, if deemed necessary by the board, wholly or partly in funding scrip at par, bearing interest at 5 per cent., and the interest due July 1, 1915, was wholly paid in scrip.

£1,023,750 Five per cent. C debentures and debenture stock, issued in December, 1911, at 85 per cent. The C debenture capital is limited to £2,000,000, ranks as a third charge on the undertaking, subject to the A and B debenture issues (by the rearrangement of 1915 the interest on the C debenture capital is postponed to the payment of interest on and the redemption of the funding scrip); interest is payable not later than November in each year in respect of the year ending on the previous June 30 only out of the profits of the company until a dividend shall have been declared upon any of the shares or stock of the company, and thereafter by half-yearly payments on January 1 and July 1 in each year, and the C debenture capital is redeemable at (now) any time by the company, on six months' previous notice, at 110 per cent., while it is repayable at par in the event of liquidation or enforcement of the security (a further £800,000 of C debenture stock is held as collateral for the undermentioned loan for £320,000).

Interest on the C debenture capital was paid in full for 1911-12 and 1912-13, but for 1913-14 the balance available (2⅜ per cent.) was satisfied in C debenture stock in accordance with the resolutions passed by the C holders in July, 1915.

£320,000 Loan secured by the deposit of £800,000 of C debenture stock. This loan fell due June 1, 1915, but the lenders agreed to extend it until September 1, 1917, and to accept payment of interest due June 1, 1915, and during the subsequent currency of the loan, if deemed necessary by the board, at the rate of 4 per cent. per annum, wholly or partly in funding scrip bearing interest at 5 per cent.

£29,072 Funding scrip, £24,806, of which was issued in satisfaction of interest due July 1, 1915, on the B debenture capital, and £4,266 in satisfaction of interest to July 1, 1915, on the above-mentioned loan, while interest on the B debenture capital and on the loan falling due in the future may also be paid in this funding scrip, at the option of the board, as stated above. The funding scrip carries 5 per cent. interest, and the net earnings of the company each year, after provision of such sum as the directors think fit for renewals and depreciation, are to be devoted, after payment of interest on the A and B debenture capital so far as such net earnings shall suffice—(1) to the payment of interest on the funding scrip given to holders of B debenture capital; (2) to the payment of interest on the funding scrip given to the lenders; (3) to the redemption of the funding scrip given to the holders of B debenture capital; and (4) to the redemption of the funding scrip given to the lenders, while all funding scrip unredeemed on September 1, 1917, together with all interest thereon not previously paid in cash, is to be satisfied by the issue of new debenture stock at par.

The accounts are now made up annually to June 30, and submitted about November. Interest on the A debenture stock has been regularly paid, and for the year to June 30, 1908, the B debenture stock received 2½ per cent.; for 1908-9, 3¾; and since then the full rate of 5 per cent.; while in respect of 1911-12 and 1912-13 the C debenture capital received its full rate of 5 per cent. The accounts for the year ended June 30, 1914, showed a credit balance, after transferring £33,146 from subvention account, and providing for interest on the A and B debenture issues, of £23,809, divisible in respect of interest for the year on the C debentures and debenture stock, and admitting of a payment of 2⅜ per cent. on these securities, and by arrangement this was distributed in September, 1915, in C debenture stock. In 1915 a scheme was brought forward and has been put into operation for the funding of interest on the B debenture capital and the loan as detailed above. There has so far been no distribution on the ordinary stock. Renewal fund, £45,276. The gross earnings for the year to June 30, 1915, were £250,752, as against £338,139 for the preceding twelve months, and for the period from July 1 to November 6, 1915, £126,107, as against £86,520 from July 1 to November 6, 1914. Voting power, one vote for every £20 of ordinary stock, and one vote for every £100 of either class of debenture stock. Director's qualification, £500 of ordinary stock. Transfer form, common; fee, 2s. 6d. on ordinary and C debenture stocks, and 1s. on A and B debenture stocks; the ordinary and A, B and C debenture stocks are transferable in any sums, and the C debenture stock in multiples of £1; a separate deed is required for each account and for each class of stock. Fee for registration of probate, 1s. Telegraphic address, Misiones, Ave, London. Telephone number, 6332 Central. The company is quoted in the official list. Latest prices—ordinary stock, 20; A debenture stock, 80; B debenture stock, 80.

Argentine Railway Company.—*Directors:* M. Bauwens (Brussels), R. Beaugey (France), B. H. Binder (London), P. Briere (Paris), A. H. A. Knox-Little (London), F. F. Lawton (London), Col. E. le Roy Lewis, M. A. Rodriguez (Buenos Ayres) and A. Naylor-Smith (London). *London Office:* 9, Throgmorton Avenue, E.C. *Registered Office:* Portland, Maine, U.S.—The company was incorporated July 12, 1912, under the laws of the State of Maine, U.S., and has a considerable amount invested in the securities of certain Argentine railway companies. Formerly also it had agreements under which it worked the systems of the Cordoba Central Railway Company, Limited, and the Entre Rios Railways Company, Limited, but late in 1914 these agreements were cancelled on terms. The authorised capital is $45,000,000 in shares of $100, $15,000,000 being in 6 per cent. preferred, and $30,000,000 in common, and the whole amount has been issued and paid up. In January, 1913, there were issued, at 98 per cent., £1,500,000 of 6 per cent. two-year secured notes of £100, £500 and £1,000 each, secured by the deposit with trustees of certain securities, which, at December 31, 1912, were valued at £2,377,802, while by July 27, 1914, at the last settlement before

the Stock Exchange was closed just prior to the war, the market value of the securities had dropped to £1,388,277. Early in 1915 it became apparent that some re-arrangement had become necessary in view of the fact that the before-mentioned notes were to become repayable on February 1, 1915, and a committee of note holders was appointed, now consisting of Messrs. S. C. Boulter (Chairman), G. Collis, R. Fleming, M. W. Mattinson, K.C., and F. C. Tiarks, while Mr. R. C. Whitcroft acts as secretary to the committee, and the Law Debenture Corporation, Limited, 41, Threadneedle Street, E.C., was appointed depository agent. A fresh arrangement was put forward, received the assent of holders of about £1,300,000 of the notes, is binding on all the holders, and has been carried into effect. Under this scheme the securities given to the notes have been considerably increased, now consisting chiefly of £108,423 first preference stock, £239,237 second preference stock, and £1,166,812 ordinary stock of the Entre Rios Railways Company, Limited; £513,400 ordinary stock of the Argentine North Eastern Railway Company, Limited; 33,294 shares of 500 francs each of the Compagnie Française des Chemins de Fer de la Province de Santa Fé; 56,000 shares of £1 each in the Argentine Northern Land Company; and £60,000 advance to the Argentine North Eastern Railway Company, Limited (secured on £150,000 of C debentures). Against some of the securities included in the trust deed (other than those mentioned above) there are liabilities of about £265,000, and the shareholders are to be asked to provide additional monies for the purposes of the company. In order to allow time for the further consideration of the affairs of the company, and for the preparation of such a scheme, the noteholders agreed to postpone the due date of the repayment of their notes for six months from February 1, 1915, to August 1, 1915, with the proviso (which has been put into effect) that, should it seem desirable to the committee, the latter shall have power to agree to an extension not exceeding a further six months, while the coupons due February 1 and August 1, 1915, are in arrear.

The accounts are made up annually to June 30, and submitted on the second Tuesday in February. The shares all being privately held, reports are not published, but this notice has been officially revised. Voting power, one vote for each share. The shares are transferable by endorsement on the back of the certificate; fee, 2d. per share, with a minimum of 2s. 6d.; bearer warrants can be obtained in exchange for registered shares at a cost of 1s. 2d. per warrant of one share (including 2d. transmission fee), and bearer warrants can be exchanged for registered certificates on payment of an application fee of 2s. 6d., and 2d. per share, with a minimum of 1s. Argentine Transandine Railway Company, Limited.—*Directors:* Hon. A. Stanley, M.P. (Chairman), E. N. Casares (ex officio, appointed by the Argentine government), T. E. Preston and V. H. Smith. *Secretary:* A. Rimmer. *Office:* Dashwood House, E.C.—The company was registered September 13, 1886, as the Buenos Ayres and Valparaiso Transandine Railway Company, Limited (the name being changed as above late in 1904), to carry out a concession granted by the Argentine government, under which a guarantee was given for a period of twenty years (dating from the opening of each section) of interest at 7 per cent. per annum on a capital of £1,191,000. The company is subject to clauses 8 and 9 of the new Argentine National Railway Law (No. 5,315) passed on September 30, 1907 (commonly called the Mitre Law), which provide that the company shall be free from duties on imported materials and from national, provincial and municipal taxation until January 1, 1947, in consideration of the payment of 3 per cent. of the net receipts (to be used for the construction and improvement of access roads and road bridges to the stations, such net receipts being determined by deducting 60 per cent. from the gross receipts as working expenses). The government has the right to vary the tariffs when for three consecutive years the gross receipts exceed 17 per cent. on the recognised capital, and the working expenses do not exceed 60 per cent.; should the working expenses exceed 60 per cent. a proportionate increase of the limit of 17 per cent. is allowed before the government can intervene.

In 1897 a scheme of reconstruction for the then existing £346,000 7 per cent. debenture stock was formulated, and in connection with the carrying through of this plan the company temporarily went into liquidation. Under the plan of reorganisation the old 7 per cent. debenture stock, with accrued interest, and with an added amount to maintain the rate of interest, was converted in equal amounts into A and B debenture stock, and power was taken to raise funds by a prior charge for an aggregate not exceeding £500,000, at not more than 4 per cent. interest; in June, 1901, however, it was announced that the directors had decided not to make a prior lien issue, but to rely upon the sale of rescission bonds for the provision of the funds necessary for the completion of the line. In 1906 the interest on the B debenture stock was reduced from 6 to 4 per cent., as stated below.

After prolonged negotiations an agreement was come to in 1899 for the commutation of the above-mentioned guarantee, past and future, and the company received Argentine government 4 per cent. railway guarantees rescission bonds to the amount of £1,269,800, and gave the government £225,000 in deferred shares fully paid, while the government has the right to appoint a director so long as it holds these deferred shares. In 1901 a scheme of arrangement was formulated for dealing with the bonds received from the Argentine government. Of the total of £1,269,800, £386,400 was deemed to represent arrears of the government guarantee up to June 30, 1899, and £883,400 to represent the composition made by the government for the guarantee as from June 30, 1899. The £386,400 of bonds was to be applied in providing the full interest of 6 per cent. per annum on the B debenture stock for a period of six-and-a-half years from January 1, 1900 (that is, up to June 30, 1906), and a dividend at the rate of 5 per cent. per annum on the preferred shares for a similar period, such dividend to be accepted by the holders of the shares in full discharge of all claims up to the expiration of the period of six-and-a-half years. It was expressly provided, however, that the payment of interest out of the arrears fund, under the scheme, to the holders of the B debenture stock should not be deemed such a payment as to render the interest on the B stock cumulative. Of the remaining £883,400 of bonds, £500,000 was to be set apart and specifically charged for the benefit of the 4 per cent. prior lien issue then in contemplation (see below); and £310,250 was similarly set aside for the benefit of the A debenture stockholders (see below), the balance to be applicable to the general purposes of the company.

Under the scheme of arrangement of 1901, referred to above, it was calculated that at the end of June, 1906, the £386,400 of Argentine rescission bonds set aside towards meeting the interest on the

debenture stock and the dividend on the preferred shares, as stated, would have been exhausted all but about £12,000, but owing to the rise that took place in the market price of the bonds the surplus was about £90,000. It was arranged in May, 1906, to pay the holders of B debenture stock 4 per cent. per annum until June 30, 1911 (which was done), conditional on the holders agreeing to thereafter reduce the rate of interest on the stock from 6 to 4 per cent., and it was also provided that payments during the period mentioned should not be considered as rendering the B debenture stock interest cumulative.

In October, 1903, an arrangement was come to with the Argentine Great Western Railway Company for working the line, which arrangement was modified by a new agreement in January, 1905, and at the same time an agreement was entered into by which the Buenos Ayres and Pacific and Argentine Great Western Railway Companies jointly and severally guarantee the principal and interest of the A debenture stock. The object of this new agreement was to release £310,250 (except as regards £110,000 set aside as security for the guarantee of A debenture interest) of rescission bonds hypothecated as special security for the A debenture stock, in order to provide funds for the completion of the line. Under an agreement entered into in 1907 with the Argentine Great Western Railway Company and the Buenos Ayres and Pacific Railway Company, the working of the Argentine Transandine Railway Company was transferred to the latter company as agents of the former.

The capital is now (June 30, 1915) as under:—

£310,166 Four per cent. A debenture stock, with interest payable January 1 and July 1, and redeemable at par on three months' notice on any interest date. The amount authorised is £310,250. This stock is now guaranteed both as to principal and interest, severally and jointly, by the Buenos Ayres and Pacific and Argentine Great Western companies.

£420,166 Four (formerly 6) per cent. B debenture stock, including £83,000 issued in 1914 and £27,000 in 1915 to the Buenos Ayres and Pacific Railway Company, Limited, under an agreement; interest is payable January 1 and July 1, and the principal is repayable at par on three months' notice on any interest date. Up to June 30, 1914, the B debenture stock was non-cumulative. The amount authorised is £600,000. The half-year's interest, due July 1, 1914, was not paid until January 1, 1915, on which date the half-year's interest then due was also met; interest due July 1, 1915, was paid at maturity.

£500,000 Fully-paid preferred shares of £20, ranking before the deferred for 7 per cent. cumulative dividends, and taking one-half the surplus earnings after payment of 7 per cent. on the deferred shares. This is the total authorised. Dividends at the rate of 5 per cent. per annum were paid to June 30, 1906, as stated above, the 7 per cent. cumulative rights, which were suspended until the date named, being again in force as from that date. For the four years to 1909-10 no distribution was made on these shares; out of the profits of 1910-11 3 per cent. was paid in respect of 1906-7; for 1911-12 there was no distribution; out of the profits of 1912-13 3 per cent. was paid on account of 1906-7; and for 1913-14, nil.

£350,000 Fully-paid deferred shares of £20, ranking for dividends as stated in the notice of the preferred shares. This is the total authorised, and includes £225,000 issued to the Argentine government as above. These shares have as yet received no dividend.

The accounts are made up annually to June 30, and submitted about December. The line is about 111 miles in length. Through communication with the railway system on the Chilian side of the Andes was effected in April, 1910. Under the working agreement above mentioned the working company is to retain 90 per cent. of the gross receipts up to £25,999, with a gradually diminishing rate up to £199,999, when the working rate is to be 67½ per cent., while when the gross receipts amount to over £200,000 the rate of working charges is to be 65 per cent. The agreement was to continue in force in any event for a period of eight years from January, 1905, and thereafter, subject to the sanction of the Argentine government, for such further period as the above-mentioned guarantee of the A debenture stock issued by the Transandine Company shall remain in force; upon the determination of both such periods the agreement is to continue from year to year only, and may be determined by either party on twelve months' notice to expire on any June 30. The agreement has been renewed for a period expiring in 1921. In respect of the year ended June 30, 1906, the Argentine Transandine Company received £3,723 under the arrangement for the working of the line; in respect of 1906-7, £6,897; for 1907-8, £12,107; for 1908-9, £19,372; for 1909-10, £23,607; for 1910-11, £42,873; for 1911-12, £41,280; for 1912-13, £32,012; and for 1913-14, £28,062. The contractors guaranteed debenture interest and the preferred dividend during construction, but no distribution was made on the preferred shares subsequent to October, 1890, until April, 1901, when under the scheme of arrangement, referred to above, 5 per cent. was distributed on the preferred shares in respect of the year 1900, and half-yearly payments at the same rate were regularly made to June 30, 1906, the last being the final payment under that scheme. Assam Railways and Trading Company, Limited.—*Directors:* Lord Ribblesdale (Chairman), W. Butler, E. A. Jack, Sir W. R. Lawrence, Bart., G.C.I.E., and G. Turner. *Secretary:* S. M. Jack. *Office:* Blomfield House, London Wall, E.C.—The company was registered July 30, 1881, to take over certain concessions granted to Messrs. Shaw, Finlayson and Co., by the Secretary of State for India, the chief of them being one to construct a railway, the government guaranteeing for 20 years (now expired) the payment of a sum of 1.00.000 rupees per annum towards making up a dividend of 5 per cent. per annum upon the capital expended, dating from the opening of each section. The company also has coal and timber concessions for terms of years. The government reserved the option of purchasing the line at the end of five years from its opening, or at the conclusion of any subsequent five-yearly period, by paying the company 20 per cent. in excess of the value of the lines as a dividend-paying investment, the price to be ascertained, in case of difference, by arbitration; by agreement in 1902 the government has relinquished rights of purchase before 1921, retaining opportunities of purchase at intervals of ten years thereafter. In July, 1906, a concession was obtained from the Indian government for a small extension, 9 miles in length, from Talup to Saikwa Ghat, under which the government granted free land for road, stations, &c.; free timber for construction and maintenance; and an allowance towards maintenance at the rate of 600 rupees per completed mile per annum for the first ten years. The extension was finished in 1909 and forms part of the existing railway concessions.

In 1910 the capital as from January 1, 1910, underwent considerable alteration; £210,000 of new preferred A capital (now A stock) was issued in settlement of the arrears of dividend to December 31, 1909, on that security amounting to £9 per share; B stock for £218,750 was issued in exchange for the £43,750 of deferred B shares; and the rights of the A stock and pre-preference shares, in the event of liquidation from any cause whatever, were more clearly defined by the act of parliament of 1910. The capital is now as under:—

£630,000 Cumulative 8 per cent. A stock, ranking for dividend after the preference shares, and in the event of liquidation, to repayment at 120 per cent., after repaying the preference shares. The amount named is the total authorised.

£300,000 B stock (£218,750) and shares, taking all the surplus profits after payment of the dividend on the A stock, and, in the event of liquidation, all the surplus assets after repaying the preference capital and the A stock. In April, 1914, there were issued 81,250 B shares of £1, on which 80 per cent. has been paid up, while the balance is to be called up not later than the end of 1915. These shares are not to rank for dividend until fully paid, when they are to be converted into B stock, making the total amount of B stock then created and issued £300,000.

£80,000 Cumulative 8 per cent. pre-preference A shares of £10, fully paid, being the total authorised. These shares were issued late in 1886, and rank for dividend immediately after the debenture capital; they have priority as regards capital over the preference shares and A and B stocks, and, in the event of the purchase of the railway by the Indian Government, they are to be redeemed at 120 per cent. with any arrears of interest.

£150,000 Cumulative new 6 per cent. preference shares of £10, fully paid, ranking for dividend and repayment of capital (at par) next after the pre-preference A shares. The amount issued is the total authorised.

£500,000 Four-and-a-half per cent. mortgage debenture stock, of which £450,000 was issued in July, 1903, at 102 per cent., £25.000 in January, 1912, at 102 per cent., and £25,000 in January, 1913, at par. The stock is limited to £500,000, is secured by a first mortgage on the railways, collieries and concessions, has interest payable January 1 and July 1, and is repayable at par July 1, 1931, with the option to the company to pay off the stock on or at any time after January 1, 1921, on six months' previous notice, while in the event of the company going into voluntary liquidation before July 1, 1931, it is to be repaid at 105.

£100,000 Five per cent. debenture stock, ranking after the above-mentioned 4½ per cent. mortgage debenture stock. Interest is payable April 1 and October 1, and the stock is repayable at par July 1, 1931, but is redeemable at the company's option on or at any time after January 1, 1921, on six months' notice, or in the event of the company being put into voluntary liquidation before July 1, 1931, at 105 per cent. Power is reserved in the trust deed to create and issue a further sum of £400,000 5 per cent. mortgage debenture stock to rank pari passu with the £100,000 already issued.

The accounts are now made up annually to March 31, and submitted in September or October, an interim dividend on the B stock (in 1915 of 3 per cent.) being paid in March. The railway is 101 miles in length, and has been mainly in operation since 1885, and the collieries are yielding about 300,000 tons per annum. The line is 277 miles in length, and under the lease the Southern Railway Company had to pay $127,000 per annum to June 30, 1901; from then the rate was $157,000 per annum to June 30, 1904; from then the rate was $188,000 per annum to June 30, 1909, and thereafter it is $218,000; while in the event of the issue of bonds for $500,000 (referred to below) the rental is to be increased by $20,000 per annum, and whenever the Southern Railway Company shall declare a dividend on its common shares such an extra rental is to be paid to the Atlantic and Danville Company as will place the Atlantic Company's ordinary shares on a like footing to the Southern Railway ordinary shares. In 1900 4 per cent. first mortgage gold bonds, of $1,000 each, for $4,425,000 were authorised, and $3,175,000 was issued in London and New York—in London through the Manchester and Liverpool District Banking Company, Limited, 75, Cornhill, E.C.—at the price of £188 per bond, the issue being made for the purpose of extinguishing pre-existing bonds and retiring preference shares. With the increase in rental dating from July, 1901, a further $750,000 of bonds has been issued, making the total $3,925,000, and the balance of $500,000 is reserved to be issued at the request of the Southern Railway Company only for additions to the property of the Atlantic and Danville Company, or structures of a permanent character. Interest is payable January 1 and July 1, and the principal is to be repaid July 1, 1948, payments being made in New York and London—in London by the issuing bank at the current rate of exchange. The bonds are a first charge on the entire property of the company and on the rental; they are to bearer, but may be registered in New York as to principal, and registered bonds may be reconverted into bonds to bearer. On July 1, 1904, the rental payable by the Southern Company was increased by $31,000, and against the increased rental and the increase of $30,000 in 1909, as provided for by the lease to the Southern Railway, $1,525,000 second mortgage 4 per cent. gold bonds, of $1,000 each, were created by the Atlantic and Danville Company and deposited with the Trust Company of America, which has subsequently delivered them, as to $775,000 against the increased rental payable from July 1, 1904, and as to the balance of $750,000 against the further increased rental payable from July 1, 1909. Interest on the second mortgage bonds is payable January 1 and July 1, and the principal is to be repaid July 1, 1948, all payments being made in New York. The proceeds of these second mortgage bonds and certificates have been utilised for the final retirement of the $3,099,200 preference shares of the Atlantic and Danville Company (60 per cent. of which had been previously paid), and these shares have now been cancelled and deposited with the company. The company has received cash subsidies from the Dominion government of $6,400 per mile and $250,000 for bridges on completion of the line from Paspebiac to Gaspé; and the Quebec legislature has authorised a land grant of 4,000 acres per mile in respect of 100 miles of railway. The land granted by the Quebec Legislature has been sold, the price realised being £205,132; this amount has, in accordance with the trust deeds, been handed over to the trustees for the first mortgage bondholders, and duly invested by them. By acts of 1907 and 1908 the company was authorised (1) to acquire the railway known as the Baie des Chaleurs line (100 miles) of the Atlantic and Lake Superior Railway Company which runs from Paspebiac to Matapedia on the Intercolonial Railway; (2) to construct a line from Matapedia to Edmondston; (3) to enter into amalgamation and other agreements with other companies; and (4) to raise additional capital. The coast line from Paspebiac to Gaspé, 102½ miles, is completed and open for traffic.

The authorised share capital is $5,000,000 in shares of $100, of which $2,000,000 has been issued and paid up, including $1,500,000 issued credited as fully paid to the contractors. The borrowing powers are limited to $45,000 per mile of line constructed or under contract to be constructed. In July, 1906, an issue of £750,000 5 per cent. first mortgage debenture bonds to bearer, of £100 each, was offered for subscription at 95 per cent., and £126,200 was allotted, and £54,000 (part of £175,000 offered) was sold in November, 1909, at 98 per cent., while £345,300 has been issued under the construction contract, making the total of first mortgage debentures issued £525,500. The bonds are secured by trust deeds as a first charge on the line, stations, land, buildings, rolling stock and plant, have coupons payable January 1 and July 1, and the principal is to be repaid at par July 1, 1935, the company, however, having reserved the option to pay off the bonds (now) at any time on six months' notice, or any interest date, at 110 per cent. The company has entered into an agreement (1) to restrict the total issue of first mortgage debenture bonds to £525,700, and (2) to provide for future payments in excess of that amount under the contract by an issue of securities, postponed to the first mortgage debenture bonds. Coupons on the debenture bonds are paid by the London City and Midland Bank, Limited, 5, Threadneedle Street, E.C. The subsidies have been deposited with the trustees for the debenture holders and will be sufficient to meet the interest on the first mortgage debenture bonds until December 31, 1915. The accounts are made up annually to June 30, and submitted in October. Interest on the bonds has been paid to date out of subsidies received, the expenses in connection with the working of the line from December 1, 1911, to June 30, 1915, having exceeded the receipts by $71,664. No report has recently been received, but this notice has been officially revised. The bonds are to bearer, but may be registered at the London office, and registered bonds may be reconverted to bearer, free of charge. Telegraphic address, Spondaic, London.

Bahia-Blanca and North-Western Railway Company, Limited.—*Directors:* Lord St. Davids (Chairman), J. S. Austen, J. A. Goudge, E. Norman, Hon. R. E. Philipps and M. Van Raalte. *Secretary:* F. Sanders. *Office:* Dashwood House, E.C.—The company was registered May 13, 1889, to acquire a concession granted by the Argentine government. Under the original concession the government gave a guarantee for interest for twenty years from the date of opening for traffic of each section of the railway, but towards the close of 1895 an agreement was come to with the Argentine government for a settlement of arrears of the guarantee, and a commutation of future payments thereunder, and the guarantee was accordingly cancelled as from January 1, 1896, while the company received 4 per cent. Argentine railway guarantees rescission bonds for £448,994. By this rearrangement the company is freed from all obligations to reimburse sums received under the guarantee, and the government undertakes in perpetuity not to grant any railway concession, with guarantee or other aid, within thirty kilometres

of the company's line. The company has been empowered to construct extensions, and has in operation 874 miles. The government may, after the expiration of the term of the original guarantee, expropriate the railway, paying to the company the valuation price, plus 20 per cent. A produce market in Bahia-Blanca is owned by the company, together with a mole at Bahia-Blanca. The company is subject to clauses 8 and 9 of the new Argentine National Railway Law (No. 5,315) passed on September 30, 1907 (commonly called the Mitre Law), which provide that the company shall be free from duties on imported materials and from national, provincial and municipal taxation until January 1, 1947, in consideration of the payment of 3 per cent. of the net receipts (to be used for the construction and improvement of access roads and road bridges to the stations, such net receipts being determined by deducting 60 per cent. from the gross receipts as working expenses). The government has the right to vary the tariffs when for three consecutive years the gross receipts exceed 17 per cent. on the recognised capital and the working expenses do not exceed 60 per cent.; should the working expenses exceed 60 per cent., a proportionate increase of the limit of 17 per cent. is allowed before the government can intervene. They were of 500 francs each, and the total amount issued was 60,558,500 francs, carrying 3 per cent. interest. The price of issue here was £11 8s. 9d. per bond. For many years interest was only met in part, and total default took place in January, 1905. In February, 1906, a scheme for the reconstruction of the debenture debt was brought forward, and was duly carried out. Two new classes of debentures were created and issued, consisting of 22,500,000 francs debentures of 500 francs each of the first rank, and 41,751,000 francs debentures of 500 francs of the second rank. Interest on the first rank debentures is a first charge on profits, while a sinking fund for the first rank debentures, sufficient to redeem them in seventy years, is the next charge; a sinking fund for the second debentures is the third charge, and, after making provision for reserve, the interest on the debentures of the second rank comes next. The sinking funds are to be applied to drawings when the price is at or above par, and to purchases when below par. Holders of the old obligations received, for every three obligations, one new debenture of the first rank, and two new debentures of the second rank. Beira Junction Railway (Port Beira to Fontesville), Limited. — *Directors:* H. T. Van Laun (Chairman), H. Birchenough, C.M.G., C. A. V. Conybeare, R. Maguire and L. Wagner. *Secretary:* J. Reed. *Office:* 2, London Wall Buildings, E.C.—The company was registered July 17, 1895, to take over the right of construction of 35 miles of line from Port Beira to Fontesville, authorised under the concession of the Beira Railway Company, Limited, together with a land grant under this concession (for particulars as to the concession, see notice of the Beira Railway Company, Limited). In order to provide funds for the construction of the Beira Wharf and other purposes, some rearrangement of the capital was carried through in 1911, when £125,000 of preference capital was created, of which the British South Africa Company agreed to subscribe at par for sufficient to erect the wharf up to the full amount of £125,000, conditional on the various creditors of the company agreeing to accept 5 per cent. second debentures at par in satisfaction of their claims. This sanction was obtained, and work on the new wharf was proceeded with for a time, but has been temporarily suspended owing to negotiations which are proceeding with the Mozambique Company for the approval of plans for a larger wharf capable of being extended from time to time as traffics increase. The authorised capital is now £187,500 in shares of 5s., £125,000 being in 6 per cent. cumulative preference, with a priority as to capital, and £62,500 in ordinary, and £102,060 15s. of preference and all the ordinary have been subscribed and paid up; practically all the ordinary shares are vested in trustees, who have issued certificates to bearer thereagainst. There have also been issued 6 per cent. first debentures for £249,962, with interest payable January 1 and July 1, and the principal repayable in thirty years from June 30, 1895, the company having (now) the option of repayment at any time at 110 per cent. In August, 1900, holders of the debentures were invited to deposit their bonds to be exchanged for the new 4½ per cent. debentures and certificates of income debenture stock of the Beira Railway Company, and debentures for £249,791 have been so exchanged. Five per cent. second debentures for £200,000 are to be issued, under the agreement referred to above, for arrears of interest on the debentures at September 30, 1911, and to sundry creditors, and so far £121,300 has been allotted—£67,300 to the Beira Railway Company, and £54,000 to the Mashonaland Railway Company; interest is payable April 1 and October 1, and the debentures are to be redeemed at par on October 1, 1950.

The line was completed in August, 1896; it was worked by the Beira Railway Company, Limited, under an agreement which came into force January 1, 1897, and by which the Beira Junction Railway receives a portion of the net earnings of the entire system. By agreement of May 19, 1899, this company and the Beira Railway Company jointly gave rent-charges of £42,500 per annum to the Mashonaland Railway Company, Limited, in consideration of that company undertaking to widen the roads to a 3-feet 6-inch gauge, and carry out certain other works, the rent-charge to date from the completion of the widening. The rent-charge is non-cumulative, and payable only out of the net earnings of the Beira Railway Companies. "This rent-charge is to be secured in such a form that in the event of foreclosure or other proceedings on behalf of any of the debenture-holders of either the Beira Railway Company or the Beira Junction Railway, the priority of the rent-charge shall be preserved, and as respects capital be represented by a sum of £850,000, which rent-charge is to be provided and set apart before provision is made for payment to any of the debenture-holders or other creditors of the Beira Railways." As from January, 1914, a further agreement was entered into between the Beira Companies and the Mashonaland Company, under which the Beira Companies agreed to make a further annual payment of £8,500 for forty years in redemption of the principal sum of the above-mentioned £850,000 (of this £8,500 £7,019 is charged to the Beira Company and £1,481 to the Beira Junction Company). The widening of the line was finished by July, 1900, and this company's line and the Beira Railway Company are worked (as from August 1, 1900) by the Mashonaland Railway Company for the balance of a term of thirty years, dating from January 1, 1897, on a pro rata mileage scale.

The accounts are made up annually to September 30. Interest on the Beira Junction Company's debentures fell into arrear in July, 1907, but out of the earnings of 1909-10 interest for five half-years was paid, and five half-years' interest also out of the earnings of 1910-11, while under the agreement referred to above all interest in arrear up to September 30, 1911, has funded into 5 per cent. second debentures as at September 30, 1914. In 1906-7 the net earnings of the Beira Junction Company were £7,873; in 1907-8, £11,748; in 1908-9, £18,867; in 1909-10, £30,139; and in 1910-11, £39,414. In 1910-11 a debit to net revenue of £145,026 brought forward was reduced to £132,761, after charging interest on debentures, and this company's proportion of the above-mentioned rent-charge; in 1911-12 reduced to £123,556; in 1912-13 reduced to £97,811; and in 1913-14 reduced to £33,961. For the period from October 1, 1914, to July 31, 1915, the net earnings of the Mashonaland, Beira and Beira Junction Railway companies were approximately £154,884, as against £266,300 in the corresponding period. Voting power, one vote for each share. Transfer form, common; fee, 2s. 6d. Telegraphic address, Subcordate, London. Telephone numbers, 4670, 4671, 4672 and 4673 London Wall.

Beira Railway Company, Limited.—*Directors:* R. Maguire (Chairman), F. W. Barrow, Hon. M. W. Elphinstone, L. Oury, A. W. Stirling, H. T. Van Laun and L. Wagner. *Secretary:* J. Reed. *Office:* 2, London Wall Buildings, E.C. — The company was registered July 12, 1892, "for the purpose of procuring the construction and equipment of a railway, with landing-places, quays, wharves and docks, starting from Beira, on Pungwe Bay, in the province of Manica and Sofala, on the south-east coast of Africa, and terminating at the eastern frontier of the British sphere of influence (204 miles), whereby the Manica and Mashonaland goldfields, and generally the field of operations of the British South Africa Company, will be brought into direct communication with the coast." The concession from the Portuguese government which the company took over gives freedom from competition for a distance of 100 kilometres on either side of the railway, while the company has also the lands required for the railway and works, free of cost, and a land subsidy of alternate blocks of land on both sides of the line, each block being about 5,760 acres in extent. The land grant is partially marked out. Of the 204 miles of line authorised under the concession the rights as to 35 miles were transferred to the Beira Junction Railway (Port Beira to Fontesville), Limited, together with a proportionate amount of the land grant.

The share capital is divided into 600,000 shares (no value expressed), of which 295,000 were given in part payment for the concession, and the remaining 305,000 shares (to bearer) were offered as a bonus to the subscribers for some of the A debentures, at the rate of twenty shares for every £20 of debentures. These latter shares, however, are vested in the British South Africa Company, in trust, and certificates to bearer, representing the shares, with coupons attached, have been issued to the subscribers for the debentures. In 1892, and subsequently, the company issued 6 per cent. debentures for a total of £1,100,000 in three series, A, B and C, each class ranking first on a section. Interest on the A and B series was funded for three years, and afterwards paid in cash, and the C debenture interest was all funded, while no payment was made on any class on January 1, 1900, and a scheme for the rearrangement and consolidation of the debenture debt was brought forward and carried into effect. Under this plan 4½ per cent. debentures for £1,100,000 and 6 per cent. income debenture stock for £612,551 were created, these amounts including provision for the exchange of debentures of the Beira Junction Railway, and practically all of both classes has been issued. The debentures are of £10, £20, £50 and £100 each, with interest payable January 1 and July 1, while in addition to the sinking fund, originally provided out of profits, of ½ per cent., amounting to £5,500 per annum, applicable to drawings of debentures at 103 per cent. on December 1 in each year, for repayment on the following January 1, an act of parliament obtained in 1914 provides for the appropriation of a sum of £5,500 for every £10,000 paid as dividend to the shareholders, this appropriation to be used in purchasing debentures at under 103 per cent. when they can be obtained, or by drawings at that figure; amount of debentures outstanding, £1,071,085 (inclusive of £5,500 to be redeemed on January 1, 1916). The income debenture stock has interest payable, if earned, on January 1 and July 1, and the stock is irredeemable except that the company has the power at any time after December 31, 1926, of giving all or any of the stockholders six months' notice of redemption at par. There is also the rent-charge referred to below. Of the railway, 75 miles were opened in October, 1893, 43 miles in November, 1894, 52 miles late in 1897, and 17 miles (the construction of which was rendered necessary by an extension of the boundary between the British and Portuguese spheres of influence) in February, 1898. By agreement of May 19, 1899, this company and the Beira Junction Railway Company jointly gave rent-charges of £42,500 per annum to the Mashonaland Railway Company, Limited, in consideration of that company undertaking to widen the roads to a 3 feet 6 inch gauge, and carry out certain other works. The rent-charge dates from October 1, 1899. The rent-charge is non-cumulative and, payable only out of the net earnings of the Beira Railway Companies. "This rent-charge is to be secured in such a form that in the event of foreclosure or other proceedings on behalf of any of the debenture-holders of either the Beira Railway Company or the Beira Junction Railway Company, the priority of the rent-charge shall be preserved, and as respects capital be represented by a sum of £850,000, which rent-charge is to be provided and set apart before provision is made for payment to any of the debenture-holders or other creditors of the Beira Railways." As from January, 1914, a further agreement was entered into between the Beira Companies and the Mashonaland Company, under which the Beira Companies agreed to make a further annual payment of £8,500 for forty years in redemption of the principal sum of the above-mentioned £850,000 (of this £8,500 £7,019 is charged to the Beira Company and £1,481 to the Beira Junction Company). This company's line and the Beira Junction Railway are now (from August 1, 1900) worked by the Mashonaland Railway Company for the balance of a term of thirty years, dating from January 1, 1897, and in consideration of the Beira Junction Railway constructing the new wharf at Beira, the working agreement between the companies has been modified, and the net receipts are, as from October 1, 1911, to be divided as follows: Mashonaland Railway 42·37 per cent., Beira Railway 45·16 per cent., Beira Junction Railway 12·47 per cent.

The accounts are made up annually to September 30, and those for 1913-14 were submitted in

October, 1915. In 1906-7 the net earnings of the Beira Railway Company from the working of the line (exclusive of transit dues) was £32,270 ; in 1907-8, £48,157 ; in 1908-9, £77,334 ; in 1909-10, £123,537 ; in 1910-11, £161,553 ; in 1911-12, £125,816 ; in 1912-13, £169,991 ; and in 1913-14, £122,990. For the period from October 1, 1914, to July 31, 1915, the net earnings of the Beira, Beira Junction and Mashonaland Railway companies were approximately £154,884, as against £266,300 in the corresponding period. Interest on the 4½ per cent. debentures fell into arrear on July 1, 1905, but in the three years to 1911 all arrears were paid up, and coupons due January, 1912, and since have been met at maturity, while for the five years to 1913-14 6 per cent. per annum was paid on the income debenture stock (the payments for 1912-13 and 1913-14 having been made in April, 1914, and May, 1915, respectively). By act of parliament obtained in 1914 a debit to profit and loss as at September 30, 1912, with various other items, totalling in all £852,755, has been transferred to capital expenditure on development of the concession, thus leaving the way clear for the distribution of surplus profits amongst the shares. After providing for debenture interest, as above, there was a profit for 1913-14 of £7,419, which was carried forward. In respect of this company's holding of Beira Junction Company's debentures (practically the whole), it has agreed to accept on account of outstanding interest as at September 30, 1911, 5 per cent. second debentures, conditional on the £125,000 of Beira Junction preference shares, to be subscribed for by the British South Africa Company, being earmarked to provide funds for the construction of the Beira Wharf. These bonds were received from the Junction Company in October, 1914, the amount being £67,300 ; the construction of the Beira Wharf has been temporarily suspended, and negotiations are proceeding with the Mozambique Company for the approval of plans for a larger wharf capable of being extended from time to time as traffics increase.

Bengal and North-Western Railway Company, Limited.—*Directors:* A. Izat, C.I.E. (Chairman), Col. Sir W. Bisset, K.C.I.E., Sir H. P. Burt, K.C.I.E. (Government Director), E. Christian, L. L. Cohen, Col. T. Gracey, C.S.I., J. Macdonald and T. Stoker, C.S.I. *Secretary:* E. A. Neville. *Office:* 237, Gresham House, E.C.—The company was registered October 23, 1882, to carry out a contract with the Secretary of State for India. The line now owned and in operation is 1,240 miles in length, besides which 788 miles of the Tirhut State Railway are operated by the company under agreement, expiring with the year 1932 (with the option to the Secretary of State to terminate it in 1919). The contract with the Secretary of State is for 99 years, and includes the following terms : The Secretary of State supplies the land free of cost to the company for the term of the contract ; the Secretary of State reserves the right of acquiring the undertaking at the end of 50 years on payment, as regards the main lines of 827 miles, of 25 times the excess of the average yearly earnings during the five years immediately preceding December 31, 1912, over the average aggregate sum to which the working expenses of the company and share of surplus (if any) belonging to the Secretary of State amount yearly during the same five years. The Doab lines, 413 miles in length, have to be acquired by the Secretary of State at the same time as the main line, and the price to be paid for this is, under the contract, "a sum equal to the actual sterling capital raised by the company for the purposes of the said railway with the sanction of the Secretary of State and expended with the like sanction of the railway company" (the terms on which the Secretary of State may, if he so elect, purchase the original undertaking in 1932 are being fixed, as above, based on the agreement of 1905). There is no provision for the purchase to be effected by means of an annuity. The construction of a further 37 miles of Tirhut State Railway extensions has been authorised, and work

on these is in progress. All the net earnings of the line belong to the company, and there is no government guarantee. A bill has been passed by parliament, and has received the Royal Assent, granting the directors power to purchase the company's first and second preference stock on the market. The capital is as under :—

£3,000,000 Ordinary capital, this being the total authorised.

£1,497,500 Three-and-a-half per cent. preference stock. The dividend, payable in June and December, is cumulative, and the stock has a priority as to capital over the second preference and ordinary. The total authorised is £1,500,000, all of which was issued, but stock for £2,500 has been acquired and cancelled, leaving the amount outstanding at £1,497,500.

£1,500,000 Second preference 4 per cent. stock, ranking in regard to dividend and capital after the 3½ per cent. preference stock. The total authorised is £1,500,000.

The company may issue further debenture stock to rank pari passu with this issue, but the total is not to exceed at any time one-half the nominal amount of the issued ordinary and preference capital for the time being. The stock is secured by a specific charge on the railway. Amount of debenture stock outstanding, £379,713.

Bengal Dooars Railway Company, Limited.—*Directors:* R. Miller (Chairman), A. Brereton, C.S.I., A. Izat, C.I.E., Sir A. K. Muir, Bart., Sir J. D. Rees, K.C.I.E., C.V.O., M.P., and J. D. Tannahill. *Secretary:* F. J. Horne. *Office:* Gresham House, E.C.—The company was registered July 30, 1891, to acquire a concession from the Secretary of State for India for the construction of a railway of a total length of about 36½ miles. In 1897-8 an agreement was come to with the Secretary of State for the construction of extensions of the original line, of a total length of about 122 miles, and there are at present in operation about 153 miles. Under the concessions the land required for the lines is to be provided free of charge, and other minor privileges are given, but there is no monetary guarantee. The government has the option of acquiring the lines on December 31, 1919, or on December 31 of any succeeding seventh year, on twelve months' notice, the price to be, as regards the original line, one and two-fifths of the amount of invested capital, and, as regards the extensions, twenty-five years' purchase of the average of the net earnings of the extensions during the last preceding five years, provided that the price is not to exceed by more than 20 per cent. the capital expenditure, and is not to be less than such expenditure. The company has the right to call upon the Secretary of State, under certain conditions, to take over and work the entire undertaking, through the agency of the Eastern Bengal State Railway, and to hand to this company 60 per cent. of the gross earnings; but the company has decided not to avail itself of this concession at present.

The capital is—£400,000, issued in ordinary shares and paid up, and converted into stock; and £360,000 in 4 per cent. cumulative preference stock, with a priority as to capital (the aggregate of the preference capital is not to exceed the ordinary capital for the time being).

The accounts are now made up to September 30, and submitted in February. For 1904 3½ per cent. was paid; for 1905, 1906, 1907 and 1908, 4 each time; for 1909, 4½; for 1910 and 1911, 5; for 1912, 6; for the nine months to September 30, 1913, 4½ (actual); and for the year 1913-14, 7 per cent., including a bonus of 1 per cent. Reserve fund, £100,426; premium capital account, £12,500; carried forward, £23,774. On account of 1914-15 3 per cent. (actual) was paid in July. The preference dividend is paid half-yearly in February and August. Voting power, one vote for every £10 of stock of either class, held for one month. Director's qualification, £500 of stock of either class. Transfer form, common; fee, 2s. 6d. per deed; stock is transferable in amounts of £1 and multiples thereof. Telephone number, 2548 London Wall. The company is quoted in the official list. Latest prices—ordinary, 101½; preference, 86.

Bengal-Nagpur Railway Company, Limited.—*Directors:* R. Miller (Chairman), A. Brereton, C.S.I., G. A. Anderson, A. H. Campbell, A. T. Goodfellow, and Sir T. R. Wynne, K.C.S.I., K.C.I.E. (Managing Director). *Office:* 132, Gresham House, E.C.—The company was registered February 23, 1887, to carry out a contract with the Secretary of State for India, by which the company took over certain existing lines, converted them to broad gauge, and constructed others, the total length of lines in this concession being 829 miles. Under the contract with the Secretary of State the capital to be raised in the first instance was fixed at £3,000,000, and on this amount the Indian government guaranteed 4 per cent. per annum interest during the continuance of the contract, irrespective of the working results. Any further sums that might be required for the completion of the railways were to be provided by the government,

or to be raised by the company on shares or debentures, and on such terms as might be agreed upon between the Secretary of State and the company, the interest being guaranteed by the former. Any net profits from the working, after providing for the guaranteed charges, were to be divided between the government and the company, the former taking three-fourths and the latter one-fourth, the working results, for the purposes of this division, being reckoned by the year. This method of appropriation was modified as stated below in regard to the working of the East Coast Railway. The contract was determinable at the option of the government in 1913, 1923, or any subsequent tenth year, on twelve months' notice, the £3,000,000 to be repaid at par in cash on the determination of the contract (see below). In 1891 the company arranged with the Secretary of State for India for the construction of a branch line of railway about 30 miles in length to Sambalpur. The branch has been constructed as part of the general undertaking, with power to the Secretary of State for India to purchase the branch on twelve months' notice; in the event of the line being so purchased, the company is to be credited with the capital outlay. Extensions of 705 miles of broad gauge, and 794 miles of 2 feet 6 inches gauge have also been opened for traffic, and 101 miles of broad gauge and 2 miles of 2 feet 6 inches gauge have been sanctioned and are under construction, and 223 miles of broad gauge and 8 miles of 2 feet 6 inches gauge have been sanctioned but not commenced; the terms of the agreement are generally similar to those of the original contract, but while the capital for the English expenditure on some of the extensions is provided in England by debentures, that for Indian expenditure is advanced by the government in India. The working by the company of the East Coast State Railway (the property of the government) from Cuttack to Waltair—313 miles—was taken over as from January 1, 1901. In respect of the East Coast Railway the government took out of the earnings of the whole undertaking interest at the rate of 3½ per cent. on 3.09.29.430 rupees, the cost of the East Coast line, and also such a proportion of the one-fourth of surplus profits of the whole undertaking as the gross earnings of the East Coast section bore to the remainder of the line.

In 1911, as a result of negotiations, the company was granted an extension of the existing contract, under somewhat modified terms, and the original contract is not now determinable until December 31, 1950, or the end of any fifth year thereafter, on one year's notice. As from January 1, 1914, the guaranteed interest has been reduced to 3½ per cent., but in the event of the company's share of surplus profits for the years 1914 and 1915 falling short of the amount required to pay ½ per cent. in excess of the guaranteed interest of 3½ per cent., the Secretary of State is to make up the deficiency. The surplus profits as from January 1, 1914, are divided between the Secretary of State and the company in the ratio of the average amounts during the year of the Secretary of State's open line capital, and the company's open line capital (consisting of respectively £15,500,000 and £3,000,000 at December 31, 1910, to which sums shall be added—any capital expended subsequent to December 31, 1910, to be raised by the Secretary of State and the company in as nearly as possible similar ratios, otherwise than on lines of which the interest is chargeable to capital; and any capital transferred from the capital account of a new line into the general capital account of the undertaking, capital expenditure by the company to mean money expended from the proceeds of an issue of ordinary stock). The Secretary of State is to credit the undertaking in each year with a sum equal to the guaranteed interest paid on the average amount, if any, held by him during the year as the unexpended proceeds of an issue of capital made for the purposes of the undertaking.

The following capital issues have been made by the company:—

Under this concession there was a guarantee of interest which, however, fell into arrear, and, as an outcome of negotiations which ensued, the guarantee was relinquished and the government transferred to the company certain securities, but these were not included in the sale of the undertaking to the Bolivar company. In 1911-12 the Venezuelan government granted a concession for the construction of a branch line, just over 28 miles in length, including exemption from duties upon rolling stock, machinery, &c., imported for its construction and maintenance for a period of forty years; construction is proceeding. Constable, Sir E. C. K. Ollivant, K.C.I.E., Col. R. A. Sargeaunt and Maj. A. D. G. Shelley. *Secretary :* C. A. R. Crommelin. *Offices :* 110, Bishopsgate, E.C. — This company was originally incorporated in 1855, but as from January 1, 1906, the Secretary of State for India in Council exercised his option of acquiring the undertaking. The purchase price was fixed at £11,685,580 — that is £154 15s. 5d. per £100 of consolidated stock — the government assuming liability for the debentures, particulars of which will now be found in this work in the statement of India government debt. Payment of the above-mentioned £11,685,580 was made in the following manner :—£9,685,580 in India 3 per cent. stock (taken at 96 per cent.), and £2,000,000 in capital stock of the company, which was reconstituted with a capital of that amount under a contract entered into with the Secretary of State for twenty-five years from January 1, 1906, and thereafter terminable at intervals of five years on twelve months' notice on either side. As from January 1, 1912, a new contract was entered into with the Secretary of State under which additional railways were consolidated with the company's system, and the total mileage is now approximately 2,859 miles. These lines the company is to work for the government until December 31, 1941 (there being no option of earlier termination of the agreement), and if it is not then terminated it is to run for further consecutive periods of five years, subject to twelve months' notice from the Secretary of State, and when terminated the company's ordinary stock is to be repaid at par. Under the agreement dating from January 1, 1912, between the government and the company the total capital of the system is reckoned at £40,500,000, £30,000,000 being preferred capital and £10,500,000 deferred capital, with £1,000,000 of debenture stock, and after charging interest on the debenture stock the preferred capital is to rank first for 4 per cent. out of net earnings, and the preferred is to share proportionately with the deferred in any surplus after 4 per cent. has been paid on the latter. The company's ordinary stock of £2,000,000 is included in the preferred capital, while the remaining £28,000,000 of preferred and the £10,500,000 of deferred belong to the Secretary of State. The government guarantee of interest at the rate of 3 per cent. per annum on the company's capital of £2,000,000, under the agreement of January 1, 1906, remains in force, this 3 per cent. being included in the 4 per cent. minimum dividend to which the preferred capital of the whole system is entitled, and it is expected that even in the least favourable years the minimum dividend of 4 per cent. will be earned on the preferred capital. It is provided that further capital required for the system, except when raised on debenture stock or bonds, will form additions to the preferred capital of the Secretary of State and of the company, in the proportion that the amounts have been provided by the two parties. Besides the lines included in the system the company works other roads for native states or other companies, the total now in operation by the company being 3,680 miles.

The capital consists of £2,000,000 of stock, as above, and in October, 1908, there was issued through the Bank of England at 96 per cent., £1,000,000 of 3½ per cent. debenture stock, guaranteed by the Secretary of State for India in Council, with interest payable April 15 and October 15, while the stock may be redeemed at par by the company on or at any time after October 15, 1940, with the previous consent of the Secretary of State, twelve months' notice being given.

The accounts are now made up to March 31 and September 30, and submitted in the following December and June respectively, but the company's financial year ends on March 31. Payments on the capital stock are made on January 6 and July 6, the first at the rate of 3 per cent. per annum having been made on July 6, 1906 ; while in January and July, 1907, 1908, 1909, 1910 and 1911 the payments were at the rate of 3 and 4 per cent. per annum respectively ; in January and July, 1912, 3 and 5 ; in January and July, 1913, 4 and 5 ; in January and July, 1914, 4 and 5½ ; and in January and July, 1915, 4 and 5, the excess of these payments over 3 per cent. per annum representing the company's share of surplus profits for the year to March 31, 1915. Carried forward at March 31, 1915, £92,138. In January, 1916, 4 per cent. per annum (including the guaranteed dividend) is to be paid. Voting power, one vote for every £100 of capital stock. Director's qualification, £500 of capital stock. Transfer form, common ; fee, 2s. 6d. each deed ; capital stock is transferable in any amount and debenture stock in amounts of £1 and multiples, and the debenture stock is transferable free of stamp duty. Glyn, Mills, Currie and Co., 67, Lombard Street, E.C., and the debentures are redeemable in thirty years by a cumulative sinking fund of 1 per cent. per annum, applied to purchases when under par, or by half-yearly drawings in January and July, redemption having commenced in 1887. These debentures are a first charge on the undertaking and the guarantee. Interest due February 1, 1914, and since is in arrear. Amount outstanding, £84,700.

£43,000 "Flood loan" 7 per cent. bonds, with interest payable April 1 and October 1. Interest due April 1, 1913, and since is in arrear.

Brazil Great Southern Railway Extensions, Limited.—*Directors:* H. Raincock (Chairman), A. Lemon (Manager in England) and H. R. Tamplin. *Acting Secretary:* F. T. Elson. *Office:* 14, Queen Victoria Street, E.C.—The company was registered June 15, 1909, to acquire from the Brazil Great Southern Railway Company, Limited, a concession for the construction (for which the government will pay) and leasing of an extension of that company's system from Itaqui to San Borja, and any extensions thereof. The extension is 77 miles in length, and the concession is for sixty years from October 31, 1910; it carries no government guarantee, and at the expiration of the concession the line reverts to the government without payment. The authorised capital is £100,000 in shares of £1, of which £25,007 has been subscribed and paid up. At December 31, 1914, there were 6 per cent. debentures for £23,700 (part of £100,000 authorised), while debentures for £20,000 (in addition to the above) are to be issued to the Brazil Great Southern Company. The accounts are made up annually to December 31, and submitted in the following December. The line was opened for provisional traffic on February 10, 1913, and to the end of 1913 the gross traffic receipts amounted to £7,830, of which

this company's share was £2,200. The gross receipts for the year 1914 were approximately 97,011 milreis. Voting power, one vote for each share. Director's qualification, one share for first directors, and £500 for other directors. Transfer form, common; fee, 2s. 6d.

Brazil North Eastern Railways, Limited.—*Directors:* R. Logan (Chairman), E. B. Forbes, A. Ll. Griffith-Williams and Col. Sir G. Smith, K.C.M.G. *Secretary:* J. A. Roney. *Office:* 42, New Broad Street, E.C.—The company was registered January 25, 1910, with the object of working two railways in the state of Ceará, North Brazil. The company took over lines in operation of a total length of 561 kilometres (348 miles), a further 26½ kilometres (16½ miles) were ready for opening, and 136 kilometres (84 miles) were under construction, while extensions, bringing the total length up to about 1,390 miles, are authorised, of which 472 miles are now in operation. The whole of the railways, including extensions as completed, are held under lease for a term expiring on December 31, 1970, when they revert to the Brazilian Federal government without payment. After December 31, 1940, the government has the right to expropriate the lease on payment of an indemnity equivalent to 25 per cent. of the average annual net revenue for the previous five years, multiplied by the number of years of the lease unexpired, adding thereto the amounts admitted as capital by the government, less amortisation on a scale specified in the lease. The annual amount payable to the government is fixed on a sliding scale, which on the basis of the receipts for 1914 amounted to £7,007, while in addition to this amount there is also payable to the government a fixed charge of about £4,600 (at 16d. exchange) per annum in respect of government inspection and supervision of the railways. The company is exempt from import duties upon materials necessary for the construction and working of the line, and is also free from state and municipal taxes. There is no guarantee from the government. The authorised capital is £350,000 in shares of £1, all of which, except 7 signatories' shares, was issued credited as fully paid. In March, 1910, Parr's Bank, Limited, was authorised by the British and International Investment Trust, Limited, 24, Throgmorton Street, E.C., as purchasers of the stock, to receive applications for £350,000 6 per cent. first debenture stock, at par, with interest payable February 1 and August 1 (see below as to postponement of interest), and the principal repayable February 1, 1933, at 110 per cent., with the option to the company to pay off the stock at any time on six months' notice, also at 110 per cent. "The redemption of the debenture stock will be provided for by annual payments by the railway company to the trustees for the debenture stock holders, commencing on February 1, 1913, and being for the first ten years at the rate of at least £4,000 per annum, and thereafter at such a rate as will be sufficient to redeem in each year at 110 per cent. one-tenth part of the stock outstanding in 1922. The debenture stock will be redeemed by annual drawings at 110 per cent., or by purchases on the market, or otherwise, whenever the stock can be acquired below the redemption price of 110 per cent." (see below for postponement of amortisation). The stock is secured by trust deeds, creating a first floating charge on the undertaking, and no further stock may be created to rank in priority to, or pari passu with, the stock; amount outstanding, £341,215.

Interest on the debenture stock due August 1, 1914, was not met, and in January, 1915, holders of the debenture stock agreed to the postponement of the payment of interest due August 1, 1914, and subsequently to the interest date falling next after (but not less than six months after) the signing of peace. In April, 1914, 5 per cent. prior lien debentures for £70,000 were created, none of which had been issued to the end of 1914, and, under the scheme for the postponement of interest on the debenture stock, it was provided that prior lien bonds (taken at 95 per cent.) should be deposited with the trustee for the debenture stockholders to an amount equivalent to the unpaid interest on the debenture stock, and the interest on such prior lien bonds may, at the discretion of the trustee, be distributed amongst the debenture stockholders. The resumption of amortisation payments is to take place on the first February 1, after the signing of peace in Europe. To November 15, 1915, of the £70,000 of prior lien bonds £16,000 had been deposited as security for a banker's overdraft, and £32,400 had been deposited with the trustees for the debenture stockholders.

The accounts are made up annually to December 31, and submitted in June. No dividend has yet been paid, and debenture interest due August 1, 1914, and subsequently, and amortisation payments have been postponed as stated above. The railways were taken over on February 6, 1910, and for the year 1913 the net revenue was £39,788, and for 1914, £15,094; a credit balance of £5,460 was brought down, and £11,000 was appropriated from a special drought, &c., reserve fund, in respect of expenses of working and upkeep of railway during the period of a revolution in Ceara, and after charging up £8,405 handed over to the government in respect of rental and fiscalisation, and charging debenture interest and difference in exchange, placing £2,637 to renewals and improvements, &c., a debit to net revenue of £7,383 was carried over. From January 1 to August 14, 1915, the gross receipts were 1,343,000 milreis, against 1,340,393 milreis in the same period of 1914. Voting power, one vote for each share. Director's qualification, 250 shares. Transfer form, common; fee, 2s. 6d.; debenture stock is transferable in sums of £1 and multiples. Telegraphic address, Cearabraz, Ave, London. Telephone number, 3095 City. The debenture stock is quoted in the official list; latest price, 36.

Hubbard (London), A. Pouyanne, E. Quellennec and A. Naylor Smith (London). *London Office:* 9, Throgmorton Avenue, E.C. (telephone numbers, 4502-3 London Wall). *Head Office:* Portland, Maine, U.S.—The company was formed in 1906 under the laws of the state of Maine, U.S., with the special object of connecting and consolidating the railways in Southern Brazil into a comprehensive railway system, joining at the international boundaries with the railways of Uruguay, Argentina and Paraguay, and this connection, placing Rio de Janeiro and Sao Paulo in the north, and Rio Grande do Sul, Montevideo and Buenos Ayres in the south, in direct communication, has been effected. The company operates the Sorocabana Railway under a contract with that company for the period of the lease granted by the state of Sao Paulo, which runs until June 30, 1967, and, in addition, owns practically the whole of the issued share capital and £825,000 of the 4½ per cent. first debentures and £560,000 of the 5 per cent. second debentures of the Sorocabana Company. The Sorocabana railway has 813 miles in operation, and 268 miles are to be constructed. The company also leases and operates the Sao Paulo-Rio Grande railway for the period of the concession (90 years) granted by the federal government of Brazil, and in addition

owns about 90 per cent. of the issued share capital of the Sao Paulo Company. The Sao Paulo Company has 610 miles in operation, and 235 miles are under construction, leaving 1,315 miles to be constructed. Further, the company owns 50 per cent. of the preference and common share capital, £400,000 of the 6 per cent. first mortgage bonds, and £263,500 of the 5½ per cent. first mortgage bonds of the Madeira Mamoré railway (226 miles in length, and all in operation), and has holdings in companies operating connecting lines. The accounts are made up annually to December 31, and issued about September. For the year 1909, after meeting interest charges, the Brazil Railway Company had a surplus net revenue of $463,060, of which $85,000 was applied to the renewal fund of the Sorocabana Railway Company, and $378,060 was carried forward. The first dividend on the preferred shares was distributed in April, 1910, being at the full rate of 6 per cent. per annum for the quarter to March 31, 1910, and similar quarterly payments were made down to and including September, 1913, on both non-cumulative and cumulative shares, and in January, 1914, a quarterly payment was made on the cumulative preferred shares only, but in the following month it was announced that for the future the distribution of dividends on the preferred shares would only be considered after the close of each fiscal year; no further dividend has been paid on either class of preferred shares. For 1913, after payment of 6 per cent. on the cumulative preferred shares, and 4½ per cent. on the non-cumulative preferred shares, adding $1,341,000 to reserve account as a general reserve and a provision towards amortisation of preliminary and special financial expenses (increasing it to $2,841,000), and placing $500,000 to a special reserve fund (raising it to $562,626), a credit balance of $16,990 was carried forward, against $1,153,006 brought down. Committees of bondholders have been formed for the 4½ per cent. first mortgage bonds, the 5 per cent. convertible debentures, and the 5 per cent. fifty-year gold debentures, with offices at 9, Throgmorton Avenue, London, E.C., and the deposit of bonds for account of the committees has been called for with the Union of London and Smiths Bank, Limited, as regards the first mortgage bonds, Messrs. Glyn, Mills, Currie and Co. as regards the convertible debentures, and the London Joint Stock Bank, Limited, as regards the 5 per cent. fifty-year gold debentures. Buenos Ayres and Pacific Railway Company, Limited.—*Directors:* Lord St. Davids (Chairman), T. P. Gaskell, J. A. Goudge (Joint Managing Director), C. E. Gunther, E. Norman and Hon. A. Stanley, M.P. *General Manager:* H. Usher. *Secretary:* F. Sanders. *Office:* Dashwood House, E.C.—The company was registered October 10, 1882, to acquire a concession, dated March 19, 1878, granted by the Argentine government. Under this concession the government guaranteed certain interest for a term of 20 years, but in 1895-6 negotiations were carried on with the government for the commutation of the guarantee, past and future, and an agreement was come

to by which the government paid to the company £376,984 in 4 per cent. Argentine railway guarantees rescission bonds; the manner in which this payment has been dealt with is stated below. The line belongs to the company in perpetuity, and the length in operation is now 1,430 miles. The company is subject to clauses 8 and 9 of the Argentine National Railway Law (No. 5,315) passed on September 30, 1907 (commonly called the Mitre Law), which provide that the company shall be free from duties on imported materials and from national, provincial and municipal taxation until January 1, 1947, in consideration of the payment of 3 per cent. of the net receipts (to be used for the construction and improvement of access roads and road bridges to the stations, such net receipts being determined by deducting 60 per cent. from the gross receipts as working expenses). The government has the right to vary the tariffs when for three consecutive years the gross receipts exceed 17 per cent. on the recognised capital and the working expenses do not exceed 60 per cent.; should the working expenses exceed 60 per cent., a proportionate increase of the limit of 17 per cent. is allowed before the government can intervene.

As from July 1, 1904, the company has worked the railway system of the Bahia-Blanca and North-Western Railway Company, Limited (874 miles), guaranteeing the interest on the debenture stock of that company (this guarantee coming directly after the Buenos Ayres and Pacific Company's debenture stocks, and ranking pari passu with the guarantees to the Argentine Great Western Company, and the Villa Maria and Rufino Company), and 3 per cent. per annum dividends on £1,350,000 of ordinary (guaranteed) capital for five years from July 1, 1904, 3½ per cent. for the next four years, 4 per cent. for the next four years, and 4½ per cent. thereafter; on £1,250,000 of ordinary (guaranteed) stock, issued in November, 1906, the Buenos Ayres and Pacific Company guarantees 4½ per cent.; and on 200,000 (guaranteed) shares of £10, 5 per cent. until March 31, 1916, and thereafter 4½ per cent.

The company also leases, as from July 1, 1905, the Villa Maria and Rufino Railway (141 miles), guaranteeing 4 per cent. interest on the existing debenture stock of that company, as well as 3 per cent. per annum for four years from July 1, 1905, on its guaranteed stock, 3½ per cent. for four years from July 1, 1909, 4 per cent. for four years from July 1, 1913, and 4½ per cent. from July 1, 1917, and thereafter (this guarantee coming directly after the debenture stocks of the Buenos Ayres and Pacific Company, and ranking pari passu with the guarantees to the Argentine Great Western Company, and to the Bahia-Blanca and North-Western Company).

As from July 1, 1907, the company took over the administration of the Argentine Great Western Railway (962 miles) in perpetuity, and has to pay to the Argentine Great Western a sum equal to the annual interest on the debenture stocks of the Western Company, and of any further issue of debentures made with the previous consent of the Pacific Company, together with the sum necessary to pay in respect of every financial year (1) a dividend on the preferred stock of the Western Company at the same rate as may be paid for the year on the 5 per cent. first preference stock of the Pacific Company, and a dividend on the ordinary stock of the Western Company at the same rate as may be paid for the year on the 5 per cent. second preference stock of the Pacific Company, together with (2) a dividend on both stocks equal to the dividend or bonus in excess of 5 per cent., but not exceeding 6 per cent., as shall be paid for the year on the ordinary stock of the Pacific Company; (3) a dividend of ½ per cent. per annum on both stocks in respect of every year for which dividends or bonuses, at a rate exceeding 7 per cent. per annum, shall be paid on the ordinary stock of the Pacific Company; and (4) a dividend of ½ per cent. per annum on both stocks in respect of every year for which dividends or bonuses at a rate of 10 per cent. per annum, or in excess of that rate, shall be paid on the ordinary stock of the Pacific Company (this guarantee coming directly after the debenture stocks of the Buenos Ayres and Pacific Company, and ranking pari passu with the guarantees to the Bahia-Blanca and North Western Company, and the Villa Maria and Rufino Company). In connection with the lease of the Western Company the Pacific Company took over the lease of the Argentine Transandine Railway Company (111 miles).

Buenos Ayres Central Railway.—*Office:* Buenos Ayres. *London Agency:* 4, Moorgate Street, E.C. —This company, the proper title of which is Ferro Carril Central de Buenos Aires, Limitada, was incorporated in 1906 under the laws of the Argentine Republic. The company operates under concessions from the national and provincial governments granting it rights in perpetuity, the railway being about 190 miles in length. The company is subject to clauses 8 and 9 of the new Argentine National Railway Law (No. 5,315) passed on September 30, 1907 (commonly called the Mitre Law), which provide that the company shall be free from duties on imported materials and from national, provincial and municipal taxation until January 1, 1947, in consideration of the payment of 3 per cent. of the net receipts (to be used for the construction and improvement of access roads and road bridges to the stations, such net receipts being determined by deducting 60 per cent. from the gross receipts as working expenses). The government has the right to vary the tariffs when for three consecutive years the gross receipts exceed 17 per cent. on the recognised capital and the working expenses do not exceed 60 per cent.; should the working expenses exceed 60 per cent., a proportionate increase of the limit of 17 per cent. is allowed before the government can intervene.

The authorised share capital is $25,000,000 (equivalent to £2,194,000) in shares of $500, of which $20,165,000 has been issued and paid up. In July, 1907, there was offered for sale at 87 per cent. by the River Plate Trust, Loan and Agency Company, Limited, 52, Moorgate Street, E.C., acting on behalf of the purchaser, £600,000 (part of £1,000,000 authorised) of 4½ per cent. first mortgage debentures to bearer, of £100 each, and in June, 1913, a further £100,000 was issued privately. No further issue of debentures is to be made until the net earnings of the company for the two immediately preceding years have been equal to twice the amount of the interest on the outstanding debentures and on the further amount proposed to be issued, while it is further provided that the amount of the first mortgage debentures shall not be increased beyond £700,000 unless the net profits of the company for each of the two financial years immediately preceding the issue, after allowing for interest on the first mortgage debentures outstanding and proposed to be issued, shall be double the amount necessary to pay the interest on the outstanding second debentures. The debentures are secured by a first mortgage covering the whole of the company's property in favour of the River Plate Trust, Loan and Agency Company as trustee for the debenture holders; interest is payable at the office of the River Plate Trust Company on January 1 and July 1, and the principal is to be repaid in 1950, but is repayable after January 1, 1917, at the option of the company, at par, on six months' notice.

In December, 1910, there was issued through the Law Debenture Corporation, Limited, 41, Threadneedle Street, E.C., at 90 per cent., £600,000 of 5 per cent. second mortgage debentures to bearer, of £100 each. They are secured by specific mortgages covering the whole of the company's property, subject to the above-mentioned first mortgage debentures; the amount of the issue is limited in the first instance to £600,000, but the company has power to issue further debentures ranking pari passu with those outstanding, but no further debentures are to be issued unless the net profits of the company for each of the two financial years immediately preceding the date of such issue, after allowing for the first mortgage debenture interest, shall be double the amount necessary to pay the interest on the second debentures, including any proposed new issue. Interest is payable April 1 and October 1, and the debentures are to be redeemed by means of a cumulative sinking fund of 1 per cent. per annum, accruing from October 1, 1913, and applied by purchase in the market at or under par, or by drawings at par, while any debentures not so redeemed are repayable at par on October 1, 1949, and the company has reserved the right, on three months' notice, to redeem the whole or any part of the debentures at par.

Buenos Ayres, Ensenada and South Coast Railway Company, Limited.—*Directors:* Sir R. P. Edgcumbe (Chairman), H. C. Allen and W. Parish. *Secretary:* A. Giet. *Office:* River Plate House, Finsbury Circus, E.C.—The company was registered November 3, 1888, to acquire 30 miles of constructed railway (known as the Magdalena line) from the Buenos Ayres provincial government, and the right to construct a branch to that line of 4¼ miles, and a new line (known as the Las Piedras line) of 41 miles, while running powers over portions of the government roads were granted. In 1889 concessions for extensions to Balcarce and Tandil (about 215 miles in length) were acquired, but, owing to the district served by some of these lines being within the territory worked by the Buenos Ayres Great Southern Railway Company, about one-third of the whole was transferred to that company. An extension of the Alvarez Jonte line for 15½ miles in a southerly direction, and an extension of the Magdalena line to the centre of the town, a distance of 1¼ miles, were opened for traffic in January, 1914; while a new line from Elizalde to the south in the direction of Lezama, 43½ miles, is in course of construction by the Buenos Ayres Great Southern Railway on behalf of the Buenos Ayres, Ensenada and South Coast Railway, 33 miles of which were opened in December, 1914. No monetary guarantee was given to the company, and there is no option of government purchase, the lines belonging to the company in perpetuity. The company is subject to clauses 8 and 9 of the new Argentine National Railway Law (No. 5,315) passed on September 30, 1907 (commonly called the Mitre Law), which provide that the company shall be free from duties on imported materials and from national, provincial and municipal taxation until January 1, 1947, in consideration of the payment of 3 per cent. of the net receipts (to be used for the construction and improvement of access roads and road bridges to the stations, such net receipts being determined by deducting 60 per cent. from the gross receipts as working expenses). The government has the right to vary the tariffs when for three consecutive years the gross receipts exceed 17 per cent. on the recognised capital and the working expenses do not exceed 60 per cent.; should the working expenses exceed 60 per cent., a proportionate increase of the limit of 17 per cent. is allowed before the government can intervene.

The authorised capital in respect of the Magdalena and Las Piedras lines is £800,000 in shares of £10, half ordinary and half 6 per cent. cumulative preference. By special resolution dated March 18, 1889, the company has power to increase the share and loan capital in respect of new lines. The issued capital is as follows:—

£101,770 Preference shares of £10, ranking for 6 per cent. cumulative dividends. Of this amount £100,116 is paid up, 9,526 shares being fully paid, and the remainder having £6 called, while £950 has been paid in advance.

£200,000 First mortgage 4 per cent. debenture stock, issued early in 1900 in exchange for £200,000 6 per cent. first mortgage debenture stock, on which interest for several years had only been paid in part. The whole of this stock has been acquired by the Buenos Ayres Great Southern Railway Company, in exchange for an equal amount of its 4 per cent. debenture stock. Interest is payable January 1 and July 1, and the stock is irredeemable except in the event of the liquidation of the company, when it is to be paid off at par. The stock forms part of a total authorised of £300,000, created under a fresh arrangement entered into with the working company (the Buenos Ayres Great Southern Railway Company, Limited) in 1899, and the interest is guaranteed by the rent payable by the Buenos Ayres Great Southern Company, which is entitled to the net earnings to that extent. The balance of the authorised issue is to be used in providing for the Atalaya debentures, extending the line, and for the general improvement of the road.

£153,741 Six per cent. B debenture stock. This stock ranks after the above 4 per cent. debenture stock. Of the above amount, £130,867 has been acquired by the Buenos Ayres Great Southern Railway Company, and £22,874 has been surrendered and is held by the company's nominees, pending cancellation. For the year 1910-11 3½ per cent. was paid on this stock; for 1911-12, 6 per cent., together with 3⅜ per cent. on account of arrears; for 1912-13, 6 per cent., together with 4·97 per cent. on account of arrears; for 1913-14, 4·98 per cent. on account of arrears; and for 1914-15 ·35 per cent. on account of arrears, which amount, after these payments, to £139,605.

£20,000 Six per cent. registered debentures of £50 each, secured on the Atalaya branch. These debentures were issued in May, 1893, at 80 per cent. The Atalaya branch is about 4¼ miles in length, and certain rents and rebates are provided for these debentures. Interest is payable January 1 and July 1, and the principal was repayable January 1, 1904. Interest payments since 1894 were only made in part, and all of these debentures have been acquired by the Buenos Ayres Great Southern Company, and an arrangement has been made (not yet carried into effect) for their conversion as from January 1, 1904, into an equal nominal amount of first mortgage 4 per cent. debenture stock, ranking pari passu with the existing debenture stock, from which date interest has been paid at 4 per cent. per annum.

The accounts are now made up annually to June 30, and submitted in December. Some 16¾ miles of extensions were opened for traffic in January, 1914, and 33 miles in December, 1914. In 1899 a fresh working arrangement was come to with the Buenos Ayres Great Southern Railway Company, Limited, under which the old 6 per cent. first mortgage debenture stock, on which interest had only been paid in part, was converted into the above-mentioned first mortgage 4 per cent. debenture stock, and additional stock was created for the purpose of providing for the Atalaya debentures, the improvement of the line, and the extension of the railway (the additional capital has not yet been issued). Under the new working agreement of April 28, 1909, the line is now worked at a

percentage of the gross earnings varying from 60 to 50 per cent. according to the traffic receipts, while should the net revenue not be sufficient to meet the interest on the first mortgage debenture stock, the Buenos Ayres Great Southern Company has undertaken to make up any deficiency, such advances to be a first charge against any future surplus over the amount required for interest. The company was in the hands of a receiver for a time, but he has now been discharged. This company's proportion of the gross receipts for the year to June 30, 1906, amounted to £7,373, for 1906-7 to £10,384, for 1907-8 to £13,714, for 1908-9 to £12,545, for 1909-10 to £12,755, for 1910-11 to £19,125, for 1911-12 to £21,059, for 1912-13 to £24,770, for 1913-14 to £24,586, and for 1914-15 to £20,655. Voting power, one vote for each ordinary or preference share. Director's qualification, £500 of shares. Transfer form, common; fee, 2s. 6d.; stock is transferable in sums of £1 and multiples. Telephone number, 3434 London Wall. Telegraphic address, Southness, Ave, London.

The railways are the property of the company in perpetuity, although the national government may purchase the company's property at any time at its recognised capital value plus 20 per cent. bonus. The company is subject to clauses 8 and 9 of the new Argentine National Railway Law (No. 5,315) passed on September 30, 1907 (commonly called the Mitre Law), which provide that the company shall be free from duties on imported materials and from national, provincial and municipal taxation until January 1, 1947, in consideration of the payment of 3 per cent. of the net receipts (to be used for the construction and improvement of access roads and road bridges to the stations, such net receipts being determined by deducting 60 per cent. from the gross receipts as working expenses). The government has the right to vary the tariffs when for three consecutive years the gross receipts exceed 17 per cent. on the recognised capital and the working expenses do not exceed 60 per cent.; should the working expenses exceed 60 per cent., a proportionate increase of the limit of 17 per cent. is allowed before the government can intervene. There is no monetary guarantee. The company is largely interested in the Buenos Ayres Southern Dock Company now constructing docks on the Riachuelo in Buenos Ayres, and also (jointly with the Bahia-Blanca and North-Western Railway Company) in the Bahia-Blanca Water Works Company. In 1908 the company entered into a contract with the La Plata Moles and Deposits Company to work the property of that company for a period of ten years with the option of purchasing the undertaking at 75 per cent. of the nominal value of its share capital of £952,381, of which £331,582 has already been acquired by the Buenos Ayres Great Southern Company, which is also interested in the Buenos Ayres Midland Railway Company, Limited, jointly with the Buenos Ayres Western Railway, Limited. The line in operation is 3,792 miles in length, in addition to which 407 miles of new extensions are authorised.

The authorised capital is £29,090,000 ordinary, £8,000,000 preference, and £2,910,000 in shares of no specified class, with borrowing powers up to one-half the paid-up stock and share capital, this amount being exclusive of the special debenture stock referred to below, and the following capital issues have been made :—

£29,090,000 Ordinary stock.

£8,000,000 Five per cent. preference stock, ranking for dividend on the profits of each separate year. In the event of the company's railways being sold, the holders of preference stock are to be entitled to receive in respect thereof out of the assets of the company, so far as the same shall allow, 120 per cent. in priority to all payments to be made to the holders of ordinary stock.

£15,472,560 Debenture stock at 4 per cent., with interest payable January 1 and July 1.

£1,032,930 Special debenture stock (not negotiable) at 4½ per cent. interest, issued to the Buenos Ayres Western Railway, Limited, in payment for nearly 94 miles of line purchased.

£242,600 Buenos Ayres Western Railway Annuity at 4½ per cent. in respect of the Brandzen branch, this being a liability taken over from the Buenos Ayres and Ensenada Company.

The accounts are made up annually to June 30, and submitted in October, an interim dividend (in 1915 of 2 per cent.) being paid in April. For the fifteen years to 1912-13 the dividend was 7 per cent. per annum; for 1913-14, 5; and for 1914-15, 4. Dividends on the ordinary stock were formerly paid free of income tax, but are now paid subject to income tax. General reserve, £739,277; general renewal fund, £952,281; fire insurance fund, £75,822; carried forward, £57,952. From July 1 to November 7, 1915, the gross receipts were £1,585,908, as against £1,293,941 from July 1 to November 8, 1914.

Voting power, one vote for each £10 of ordinary stock. Director's qualification, £4,000 of ordinary stock. Transfer form, common; fee, 2s. 6d.; stock is transferable in amounts of £1 and multiples thereof, but no account can be opened for less than £10 of stock. Buenos Ayres Midland Railway Company, Limited.—*Directors:* F. Henderson (Chairman), H. C. Allen and W. Higgins. *Secretary:* C. H. Lambert. *Office:* River Plate House, Finsbury Circus, E.C.—The company was registered February 10, 1906, to acquire a concession granted by the provincial government of Buenos Ayres for the construction of a railway of 322 miles, between Barracas al Sud (a suburb of the city of Buenos Ayres) and Adolfo Alsina (Carhué), the junction of the Buenos Ayres Great Southern Railway and the Buenos Ayres Western Railway. Under the concession there is no monetary guarantee, but the company is granted exemption from all municipal and provincial taxes for a period of twenty years from June 16, 1905, while all lands necessary for the construction of the railway and its accessories are declared of public utility and subject to the existing laws as to expropriation, all public lands through which the railway will pass being conceded in perpetuity while the railway exists, to the extent necessary for the line. During

fifteen years no new lines of railway parallel to this undertaking may be built at distances of less than 15 kilometres on either side of the line, except within a radius of 40 kilometres from the cities of Buenos Ayres and La Plata, and the provincial government has reserved the right to expropriate the line twenty years after it has been open for traffic, the value on such expropriation to be fixed by arbitration, plus an additional 20 per cent. For the purpose of the above provisions the authorised invested capital is fixed at 25,000 gold dollars per kilometre, and the working expenses at 60 per cent. of the gross receipts, while when the net receipts of the railway exceed 8 per cent. on the invested capital the executive power has the right of intervention in fixing tariffs. Freedom from custom house duties has also been granted to the company.

On December 30, 1908, the Buenos Ayres Western Railway, Limited, and the Buenos Ayres Great Southern Railway Company, Limited, entered into an agreement to manage and work the railway in perpetuity, paying to the Buenos Ayres Midland Company, by way of rent, the gross earnings of the railway, after deduction of the working expenses, equal to the mean percentage of the working expenses of the two working companies, and in addition thereto allowing to the company certain rebates. In July, 1913, a further agreement was entered into with the Buenos Ayres Great Southern Railway Company, Limited, and the Buenos Ayres Western Railway, Limited, under which these two companies gave up their right to be recouped out of future profits any sums provided by them up to the date of the agreement to meet the debenture interest, and agreed for the future to pay a rent sufficient to meet the debenture interest and all other income charges of the company and to leave an annual balance of £45,000 up to June 30, 1916, and thereafter £60,000, available for paying dividends on the share capital. In return for this, should the net earnings of the line at any time come to exceed the rent so agreed to be paid by them, they will be entitled to the excess. The two companies, however, in view of their large interest in the ordinary shares, stipulated that the dividends on the preference shares shall be reduced to 3 per cent. per annum from July 1, 1913, to June 30, 1916, and thereafter shall be increased to 4 per cent. per annum, such fixed dividends to be payable on January 1 and July 1 in each year. This will permit of dividends at similar rates being paid on the ordinary shares. The capital is as under:—

£500,000 Ordinary shares of £10, fully paid, being the total authorised. Dividends at the rate of 3 per cent. per annum are now being paid on January 1 and July 1, under the agreement referred to above.

£1,000,000 Three-Four (originally Five) per cent. non-cumulative preference shares of £1, fully paid, being the total authorised. These shares were issued in 1908, to replace a similar amount of 5 per cent. first debentures, of which £600,000 was offered for sale in March, 1907, at 92½ per cent. Under the agreement entered into in July, 1913, the dividend on these shares is reduced to 3 per cent. per annum as from July 1, 1913, to June 30, 1916, and thereafter the rate is to be 4 per cent. per annum, these payments to be made on January 1 and July 1.

£1,559,010 Four per cent. debenture stock, part of £2,000,000 created, of which £1,000,000 was issued in June, 1909, at par; £250,000 in January, 1910, at 101 per cent.; £250,000 in July, 1910, at par to 101 per cent.; and the remaining £59,010 subsequently; interest is payable by warrant sent to the registered holder on January 1 and July 1, and the stock is irredeemable except in the case of a winding up, or expropriation by the province of Buenos Ayres, in which case it is to be repaid at par, while the working companies have undertaken to provide sufficient funds for the interest as stated above.

£457,387 Advances (and accrued interest) from the Buenos Ayres Great Southern Railway Company, Limited, and the Buenos Ayres Western Railway, Limited.

The accounts are made up annually to June 30, and submitted about November. The line was completed and opened through to Carhué on July 1, 1911. Voting power, one vote for every ordinary share. Director's qualification, £500 of either class of shares. Transfer form, common; fee, 2s. 6d. Telephone number, 870 London Wall. The preference shares and debenture stock are quoted in the official list, the former to the extent of £999,760. Latest prices—preference, 14s. 3d.; debenture stock, 77.

Buenos Ayres Western Railway, Limited.—*Directors:* Sir H. Bell, Bart. (Chairman), A. E. Bowen, W. Parish, D. Simson and Sir J. White-Todd, Bart. *Secretary:* R. Graham. *General Manager in Buenos Ayres:* F. Foster. *Office:* River Plate House, Finsbury Circus, E.C.—The company was registered May 17, 1890, to acquire a system of railways constructed and owned by the province of Buenos Ayres. No monetary guarantee was given by the government, and the railways are the property of the company in perpetuity. The government undertook not to exercise its constitutional right of expropriation until after forty years from the date of transfer. Of the original total of 660 miles of railway, 322 miles have been sold to the Buenos Ayres and Rosario Railway Company, Limited (now the Central Argentine Railway, Limited), and the Buenos Ayres Great Southern Railway Company, Limited; the Buenos Ayres and Rosario Company (now the Central Argentine Railway, Limited) and the Buenos Ayres Great Southern Company pay annuities of £90,788 and £10,917 respectively to the Buenos Ayres Western Company, and the Buenos Ayres Great Southern Company has paid £1,032,930 in 4½ per cent. debenture stock. Extensions have been constructed, but an additional 33 miles of line have been sold to the Buenos Ayres Great Southern Company, and the number of miles now owned is 1,867. The government has undertaken not to grant any railway concession within 20 kilometres of the company's line. The company is interested, jointly with the Buenos Ayres Great Southern Railway Company, in the Buenos Ayres Midland Railway Company, Limited.

The company is subject to clauses 8 and 9 of the new Argentine National Railway Law (No. 5,315) passed on September 30, 1907 (commonly called the Mitre Law), which provide that the company shall be free from duties on imported materials and from national, provincial and municipal taxation until January 1, 1947, in consideration of the payment of 3 per cent. of the net receipts (to be used for the construction and improvement of access roads and road bridges to the stations, such net receipts being determined by deducting 60 per cent. from the gross receipts as working expenses). The government has the right to vary the tariffs when for three consecutive years the gross receipts

exceed 17 per cent. on the recognised capital and the working expenses do not exceed 60 per cent.; should the working expenses exceed 60 per cent., a proportionate increase of the limit of 17 per cent. is allowed before the government can intervene.

The authorised capital is £26,000,000—£17,347,660 in ordinary stock, £3,400,000 in 4½ per cent. guaranteed preference shares of £10, £300,000 in 5 per cent. preference shares of £10, £2,552,340 in 4½ per cent. preference shares of £10, and £2,400,000 in shares of £10 (class not specified), with perpetual debenture stock limited to two-thirds of the share capital. The capital issues are now as under:—

£17,347,660 Ordinary stock.

£300,000 Five per cent. non-cumulative preference shares of £10, fully paid. In the event of liquidation, these shares are to get back £11 per share before the ordinary stock receives anything. Dividends on these shares are paid half-yearly.

£2,552,340 Four-and-a-half per cent. preference shares of £10, fully paid. The dividend is non-cumulative, and is paid half-yearly, and the shares rank for dividend after the foregoing 5 per cent. preference, while in regard to capital they also rank after the foregoing preference, but in the event of the liquidation of the company are to get back £11 per share before the ordinary stock receives anything.

£7,872,203 Four per cent. debenture stock, irredeemable, with interest payable January 1 and July 1. Included in this amount is £1,750,000 stock issued in March, 1914, at 90 per cent., and ranking for interest as from July, 1914.

£1,000,000 Five per cent. mortgage bonds, of £100, £500 and £1,000 each, issued in 1888, and sold to the public in June, 1892, by Baring Brothers and Co., Limited, 8, Bishopsgate, E.C. (on behalf of the firm of Baring Brothers and Co.), at the price of 99½ per cent. Coupons are payable January 1 and July 1, and the principal is repayable June 7, 1925, a sinking fund of 1 per cent. per annum accumulating against that date. All payments are made by Baring Brothers and Co., Limited. The bonds are specially secured by a first mortgage on certain railways.

£1,000,000 Five per cent. terminable (1925) debenture stock or bearer debentures, issued in May, 1915, at 98 per cent. The interest dates are January 1 and July 1, and the loan is repayable at par on July 1, 1925, while on any January 1 or July 1 after the year 1915 the debenture stock and debentures are exchangeable without fee at the option of the holders for an equivalent amount of the existing 4 per cent. debenture stock above mentioned. The debentures are of £100 each, and debenture stock and debentures of this issue are not interchangeable.

The accounts are made up annually to June 30, and submitted in October, but an interim report is usually circulated in March (none, however, in 1915), and an interim dividend (in 1915 of 2 per cent.) is paid in April. For the four years to 1901-2 the ordinary capital got 6 per cent. each year; for the eleven years to 1912-13, 7, with a bonus of ½ per cent. for 1910-11 in addition; and for 1913-14 and 1914-15, 5. Dividends were formerly paid free of income tax, but are now paid subject to income tax. Burma Railways Company, Limited.—*Directors:* Lt.-Col. A. G. Begbie (Chairman), Sir H. P. Burt, K.C.I.E. (Government Director), G. A. Anderson, J. A. Bryce, M.P., W. Home, C.I.E. (Managing Director), R. Miller and Rt. Hon. Sir C. C. Smith, G.C.M.G. *Accountant and Registrar:* F. C. Franks. *Office:* 199, Gresham House, Old Broad Street, E.C.—The company was registered July 21, 1896, to take over from the Secretary of State for India, and work, the open system of railways in Burma, then about 834 miles in length, "to complete and eventually work lines in progress (about 360 miles), and to construct and work such other lines as the Secretary of State may think fit to entrust to it, the Secretary of State arranging to contribute

further capital, or enabling the company to raise the same." The capital of the company was in the first instance fixed at £2,000,000 in shares of £10, on which the Secretary of State for India guarantees a dividend of 2½ per cent. per annum, but the authorised amount has since been increased to £3,000,000, while the net earnings of the railway (other than the extensions) are to be applied—in the first place in discharging any interest on debentures; secondly, in repaying the government the guaranteed interest; thirdly, in paying to the government interest at 2½ per cent. per annum on the capital expended by the government up to the date of the formation of the company, and also of interest at a rate which may be agreed upon on any capital subsequently contributed by the government; and any surplus is to be divided between the government and the company in the proportion of four-fifths to the government and one-fifth to the company. Further, the Secretary of State guaranteed that until June 30, 1901, the company's one-fifth share should not be less than ¼ per cent. per annum on the share capital. By a subsequent agreement the latter provision was modified as from July 1, 1908, the surplus profits, derived from the working of the company's lines, being divided between the Secretary of State and the company in proportion to their respective capitals, which arrangement gives to the company twelve thirty-fifths, and to the government twenty-three thirty-fifths of the surplus profits, while as regards the extensions (the capital for which was provided by the Secretary of State and which are worked by the company), separate accounts for each are kept, and whenever the net earnings of any section exceed 3½ per cent. of the capital cost of the same one-fourth of such surplus is to be paid to the company. The government has the right, on giving twelve months' notice, to determine the contract for the whole of the lines, including the extensions, on December 31, 1928, and if not then determined on December 31, 1935, if not then determined on December 31, 1941, or at the end of any subsequent tenth year, in which case the Secretary of State will hand over to the company a sum necessary to repay the share capital at par, and to indemnify the company against all such liabilities, including debentures, as may have been incurred with his sanction. There is no power to pay the purchase-consideration by means of an annuity. The lines are now 1,599 miles in length, including two extensions for 186 miles (opened in 1907 and 1908), and third extension of 70 miles opened between June, 1912, and February, 1915—this last extension is part of the Southern Shan States Railway, 34 miles of which has yet to be constructed.

Of the share capital, £2,000,000 in shares of £10 was issued in July, 1896, through Messrs. N. M. Rothschild and Son, at par, and has been called up and converted into stock, and £1,000,000 issued in June, 1908, at 4s. per share premium, has been similarly treated. In February, 1902, an issue of £1,250,000 3 per cent. debenture stock was made at 96 per cent., with interest payable May 15 and November 15, and the principal repayable at par at the company's option, with the sanction of the Secretary of State, on or at any time after May 15, 1932, on twelve months' notice; both principal and interest are guaranteed by the Secretary of State and Council of India to the company as trustee for the debenture stock holders. The company has power to increase the amount of the debenture stock up to £3,000,000. The government capital in the undertaking amounts to £5,913,306, but for the purpose of division of surplus profits it is fixed at £5,750,000, and at March 31, 1914, the advances by the Secretary of State amounted to 1,04,64,868 rupees, these carrying interest at 3¾ per cent.

The accounts are now made up annually to March 31, and submitted in December. From July 1, 1901, the interest paid under the contract was reduced to 2½ per cent. per annum, and the surplus dividend for 1901-2, 1902-3 and 1903-4 was increased to 1½ per cent. each time; for 1904-5 a surplus dividend of 2 per cent. was paid; for 1905-6 and 1906-7, £1 18s.; for 1907-8 and 1908-9, 2 (the shares issued in June, 1908, received on January 1, 1909, payment of the guaranteed interest, and a special dividend of ¾ per cent.—actual—provided by the Secretary of State, while as from that date they were converted into stock); for 1909-10 and 1910-11, 2; for 1911-12, 2¼; for the nine months to March 31, 1913, 2½ per cent. (actual); and for the year 1913-14, 3½. Carried forward, £77,257. On account of 1914-15 an interim dividend of 1¼ per cent. was paid in July, 1915, and a further surplus dividend of 1¼ per cent., together with a bonus of 1 per cent., is announced on the ordinary stock, making the total distribution on the ordinary stock for 1914-15 6 per cent. Both guaranteed interest and excess payments are made on January 1 and July 1.

Voting power, one vote for each £10 of stock. Director's qualification, £1,000 of stock. The fee charged on transfers is 2s. 6d. per deed, the common form being used; both ordinary and debenture stocks are transferable in multiples of £1. The company has compounded with the inland revenue for the stamp duty payable on transfers of the ordinary stock, but transfers of the debenture stock are liable to duty. The company has also adopted the provisions of the Forged Transfers Acts of 1891 and 1892, but no charge is made for the protection thus afforded. The company is quoted in the official list. Latest prices—ordinary stock, 104; debenture stock, 68⅜.

Canadian Northern Railway Company.—*Directors:* Sir W. Mackenzie, Kt. (President), Sir D. D. Mann (Vice-President), D. B. Hanna, R. J. Mackenzie, Z. A. Lash, K.C., F. Nicholls and R. M. Horne-Payne (Director representing the company in Europe). *Office:* Toronto. *Secretary in London:* H. W. Further, the government of the Dominion of Canada entered into contracts for the transport of mails, &c., agreeing to pay to the company for twenty years the sum of $80,000 per annum; fixed rates are charged for the carriage of such mails and supplies, and the difference between the yearly total of such charges and the $80,000 per annum is, if in favour of the company, paid annually by the government, but if in favour of the government is not payable by the company till the expiration of the twenty years, the difference in either case bearing interest at 4 per cent. The company's land grant for the whole of the railway, including branches, will be about 2,455,000 acres, of which 533,000 acres are retained by the government of the Dominion of Canada as collateral security for the due performance by the company of its contracts, and 1,333,333 acres have been mortgaged to secure $2,000,000 of 4 per cent. twenty-year land grant bonds, the interest on which is provided by the assignment of the above-mentioned mail contracts.

The bill also provided for the increase of the share capital from $77,000,000 to $100,000,000, of which $40,000,000 has become the property of the Canadian Government, and $60,000,000 is held by Mackenzie, Mann and Co., Limited, the latter having turned over to the Canadian Northern Railway Company their stockholdings in the allied railways, and their beneficial interests in the associated express, steamship, telegraph, &c., properties. Of the $45,000,000 of new securities to be issued under government guarantee £3,000,000 of debenture stock was placed in July, 1914, and £500,000 in February, 1915.

Baker, C.V.O. *Office :* Montreal.—The company was incorporated in February, 1881, for the purpose of constructing a line of railway to connect the seaboard of British Columbia on the Pacific Ocean with the railway system of Canada, and of operating the same for ever. The Dominion government gave a subsidy of $25,000,000 in cash, 25,000,000 acres of land, and sections of railways, some built and others to be built, to the extent of 713 miles. To compensate the company for the extra expense incurred in anticipating by as much as five years the contract time for the completion of the road, further assistance was subsequently given by the government, the most important being the purchase back in 1886 of 4,528,676 acres of the land grant at $1.50 per acre. The company now owns and leases 13,361 miles (including 383 miles worked for owners, and 60 miles under construction), and controls in all 18,090 miles. The company's accounts are now made up annually to June 30, and submitted in Montreal the first Wednesday in October. For 1900-1 and 1901-2 the dividend was 5 per cent. each year ; for 1902-3, 5½ ; for each of the six years to 1908-9, 6 ; and for 1909-10, 6½, while additional distributions of 1 per cent. per annum were made in 1907, 1908, 1909 and 1910 out of the proceeds of land sales. For 1910-11 the total dividends paid to the shareholders aggregated 9½ per cent. (7 per cent. from railway and steamship earnings, and 2½ per cent. from interest on land sales and from other extraneous assets), and, as foreshadowed at the annual meeting in 1910, and promulgated in a circular issued to the shareholders in March, 1911, a plan was formulated by which the shareholders might in future receive greater advantage from the extraneous assets of the company than they had in the past. The plan involved the separation in the accounts of the income from the extraneous assets (consisting of interest on investments, dividends, rentals and like income) from that from the railway and steamship lines, the former income being placed with the interest on the proceeds of land sales, already kept separate, and together forming a special income account. For 1911-12, 1912-13, 1913-14 and 1914-15, the total dividends paid each year were 10 per cent., 7 per cent. being, as regards the first two periods, from railway and steamship earnings, and, as regards the last two, from the earnings of the railway alone, and 3 per cent. from such special income (the 10 per cent. dividend being paid in equal instalments about the end of March, June, September and December). For the year 1914-15 there was a surplus of $89,914 on the earnings of the railway, and $3,169,332 on special income account, the total accumulated surplus on both accounts (after deducting the balance dividends for 1914-15, paid in October, 1915) being $74,905,845, besides which there was at June 30, 1915, a "surplus in other assets of $125,473,157," and at the same date there were reserves for steamship and equipment replacement and for contingencies aggregating $10,852,465. A quarterly distribution at the rate of 10 per cent. per annum is to be made on the shares on December 31, 1915. In 1902, 1904, 1906, 1908, 1909, 1912 and 1913 the shareholders had allotted to them at par, as regards the first four issues, 125 per cent. for the 1909 issue, 150 per cent. for the 1912 issue, and 175 per cent. for the 1913 issue, new shares to the amount, respectively, of 3 shares, 2 shares, 2 shares, 2 shares, 2 shares, 1 share and 3 shares, to each 10 old shares held at the time of issue ; the market values of these rights were equivalent respectively to 3⅜, 5⅞, 12, 9, 9¼, 8 and 19 per cent. on the holdings in respect of which the rights were allotted, and

the rights of subscription to the special investment fund note certificates were valued at $4\frac{7}{8}$ per cent. thereon. The net earnings for the three months to September 30, 1915, were $10,988,000, as compared with $11,509,000 for the same period in 1914.

At the annual meeting in October, 1913, the president indicated that the directors had had under consideration the desirability of conveying the company's lands, townsites and other interests to a company in exchange for all its capital stock to be held in the company's treasury and taken into the balance sheet with the other assets, but that there were disadvantages attaching to a conveyance of that description, particularly with reference to lands, and that probably the same end might be accomplished by the creation of an Investment Fund to be administered by trustees, and he stated that in any event the directors would endeavour before the publication of the next annual report to devise some plan for reconstructing the Special Income account, and showing the extraneous assets in more definite and tangible form. In redemption of that promise the earnings from ocean steamships now appear in the annual report in Special Income account, as also do the proceeds from townsite sales, and the net earnings of Pacific Coast steamships, the commercial telegraph, the news department, and the hotels; and the extraneous assets, consisting of collieries, shares in mining, smelting, light and power companies, unsold agricultural, irrigated timber, and townsite lands, coal, natural gas and petroleum rights, and demonstration and improved farms, &c., appear in the balance sheet under the head "Other Assets: Schedule B" (at June 30, 1915, $131,241,869). The report for 1913-14 stated, with regard to the issue of Special Investment Note Certificates, that $35,571,960 had been advanced from current funds to meet the cost of additional mileage and ocean steamers, against which no securities had been issued or sold; that, in the ordinary course, 4 per cent. debenture stock would have been issued to meet the expenditure, but that, market conditions having been unfavourable for selling that security in large amounts, the directors decided to create a Special Investment Fund composed of the deferred payments on land already sold, and securities in which land funds had been invested, aggregating $55,000,000, and to issue against that fund, and the company's credit, ten-year Note Certificates to the amount of $52,000,000, carrying interest at 6 per cent. per annum, to be offered to the shareholders at 80 per cent. In December, 1913, a circular was issued to shareholders of record on December 23 containing the terms of the issue (see below), accompanied by subscription warrant entitling them to subscribe for $100 Note Certificates in respect of each five shares held. The Note Certificates, with interest, are to be paid off in instalments without any encroachment on the revenue from traffic, and the 4 per cent. consolidated debenture stock can be marketed when most advantageous.

In 1915 the company transferred to a subsidiary, entitled the Canadian Pacific Ocean Services, Limited, its steamships on the Atlantic and Pacific, together with its interest in the Allan Line Steamship Company, Limited, receiving as purchase-consideration £1,962,910 of the share capital of the Canadian Pacific Ocean Services, besides 5 per cent. first debentures for £2,865,860.

All the outstanding 5 per cent. first mortgage bonds were retired in 1915, and the capital is as under, all the issues, except the special investment fund note certificates and the equipment obligations, being quoted in the official list (particulars of the $3\frac{1}{2}$ per cent. land-grant bonds and stock, no longer a liability of the company, are now given in this work in the statement of the Canadian government debt):—

The Land Grant.—In addition to the original grant of 25,000,000 acres, the company has received through its branch and subsidiary lines grants to the amount of 9,816,202 acres; in January, 1911, 102,174 acres in the irrigation belt were acquired from the Hudson's Bay Company at $13½ per acre; and in 1912 209,559 acres were acquired from the Alberta Railway and Irrigation Company.

In the accounts for the year 1913-14 the land accounts appear in new form, the unsold lands now valued, as stated above, being included in the balance sheet among "other assets," schedule B, together amounting at June 30, 1915, to $131,241,869, and in the balance sheet, under the heading Special Investment Fund, appear as assets the deferred payments on land and townsites, government securities, &c., which have been set apart to meet the interest on the Special Investment Fund Note Certificates and the principal of the issue at maturity. The deferred payments on land and townsites not so hypothecated are shown separately. The unsold acreage, amounting to 8,314,186 acres, is valued at prices ranging from $40 to $1 per acre; the directors and the officers of the land department are satisfied that these lands will eventually command much higher prices on the average than those given.

The sales of agricultural land in the year to June 30, 1915, were 231,297 acres for $3,742,115, being an average of $16·17 per acre. Included in this area were 6,550 acres of irrigated land, which fetched $55·22 per acre, so that the average price of the balance was $15·04 per acre.

Central Africa Railway Company, Limited.—*Directors:* C. F. Campbell, N. B. Dickson, T. L. Gilmour, L. Oury and G. Périer (Brussels). *Secretary:* H. Folliott. *Office:* Thames House, Queen Street Place, E.C.—The company was registered April 17, 1913, for the purpose of constructing a railway, approximately 63 miles in length, from Port Herald, the southern terminus of the Shiré Highlands Railway, to the northern bank of the Zambesi River, under concessions granted by the government of the Nyasaland Protectorate and by the government of Portugal. The Nyasaland concession is in perpetuity, subject to the right of purchase by the government on and after January 1, 1937, on twelve months' notice, the terms of such purchase to be—the repayment of the capital expended, plus a sum equal to five years' purchase of the average net receipts for the preceding five years, less any necessary provision for depreciation. The Portuguese concession is for a term of 99 years from July 1, 1912, at the end of which period the railway in Portuguese territory, with its equipment and rolling stock, and the bridge over the Zambesi River, revert to the government without payment. Both concessions provide for the free use of government land, subject only to the payment of compensation to tenants or occupiers. With the consent of the Portuguese government the Nyasaland government may purchase the whole railway in 1937. The railway is being constructed by contractors (commenced in May, 1913), and is to be worked by the Shiré Highlands Railway Company for a period of at least ten years from the date of the opening for public traffic, on the terms of the net cost of working and maintenance, plus 10 per cent. of the excess for the first five years, and 5 per cent. thereafter, and if the gross earnings shall be less than the working and maintenance expenditure, such deficiency is to be borne by the Shiré Highlands Company. During the period of operation all moneys which the company may receive from the government and (or) the Shiré Highlands Railway (except a sum not exceeding £250 half-yearly for London administration expenses, to be received from the Shiré Highlands Company) are to be assigned to trustees for the preference shareholders up to an amount necessary to secure the payment of the preference dividend. It is further provided in the contract that if "in any of the ten years next after the date when it shall be proved to the satisfaction of the government that not less than £400,000 capital available for the construction and equipment of the railway has been subscribed by responsible persons, and paid up in cash to the extent of not less than 25 per cent., the earnings of the railway, as therein defined, shall be less than a sum equal to interest at the rate of 4 per cent. per annum on the capital for the time being paid up, or on a sum of £500,000, whichever shall be the less, the government will pay and make good to the company the amount of such deficiency."

The authorised capital is £525,000, £500,000 being in cumulative and participating preference shares of £1, and £25,000 in ordinary shares of 5s., and the whole amount has been subscribed and paid-up, the ordinary shares having been issued as fully paid in payment for the concessions. The preference shares rank first for 4 per cent. cumulative dividends, and are to take half of the remaining divisible profits, the other half to go to the ordinary shareholders. The preference shares have also a priority as to capital in the event of a winding up, with any arrears of dividend, and are to take 50 per cent. of the remaining assets after repayment of the ordinary shares, the other 50 per cent. to go to the ordinary

shareholders. The preference shares were offered for subscription in April, 1913, by Messrs. Emile Erlanger and Co., 8, Crosby Square, E.C., and the Standard Bank of South Africa, Limited, 10, Clements' Lane, E.C., at par. No additional preference shares are to be issued, and no charge is to be created on any part of the undertaking without the consent of at least 51 per cent. of the preference shareholders.

The accounts are made up annually to December 31, and submitted in April. The line was completed in April, 1915, and was opened for traffic in the following month. The preference dividend is paid half-yearly on March 31 and September 30 (paid to September 30, 1915). Voting power, one vote for every share, preference or ordinary. Director's qualification, £250 of shares of either class, except for directors appointed under special circumstances. Transfer form, common; fee, 2s. 6d. Telephone number, 3497 City.

Central Argentine Railway, Limited.—*Directors:* Sir J. W. Todd, Bart. (Chairman), C. Darbyshire, C. Gairdner, Col. F. J. G. Murray, C. P. Ogilvie, J. W. Theobald and Sir A. Williamson, Bart., M.P. *General Manager:* C. H. Pearson. *Secretary:* F. Fighiera. *Office:* 3A, Coleman Street, E.C.—The company was registered February 10, 1873, as the Buenos Ayres and Campana Railway Company, Limited, in 1884 the name was changed to the Buenos Ayres and Rosario Railway Company, Limited, and late in 1908 as above. From time to time concessions for additional lines have been obtained; in 1900 the Santa Fé and Cordova Great Southern Railway Company, Limited, and the Santa Fé and Cordova Southern Extension Railway, Limited, were absorbed, and as from January 1, 1902, the Central Argentine Railway Company, Limited, was amalgamated with the Buenos Ayres and Rosario; the total number of miles is 3,306, and concessions are held for some 1,400 miles of new lines. The company has no monetary guarantee, and the government has no defined right of purchasing the company's undertaking except as regards the Western of Santa Fé Railway of 125 miles, which may be taken over by the government at any time at cost price, plus 20 per cent. The company is subject to clauses 8 and 9 of the new Argentine National Railways Law (No. 5,315) passed on September 30, 1907 (commonly called the Mitre Law), which provide that the company shall be free from duties on imported materials and from national, provincial and municipal taxation until January 1, 1947, in consideration of the payment of 3 per cent. of the net receipts (to be used for the construction and improvement of access roads and road bridges to the stations), such net receipts being determined by deducting 60 per cent. from the gross receipts as working expenses. The government has the right to vary the tariffs when for three consecutive years the gross receipts exceed 17 per cent. on the recognised capital and the working expenses do not exceed 60 per cent.; should the working expenses exceed 60 per cent. a proportionate increase of the limit of 17 per cent. is allowed before the government can intervene.

Early in 1912 pre-existing 7 per cent. preference shares were converted into 4 per cent. debenture stock, and pre-existing 7 per cent. preference stock into 4½ per cent. preference stock, each of such an amount as will give the respective holders the same annual return as they previously enjoyed. The authorised capital is now £41,694,468, and the company has power to borrow on debenture stock up to an amount equal to two-thirds of the nominal share capital from time to time allotted. The following issues have been made:—

£28,186,950 Consolidated ordinary stock.

£811,800 Deferred stock, ranking for 5 per cent. out of the profits of each year after payment of 5 per cent. on the ordinary, surplus profits to be divided pari passu amongst the holders of consolidated ordinary and deferred stocks irrespective of class.

£9,695,718 Four-and-a-half per cent. preference stock (non-cumulative). The amount of this class of capital is limited to one-half of the ordinary and deferred stock outstanding. Included in this amount is £2,395,243, issued in 1912 in conversion of pre-existing 7 per cent. preference stock, and £2,273,620 subscribed in May, 1912, the proceeds of which were to be applied towards the construction of extensions, the electrification of suburban lines, etc.

£13,436,764 Four per cent. debenture stock. The majority of this stock took the place in 1910, by compulsory conversion, of pre-existing 4 per cent. Rosario debenture stock, 4 per cent. Central debenture stock and 6 per cent. Central debenture stock, holders of the old stocks receiving such an amount of new debenture stock as would yield the same income as the old securities, except in the case of the 6 per cent. Central debenture stock, holders of which received such an amount of 4 per cent. debenture stock as would yield £5 16s. 9d. per cent., while £581,158 was issued in 1912 in conversion of pre-existing 7 per cent. preference shares, and £2,500,000 was issued in January, 1914, to the existing proprietors at the price of 90 per cent., this stock ranking equally with that previously existing, as from January 1, 1914, upon the full nominal amount. Holders of a large portion of the old 3½ per cent. Central debenture stock have also accepted an offer of conversion, referred to below. Interest is payable January 1 and July 1, and the stock is redeemable at par on or before January 1, 1988, on six months' notice, if the Argentine government shall exercise its power of purchasing the company's line, or any part thereof, while the principal is secured as a first floating charge upon the whole of the company's present undertaking, subject to any charges in favour of the 4½ per cent. Western annuity and the 3½ per cent. Central debenture stock unconverted.

£2,017,500 Capitalised value of annuity, taken over from the Central Argentine Railway Company. On this sum £90,787 is payable annually to the Buenos Ayres Western Railway, Limited, for 201¾ miles of railway, purchased from that company. Interest is payable March 31 and September 30, and the annuity is a first charge on the lines acquired.

£113,564 Three-and-a-half per cent. Central debenture stock. Interest is payable January 1 and July 1, and the stock is irredeemable before December 31, 1979. Holders of this stock had the option to convert into 4 per cent. debenture stock on November 1, 1910, at the rate of £88 of new for each existing £100 of stock; so far, holders of about 90 per cent. of the total have accepted this offer, which is still open.

£1,000,000 Six per cent. three-year notes of £50, £100, £500 and £1,000 each, issued to stockholders and debenture stockholders in November, 1914, at par. Coupons are payable May 15 and November 15, and the principal is repayable November 15, 1917.

£2,000,000 Five per cent. five-year notes of £50, £100, £500 and £1,000 each issued to ordinary and debenture stockholders in April, 1915, at 98 per cent. The accounts are now made up annually to June 30, and submitted in October, and an interim dividend on the ordinary stock (in 1915 of 2 per cent.) is paid in April. For the five years to 1912-13 6 per cent. per annum was paid on both ordinary and deferred; and for 1913-14 and 1914-15, 5. Of the above-mentioned amount of $45,091,000, $1,167,000 was on June 30, 1915, in the company's treasury. Latest price, 121½.

Central Railway Company of Canada.—*Directors:* Hon. W. Owens (President), C. N. Armstrong (Vice-President), J. A. C. Ethier, K.C., M.P., W. D. Hogg, K.C., H. W. Raphael and J. D. Wells (Secretary). *London Committee:* T. Carmichael and Sir T. H. C. Troubridge, Bart. *Office:* 103, St. François Xavier Street, Montreal.—The company was incorporated under act of Parliament of Canada in 1903 under the title of the Ottawa River Railway Company, while in 1905 the name was changed as above, and other acts have been obtained, increasing the company's powers, which now relate to the construction of a railway and branches of a total length of 660 miles. There are at present constructed 58 miles of railway, of which 38 miles are leased to and operated by the Grand Trunk Railway Company, which pays a rental of $19,000 per annum, while 380 miles, which were under construction, were to have been completed by December 31, 1915; since the beginning of 1914, however, work has been suspended on this contract, and will remain so until new financial

arrangements can be made. In July, 1911, there was issued £393,250 of first mortgage 5 per cent. bonds—£100,000 in Paris and £293,250 in this country and Canada; holders of these bonds agreed to accept in exchange an equivalent amount of a new issue of first mortgage 5 per cent. bonds for £2,600,000, of which £1,225,000 was offered for subscription at 90 per cent. in April, 1914, through Parr's Bank, Limited, and Messrs. Dent, Palmer and Co., acting on behalf of the company and contractor, and £875,000 was reserved for offer in New York and Montreal; of the £1,225,000 offered here £400,000 had been applied for prior to the issue of the prospectus, and, including bonds given in exchange for the July, 1911, issue, there has been placed altogether about £850,000. The bonds are to bearer, of £25, £100 and £200, and $100, $500 and $1,000 each; they are secured by a first mortgage on all the railways constructed, or to be constructed, and "on all land grant subsidies to which the company is or may be entitled in respect of the mortgaged property, and on all cash subsidies received, or to be received, from the government of Canada or of the Provinces of Ontario and Quebec"; have coupons payable January 1, April 1, July 1 and October 1, and are to be repaid January 1, 1964, but they are redeemable at the option of the company at 105 per cent. on July 1, 1920, or on any interest date thereafter, subject to three months' notice, while they are to be redeemed at 105 per cent. on a reconstruction or amalgamation. Proceeds of land sales are applicable to the payment of interest if necessary, and, subject thereto, to the purchase of bonds at or below 105 or to redemption at 105 by drawings. "The Canadian government has already voted, on certain sections of the line, the usual subsidy. A further grant to cover the remainder of the line between Montreal and Midland has been applied for." The trustee for the bondholders is the City Safe Deposit and Agency Company, Limited, 15, Throgmorton Avenue, E.C., and the trust deed provides that cash subsidies are to be security only for the interest upon the bonds. The authorised share capital is $7,000,000, of which $2,328,500 has been issued; "the London committee will from time to time have placed with them the voting power on a majority of the outstanding common stock of the company to be held until the company has for two successive years earned the interest on its bonded debt." Interest was regularly paid down to July 1, 1913, but that due October 1, 1913, and since is in arrear. No report has yet been received. The bonds may be registered as to principal only, at the option of the holders, and registered bonds may be again exchanged to bearer, either in London (at the office of Messrs. F. P. Armstrong and Co., 362-4, Winchester House, E.C.) or Montreal, no charge being made for either operation. Transfers of registered bonds can be effected at the office of Messrs. F. P. Armstrong and Co., the fee charged being 2s. 6d. Telegraphic address, Cenrycan, London. Telephone number, 578 London Wall.

Central Railway of Ecuador, Limited.—*Directors:* N. G. Doyle, H. F. Knight and A. Townsend. *Secretary:* W. H. Barnes. *Office:* 55, London Wall, E.C.—The company was registered August 2, 1910, to acquire a concession granted in 1909 by the government of Ecuador for seventy-five years, for the construction and working of a railway from the Port of Manta to Santa Ana, a distance of 60 kilometres, and the erection of a mole; at the end of the concession the railway and mole are to become the property of the government, without payment. The authorised capital is £100,000 in shares of £1, all of which has been issued as fully paid excepting 7 shares. There are also 6 per cent. (see below) first mortgage bonds, of £20 each, for £168,460, outstanding balance of £175,000, with interest payable May 1 and November 1, free of income tax, and the principal repayable in 33 years from May, 1912, by means of a sinking fund of 1 per cent., to be applied by drawings annually in May for payment forthwith, or by purchase in the market. Both interest and sinking fund are guaranteed by the government of Ecuador. Interest on the above-mentioned first mortgage bonds was duly paid to May 1, 1913, but default took place in the interest due November 1, 1913, and the bondholders in January, 1914, agreed that the interest on the bonds due November 1, 1913, and onwards should be payable only as to 3 per cent. per annum out of the moneys received from the government of Ecuador under its guarantee, the payment of the balance of 3 per cent. to be contingent on profits, the latter 3 per cent. to be non-cumulative; no payment has, however, yet (November 12, 1915), in respect of interest due November, 1913, and onwards, been made. At the meeting in January, 1914, the first mortgage bondholders also agreed to the creation and issue of £100,000 of 6 per cent. prior lien bonds of £20 each, with interest payable May 1 and November 1, less income tax, and redeemable in thirty-three years from May, 1914, from a sinking fund of 1 per cent. per annum, to be applied by annual drawings in May for payment

forthwith or by purchase in the market, but none have yet been issued. The accounts are made up annually to December 31, but have not been issued for some years. This notice, however, has been officially revised. Voting power, one vote for each share. Director's qualification, £200 of shares. Transfer form, common; fee, 2s. 6d. Central Uruguay Eastern Extension Railway, Limited.—*Directors:* F. Henderson (Chairman), H. C. Allen, Sir H. Bell, Bart., F. Holt and W. Parish. *Secretary:* G. R. Cable. *Office:* River Plate House, Finsbury Circus, E.C.—The company was registered February 18, 1889, to acquire a concession granted by the government of Uruguay for a railway between Toledo (a station on the North-Eastern of Uruguay Railway) and Artigas, a town on the Brazilian frontier. On April 20, 1906, a new agreement was entered into with the government of Uruguay providing for the completion of the line to a point on the Brazilian frontier, and an extension of about 64¼ miles to the town of Treinta y Tres. Under the original concession the government guaranteed, for a term of forty years, interest at the rate of 7 per cent. per annum on a capital of £5,000 per kilometre constructed, the guarantee to commence from the opening for the public service of each section of 50 kilometres. Under the scheme of arrangement of Uruguayan national liabilities formulated in 1891, the guarantee for the remaining period of the concession was reduced from 7 to 3½ per cent., payable quarterly in gold, the company being allowed to retain the first 1½ per cent. of net earnings before any rebate on account of guarantee begins to accrue to the government. The company also participated in net earnings beyond a certain amount, but a question arose with the government as to the basis for ascertaining the working expenses. Under the new agreement entered into in 1906, however, it is provided that when the net earnings (after allowing 40 per cent. of the gross receipts, plus a constant of $87.38 per kilometre of line for each six months, as working charges) exceed 5 per cent. of the guaranteed capital, the excess up to 6 per cent. and one-third of the net earnings between 6 and 8 per cent. is to be retained by the company, and the remaining two-thirds, and the whole of the net earnings in excess of 8 per cent. on the real capital, is to be applied wholly in repayment of sums advanced under the guarantee. Further, the government reserved the right to intervene in the tariffs when more than 8 per cent. is earned on the real capital. The government also extended its period of guarantee for 35 years from the date of the above agreement of April, 1906. In January, 1909, a further agreement was entered into with the government whereby it was agreed to postpone the construction of the fourth section (Melo to Centurion, 30 miles) of the extension from Nico Perez to the Brazilian frontier, and proceed at once with the line to Treinta y Tres (64¼ miles), and in consideration therefor the company is allowed a more liberal basis for calculating the working expenses for guarantee purposes, viz., 45 per cent. of the gross earnings plus a constant of $88.50 per kilometre of line for each six months, such modified basis to commence to operate from the date of the opening of the first section of the Nico Perez to Treinta y Tres line, viz., October 1, 1910, to public traffic, and to remain in force for ten years, to be readjusted thereafter on the basis of the average cost of working the combined Central Uruguay system during such ten years. For the service of the national debt and the railway guarantees the government has hypothecated 45 per cent. of the gross receipts of the customs houses of the republic, and should these revenues prove insufficient, the deficiency is to be made up from other sources of revenue; on the amount so provided the interest of the national debt forms a first charge, the railway guarantees ranking next. The line from Toledo to Nico Perez, 128 miles, has been open since September, 1901; that from Nico Perez to Melo, 118½ miles, since August 1, 1909; and that from Nico Perez to Treinta y Tres, 64¼ miles, since October 1, 1911, making the total length of railway operated 311 miles. The line is the property of the company in perpetuity, but the option is reserved to the government to purchase the undertaking after 25 years' working at a fair valuation at the time of expropriation, plus 20 per cent. profit.

The authorised capital is £1,800,000 in shares of £10, £900,000 being 5 per cent. non-cumulative preference, having also a priority as to capital, and £900,000 ordinary, while power was taken to issue debenture stock up to two-thirds of the subscribed capital, and £860,000 of each class of shares has been issued and paid up. Of the preference capital, £750,000 was issued in May, 1906, £25,000 in November, 1909, £25,000 in February, 1911, and £60,000 in November, 1911, and of the ordinary capital £75,000 was issued to the contractors for the new lines in July, 1909, £25,000 in February, 1911, and £60,000 in November, 1911. In January, 1891, 5 per cent. debenture stock for £463,400 was issued at 95 per cent.; since November, 1908, a further amount of £603,266 has been issued at par in part payment of the lines in course of construction, and £80,000 was sold in the market from June to December, 1913, at various prices, making a total issued of £1,146,666, with interest payable January 1 and July 1, and (excepting in the event of the line being purchased by the government, when the stock would be repayable at par) the stock is irredeemable. There is also a loan of £56,193.

The accounts are made up annually to June 30, and submitted about October, an interim dividend (in 1915 of 3s. per share) being paid in April. For 1902-3 and 1903-4 5s. 6d. per share was paid each year; for 1904-5, 8s.; for 1905-6, 8s. 6d.; for 1906-7, 9s.; for 1907-8, 9s. 6d.; for 1908-9, 7s. 6d.; for 1909-10, 9s. 6d.; for 1910-11, 10s. 6d.; for 1911-12, 11s. 6d.; for 1912-13, 9s. 6d.; for 1913-14, 7s. 6d.; and for 1914-15, 5s. 3d. Carried forward, £1,542. The government guarantee is being regularly met. An agreement has been entered into with the Central Uruguay Railway Company of Montevideo, Limited, under which that company is to maintain and work the railway in perpetuity, paying to this company a proportion of the gross receipts, varying on a sliding scale from 40 to 55 per cent. Under this agreement, in the year 1905-6 there was a profit on working of £55,292; in 1906-7, £58,454; in 1907-8, £61,736; in 1908-9, £72,807; in 1909-10, £97,582; in 1910-11, £112,829; in 1911-12, £129,564; in 1912-13, £129,238; in 1913-14, £118,710; and in 1914-15, £92,865. Voting power, one vote for every share, irrespective of class, up to 5, and one for every additional 5 shares. Director's qualification, 100 shares, irrespective of class. Transfer form, common; fee, 2s. 6d.; debenture stock is transferable in amounts of £1 and multiples. Telegraphic address, Durazno, Ave, London. Telephone number, 1101 London Wall. The company is quoted in the official list. Latest prices—ordinary, 86s.; preference, 6¾; debenture stock, 85.

Central Uruguay Railway Company of Montevideo, Limited.—*Directors:* F. Henderson (Chairman), H. C. Allen, Sir H. Bell, Bart., F. Holt and W. Parish. *Secretary:* G. R. Cable. *General Manager in Montevideo:* C. W. Bayne. *Offices:* River Plate House, Finsbury Circus, E.C.—The company was formed to carry out a concession upon terms which, in 1878, were rearranged, and the company was then reconstructed. The railways owned are 271 miles in length (exclusive of the Western Railway referred to below), and are the property of the company in perpetuity, and there is no option of government purchase, and no monetary guarantee exists. After 1918 certain rights as to freedom from taxation expire. The company took Uruguayan government securities to the amount of £224,136 in settlement of sums due for arrears of guarantee, and in commutation of future claims under the guarantee; all the securities so received have now been disposed of.

In 1899 the company agreed to take over the concession for the Western Railway of Uruguay of a total length of 340 kilometres, or 211 miles, which has been in operation throughout since January 1, 1902; the concession is for sixty years from that date, and at the end of the concession the line reverts to the government. Subsequently the Western Railway was transferred to a subsidiary company, the Central Uruguay Company undertaking to complete construction, and an agreement has been entered into by which the Central Company is to provide rolling stock and work and maintain the line for the period of the concession, paying to the Western Extension Company a proportion of the gross receipts, varying on a sliding scale from 20 to 55 per cent., and guaranteeing a minimum net annual rental of 4 per cent. on £2,500 per kilometre; any advances made in respect of this guarantee are repayable out of future surplus earnings. The capital of the Western Extension Company is £2,500 per kilometre in 6 per cent. debenture stock, and a similar amount in shares, all of which, with the exception of £125,000 in shares given to original vendors

of the road, and £2,570 held by the subscribers and directors of the Western Extension Company, is held by the Central Uruguay Company as special security for the below-mentioned Western Extension debentures, which are, moreover, a direct obligation of the Central Uruguay Company. The authorised capital is £4,500,000, including £1,000,000 in shares of £10, created in October, 1912, and £1,000,000 in January, 1913. The capital consists of the following :—

£46,476 Permanent six per cent. debenture stock, with interest payable April 1 and October 1. This is the amount outstanding of the old 6 per cent. debenture stock for £1,105,794, holders of the balance having exercised the option given to them in 1915, of converting into the 5 per cent. debenture stock, referred to below, at the rate of £120 of new for every £100 of old stock. Holders of the old 6 per cent. debenture stock may still convert into the new 5 per cent. debenture stock.

£1,271,132 Five per cent. debenture stock, issued in February, 1915, in conversion of £1,059,324 of 6 per cent. debenture stock, holders of which received new stock at the rate of 120 per cent., thus giving the same income as before. Interest is payable April 1 and October 1, and the stock is a first floating charge upon the undertaking and its assets other than its interest in the Central Uruguay Western Extension Railway, Limited; it is irredeemable except in the event of the winding up of the company or the expropriation of the railway by the government, in either of which cases it is redeemable at 110 per cent. The stock is limited in amount to two-thirds of the amount of the subscribed or fully-paid share capital, in addition to the 4 per cent. Western Extension debentures and the 6 per cent. second debenture stock.

£1,000,000 Four per cent. Western Extension debentures to bearer of £100 each (being the total authorised), of which £400,000 was issued in December, 1899, at 90 per cent., £100,000 was sold in the market in 1900 at an average of 85 per cent., and £500,000 was issued in February, 1901, at 80 per cent. Coupons are payable April 1 and October 1, and the debentures are to be redeemed at par on or before April 1, 1960, by the operation of a cumulative sinking fund at a minimum rate of ¾ per cent. per annum, commencing in 1910, with power to the company to redeem the debentures at any time on six months' notice at par; the sinking fund is to be applied by purchases when the debentures are below par, and by drawings (in March) when at or above par. The debentures are a special charge upon the securities of the Western Railway referred to above; amount outstanding, £931,800.

£250,000 Six per cent. second debenture stock, issued in October, 1901, at 97½ per cent., with interest payable January 1 and July 1, and redeemable at the option of the company at par at any time (now) on six months' notice. The stock ranks after the foregoing 6 per cent. debenture stock and 4 per cent. Western Extension debentures.

£123,000 Loans.

£800,000 Five-and-a-half per cent. non-cumulative preference shares of £10, fully paid, having a priority as to capital, including 30,000 shares issued in November, 1913, at par.

£2,000,000 Ordinary stock.

The accounts are made up annually to June 30, and submitted about October, but an interim dividend (none, however, in 1915) is usually declared in April. General reserve fund, £161,086; general renewals fund, £49,288; fire insurance fund, £5,503; carried forward, £57,922, including £54,131 brought down. From July 1 to November 6, 1915, the gross earnings (Central Railway only) were £203,577, as against £159,500 from July 1 to November 7, 1914; on the Western Extension the figures were £30,682, against £23,044. Voting power, one vote for every £10 of ordinary stock up to £50, and one vote for every additional £50 stock. Director's qualification, £2,500 of ordinary stock, held for three months. Transfers are to be made out on common forms; fee, 2s. 6d.; in the case of the ordinary stock and the second debenture stock no lesser sum than £10 can be registered in any one account. The total of the mortgage is limited to $100,000,000, and it is provided that no bonds previously in existence shall be extended at maturity, so that after the redemption of pre-existing bonds the general mortgage is to rank as a first charge on the railroad property, real estate, &c., of the company. Bonds of this issue, however, may be used in retiring pre-existing bonds and other obligations of the company, and bonds may also be disposed of "for the improvement or extension of, or for additions to, the property covered by the mortgage, at a rate not to exceed $1,000,000 par value per year." Chilian Eastern Central Railway Company, Limited.—*Directors:* G. Hannaford and Vicomte de Santo Thyrso. *Secretary:* W. S. Lane. *Office:* 24, St. Mary Axe, E.C.—The company was registered March 19, 1910, to acquire a concession granted by the Chilian government for the construction of a line about 142 kilometres in length, from the Port of Lebu to the town of Los Sauces, Chili, and there joining up the Chilian state railways. The concession is perpetual, but the government reserves the right, subject to two years' previous notice, to purchase the line after the eighth year of working, "on paying 10 per cent. more than the price fixed by experts' valuation." The concession divides the line into two sections, and under it the government guarantees for a period of twenty years from the completion of each section a sum equivalent to 5 per cent. on £832,500 of bonds, the guarantees being payable separately, and any sums advanced by the government under the guarantees are a first charge on the surplus profits. Out of the proceeds of the undermentioned issue of bonds the company was to set aside sufficient for the payment of the coupons until the line was completed. A contract was entered into for the construction of the line, the amount provided by the issue of bonds being calculated as sufficient to carry out the construction, provide rolling stock, working capital, and the provision of bond interest during construction. The company, however, was obliged to cancel this contract, and has entered into a fresh agreement for the construction of the line, the new contractor being given until three months from the termination of the European war to complete the work of construction, which, for the present, is in abeyance.

The authorised capital is £240,000 in shares of £1, of which £200,007 has been subscribed and paid up. In October, 1910, there was offered for subscription by the Brazilian Railways Trust, Limited, 50, Cannon Street, E.C., £232,500 5 per cent. first mortgage bonds, of £20 each, at 95 per cent., the bonds being simultaneously offered in Paris and Brussels; they form part of £832,500 authorised, of which £690,140 has in all been allotted. Coupons are payable May 1 and November 1, and the principal was made repayable at par in 45 years by annual drawings (not later than three months after the close of each financial year) commencing in 1916, the company having undertaken to apply three-fourths of the net profits in cancelling bonds, either by drawings at 105 per cent., or by purchase in the market at any price not exceeding 105, until one-third of the entire issue has been cancelled, and thereafter it is to set aside one-half of the net profits until the amount of the bonds outstanding had been reduced by 50 per cent. The bonds were secured by a mortgage on the entire line and equipment, when completed, and by a charge on the above-mentioned annuity from the Chilian government. All payments on the first mortgage bonds have been made free from British income tax, in London (by Lloyds Bank, Limited, 72, Lombard Street, E.C.), Paris and Brussels.

Interest on the above-mentioned bonds was regularly paid down to November, 1912, but partial default took place in May, 1913, the interest then due being met to the extent of only about 50 per cent., whereupon Sir W. B. Peat, Kt., 11, Ironmonger Lane, E.C., was appointed receiver and manager. In March, 1914, holders of the first mortgage bonds sanctioned the creation of 6 per cent. prior lien bonds for such an amount as may be necessary for completing the construction and equipment of the railway, the payment of interest which may accrue in respect of any prior lien bonds issued up to the expiration of one year from the finishing and delivery for traffic of the whole of the railway, the provision of working capital, &c. (to November 15, 1915, none of the prior lien bonds had been issued).

At the same time the holders of the first mortgage bonds agreed to the conversion of their bonds into income bonds, with interest as from May 1, 1913, contingent on profits after meeting the service of the prior lien bonds, and to the suspension of the sinking fund, while after the prior lien bonds shall have been paid off, and provision made for a reserve fund, the old method set out above for the first mortgage bonds is to be revived. No interest has been paid on the first mortgage bonds since May, 1913. The accounts are made up annually to October 31, and those to October 31, 1911, were submitted in October, 1912. No later accounts have been issued, but this notice has been officially revised. Voting power, one vote for each share. Director's qualification 250 shares. Transfer form, common; fee, 2s. 6d. Telephone number, 3043 Avenue.

Chilian Northern Railway Company, Limited.—*Directors:* J. S. P. Samborne (Chairman), Col. Sir H. Jekyll, K.C.M.G., and G. G. Milne. *Secretary:* H. G. Clarke. *Office:* 8, Princes Street, E.C.—The company was registered August 25, 1910, to acquire a concession granted by the government of Chili for the construction of a railway 719 kilometres in length, the line to revert to the government at the end of the concession. This concession provides that as each section of 60 kilometres of railway is delivered to the government, the government shall issue in favour of the railway company a "credito," guaranteeing the payment of interest at the rate of 5 per cent. per annum, and of a cumulative sinking fund of 2 per cent. per annum, making in all 7 per cent. per annum on the capital cost of such section as fixed by the concession. The cumulative sinking fund payments will commence four years from the date of the "credito," and continue until the whole price of the section to which the "credito" relates has been repaid. The concession expressly provides that a "credito" once issued shall be altogether independent of any further obligation on the part of the company under the concession. The whole of the line has been accepted by the Chilian government.

The authorised capital is £500,000 in shares of £1, all of which, except the signatories' shares, has been issued to the construction company. In December, 1911, Chaplin, Milne, Grenfell and Co., Limited (now in liquidation), were authorised by the purchasers to receive subscriptions for £1,000,000 5 per cent. first mortgage debentures to bearer, of £20, £100 and £500 each, at the price of 93 per cent.; in July, 1912, Chaplin, Milne, Grenfell and Co., Limited, were authorised by the purchasers to receive applications for a further £1,000,000 of similar debentures at the price of 96 per cent.; in May, 1913, Chaplin, Milne, Grenfell and Co., Limited, were authorised by the purchasers to receive applications for a further £1,000,000 of similar debentures at the price of 96 per cent.; and further debentures for £55,750 have since been placed privately, making an aggregate issue of £3,055,750 (the total authorised). The debentures are specially secured on the "creditos" for a similar amount issued by the government in respect of the 719 kilometres of road. Interest on the debentures is payable June 30 and December 31, and they are repayable at par by 1940 from the sinking fund referred to, which is to commence in 1915, and to be applied in purchasing debentures for cancellation at or below par, or in redeeming debentures at par by drawings on one month's notice. Moreover, the company has reserved the right to redeem all or any of the debentures at par on any interest date on one month's notice. The accounts are made up annually to June 30, and submitted about the following June. In the year to June 30, 1914, a debit balance of £3,920 brought down was increased to £8,476, after providing for debenture interest. The debentures are to bearer, but may be registered as to principal only, and registered debentures may be re-converted into debentures to bearer, the fee for either operation being 2s. 6d. per debenture.
